

2 MORE SOUGHT TODAY BY STATE AUTHORITIES

Watchman of Women's College Held in \$5,000 Bail as Witness

FORMER MAID DENIES BRIBE FOR SECRECY

"Pig Woman" Repeats Previous Story of Witnessing Shooting

SOMERVILLE, N. J., July 30—William Phillips, factory worker, has joined the 49-year-old aristocratic Mrs. Edward Wheeler Hall in the county jail, where she was held without bail today, for the murder four years ago, of her clergyman husband and Mrs. Eleanor Mills, wife of a church section.

Phillips, who was a night watchman at the New Jersey College for Women, a few blocks from the Hall home, when the bodies were found side by side under a crabapple tree in September, 1922, was arrested last night as a material witness, and held in \$5,000 bail. Phillips informed investigators he saw the wealthy widow, reputed to be worth \$1,000,000 and her brother return home on the night of the slayings.

TWO OTHERS SOUGHT.

State officials, who have taken the case over from county officials, today sought at least two other persons on the basis of a mass of new evidence revealed in a re-opening of investigations that resulted from an annulment suit filed by Arthur S. Riehl against Mrs. Louise Geist Riehl, a former maid in the Hall home.

Mrs. Riehl yesterday denied assertions of her husband that she had been paid \$5,000 for secrecy. She quoted, however, as having received that Barbara Trough, another maid in the Hall household, was on duty on the night of the murder, saw the Rev. Mr. Hall and Mrs. Mills at their trysting place in an abandoned orchard, and telephoned to Mrs. Hall. Mrs. Hall is said to have left her home afterward in company with her brother, Willie Stevens, and her chauffeur, Peter Tunnely.

Mrs. Jane N. Gibson, known as the "pig woman," who testified four years ago she saw Mrs. Hall's pretty 34-year-old rival and then saw the shooting, was questioned yesterday and repeated her previous testimony.

Half Price, Last Samples

The balance of the Baby Carriage Samples are at your disposal for half price. We don't feel like asking the same prices for them as their mates, because a bit of the upholstery needs in one a minute's soaping, while another needs rubbing a damp rag over dust on the wheel or part of the framework. You won't tell them from others unless we show you where to rub some dust off. That's how good they look. Don't take one unless you find it exactly as described here. Half price—which means somebody will get ahead of you if you don't watch out.
