ATHLETIC CLUB HELD MEETING.
A general meeting of the newly organized St. John Athletic Club was held in the sugar workers' hall, Union street, on Monday evening. Some very encouraging reports were submitted by the different committees. A discussion on the name of the club took place and it was brought to the notice of the members that some years ago a club was formed under the foregoing name. So as not to encroach on the title of another club it was decided that in the future this club will be known as "The Central Athletic Association." Next Tuesday evening the election of officers will take place and it was decided to hold a concert in the near future.

GUARD AGAINST CHILLS

Simple Precaution Against Dangers of Cold and Damp.

Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Such weather is a tax upon the system, and the strengthening and warming powers of the concentrated beef-goodness fortify you against the evils consequent upon exposure.

If the uses of Oxo are new to you, try a tin of four cubes. Oxo greatly improves gravies, stews, or soups, and is a delightful, sustaining and appetizing beverage. It is excellent for children.

Regular users of Oxo prefer the larger tins of 10 and 50 cubes, using them in many different ways in place of meat.
