A HINT TO THE GENTLEMEN.—The ladies cabin in the ferryboat has lately developed into more of a gentlemen's cabin. Every day on the 12 o'clock trip about a dozen gentlemen go stalking into the ladies cabin and there stay until the boat reaches the West side. This trip is not the only time when this thing occurs but it is merely given as an example. Several ladies who have occasion to cross on the boat complain about men being in their cabin but still no effort is made to keep them out. The gentlemen should take this little hint themselves and let the ladies have one part of the boat.

THE BANKING LAW.

INTERVIEWS WITH LEADING BANKERS.

Some Views on the Changes Suggested as Being Desirable in the Canadian Banking System.

A GAZETTE reporter interviewed a number of our prominent bankers this morning in regard to their ideas on the changes which are suggested as desirable to be made in the existing Canadian banking law. These changes, if made, would take effect on the expiration and renewal of the Canadian banks' charters in 1891. They are now being considered by the finance minister and other members of the government. The end aimed at, is to have such a note currency in the Dominion that the notes of any Canadian bank shall pass at the face in any other Canadian bank in any part of the Dominion, and at the same time to have the note holders perfectly secured against loss in case of a bank failure.

Mr. Edward C. Jones, manager of the Bank of Montreal, did not care to express a decided opinion as to the best idea in regard to the currency and guarantee questions. He, however, said that he considered the present system a good one and quite safe for note holders as they have the first lieu upon the assets of a bank, and the double liability of the stockholders.

Hon. J. D. Lewin, President of the Bank of New Brunswick, stated the case and the suggestions under consideration clearly.

The movement, he said, in connection with bank circulation is to get it arranged so that the notes of Canadian banks should be redeemable throughout the whole Dominion, and when a bank suspends payment to keep the notes from falling to a heavy discount, that is note holders should be made perfectly secure. The general opinion is that the note holders are now secure from loss, the notes being a first lieu upon the assets of a bank, that is excepting the claims of the crown, which claims are in two or three cases disputed.

One proposition is that every bank issuing a note shall provide for its redemption at the principal towns in each province. If any bank suspends payment its notes shall bear interest from the day of suspension at the rate of six per cent. per annum. It is thought that other banks or private individuals would buy up these notes for the sake of having the 6 per cent. interest secured to them.

There is also a scheme for a guarantee fund to secure perfectly the final redemption of the notes, that is for each bank to contribute yearly for a certain number of years a certain amount on their circulation. There is a difference of opinion as to what extent the fund shall go. Hon. Mr. Lewin favored this proposition for a guarantee fund to protect the note holder.

In regard to the government taking over the issue of notes or the banks being compelled to make bond guarantees for all the notes they issued the same as under the United States system he said:

"The national bank currency of the United States, once $300,000,000, is down to $130,000,000. The banks cannot get the bonds. Many of the large New York banks have withdrawn their bonds and refused to circulate notes.

The Canadian bank circulation is $35,000,000. Withdraw $35,000,000 from discounts and you see how it would tell upon the public. The bankers maintain that our circulation is one of the best in the whole world because it is capable of expansion and contraction just as the public business of the country requires it. Bankers can issue notes now up to the amount of their paid up capital and no further. The paid up capital of the Dominion banks is about $60,000,000, and the bank circulation is only $35,000,000. The consequence is that if there comes a time in a broker's business that much money is wanted he can count on the circulation to provide for it. In Italy, Austria and Russia where the governments had taken the issuing of notes into their hands the notes were now at discount.

Mr. Jas. G. Taylor, manager of the Halifax Banking company thought the present system quite safe and on a sound basis. With regard to the suggestions brought forward he was inclined to favor the plan of the banks raising a gaurantee fund if it was really necessary.

Mr. George Sanderson, manager of the Bank of Nova Scotia, was quite satisfied with the present system without any changes. It answered the calls of business, caused little inconvenience, and the note holders were amply protected.

Six Stationers Have Not Signed.

The city stationers, with one exception, have agreed upon an earlier hour of closing. The arrangement goes into effect on Monday next.—[Telegraph, Jan. 29.

The booksellers as a body have not decided to close at 8 o'clock in the evening as reported in a morning paper. As many as four or five out of the full number have refused to sign the circular to that effect.—[GAZETTE, Jan. 29.

With one single exception, all the booksellers and stationers in the city have entered into the agreement for early closing as announced yesterday morning.—[Sun, Jan. 30.

As the above paragraphs are of a conflicting nature a GAZETTE reporter visited the majority of the booksellers in the city this morning and substantiated THE GAZETTE'S statement of last evening. At the instance of T. H. Hall, a paper recommending early closing has been circulated amongst the various stationers, with the result that some have signed and some have not signed. Amongst those who have not signed are: Barnes & Co., Prince Willam street, Watson & Co., Charlotte street, A. Murphy, Union street, James Crawford, Albert McArthur and W. G. Brown, Main street.

In conversation with THE GAZETTE reporter Mr. D. J. Jennings said that he had signed the paper only on condition that every other bookseller in the city would sign it, and he wished his position in the matter distinctly understood.

Mr. D. McArthur said he had signed the paper, but he was given to understand at the time that the booksellers and stationers as a body had agreed to it.

Mr. James Crawford stated that he had not been asked to affix his name to the paper, and if he had he wouldn't have done so.

Messrs. Watson & Co., thought that a general meeting of the booksellers should be called for the discussion of the early closing question. A right understanding could not be arrived at, in their opinion, by the circulation of a paper for signature.

Messrs. Barnes & Co., had on a previous occasion entered into a combine of a similar character with other stationers and some of these gentlemen had deliberately broken the compact. The firm had therefore come to the conclusion that they would conduct their business on their own lines, and close their store at their own discretion.

Mr. E. G. Nelson thought that early closing would be a benefit to the book selling fraternity, but he was doubtful whether it could be properly managed. He had signed the paper only as a recommendation, believing the others would do likewise.

Mr. T. H. Hall, had not the paper hearing the signature of every bookseller in the city "with one single exception," on hand when the reporter called. He was surprised as well as shocked, to think that the GAZETTE would state that four or five booksellers in the city had not signed the paper. He thought that the GAZETTE should have done as the Sun did, state what was not correct for the sale of helping on such a laudable scheme.

THE GAZETTE, however, stated what was correct last evening and has fully substantiated it, although the Sun has thought proper to contradict THE GAZETTE without first instituting an enquiry.

Common Council.

At the meeting of the Common Council yesterday afternoon the recommendation of the department of public works to terminate its contract with D. W. Clark & Co., for lighting the streets of the West side, was referred to a general committee to meet on Friday at 3 o'clock with power to act.

Their recommendation that Edward Lantalum be given notice to quit the wharf property held by him in Duke's ward was complied with.

The treasury board recommended the payment of sundry bills and that the city marshals be allowed 5 per cent on tax bills collected by them. Passed.

The ferry committee was authorized to negotiate a loan of $2,500 to meet present claims on ferry account.

The report of the local board of health was then read. The financial statement showed the balance in bank on the 31st December, 1888, was $86.95, which with the amounts received from the chamberlain made the total receipts of the year $3,281.30. The expenditure was $1,977.56, leaving a balance in the bank of $1,303.74.

The annual reports of the chief engineer of the fire department and the chief of police were read and referred to the department of public safety.

Wm. F. Bunting, Uriah Drake, John Wilson and Richard Farmer were appointed assessors for the coming year.

A proposition for a grant of $200 to the public library at the North end was postponed pending the report of the treasury department.

Ald. Lewis moved that the council authorize the city engineer to make plans and specifications of the probable cost of a wharf running from the Queen slip to the harbor line, together with digging out the mud on the south side of the wharf, the wharf to be wide enough to carry railway tracks.—Carried.

Ald. Nase moved that the city engineer be instructed to make a plan and estimate of probable cost of wharfing, etc., that would be required to make a wharf and approach for a steam ferry landing on the city side for the Pleasant Point ferry, and report to the public works department.—Carried.

Ald. Knodell moved the resolution of which he had given notice for the issue of debentures to the amount of $5,000 for fencing the old burial ground.

Ald. Peters moved in amendent that the board of works have plans prepared and advertise for tenders for the building of a fence around the burying ground.

The amendment was carried.

Ald. Chesley said James D. Leary of New York, was in the chamber and had with him plans for the dry dock which he proposes to build at Carleton. He moved that the plans be received and placed in the office of the common clerk.—Carried.

Ald. Shaw moved that the board of works be authorized to employ the Dominion government engineer, Mr. Perley, to inspect the plans.

Ald. Kelly moved an amendment that F. W. Holt, C. E., be employed for that purpose.

Ald. Shaw amended his resolution so as to read the Dominion government engineer, or any other engineer in their discretion.

Ald. Chesley thought Mr. Leary should furnish the council with a copy of the agreement into which he has entered with the local government in this matter.

Ald. Connor assured the board that Mr. Leary had in his possession a contract bearing the seal of this province and giving him the $2,500 subsidy granted under the act of assembly of 1882. Mr. Leary expected to get a subsidy of $30,000 from the Dominion government and about $10,000 from the local government.

Ald. Kelly's amendment having been lost, the original resolution was put and carried.

Obit—a Printer.

James Partridge, printer, died in the Poors' Asylum this week; he was not a pauper, in the ordinary sense of the term, but had become incapacitated from working at his trade. Jim was one of the old time type-setters; and there is hardly anybody in Halifax who ever was in connection with the newspapers, that has not at some time heard his name. Like Mr. Bunsby, he could express an opinion "as was an opinion"—from the wisdom of the strategic movements at Sebastopol (when the writer first remembers him) down to the "cold weather setting in so early" (last November). Jim never bothered himself about politics, or civic affairs. He carried "proofs", to Joe Howe, (in the latter's palmy days), and didn't think it was any particular distinction. He worked by day, or by night, it was all the same to him; and was nobody's enemy, not even his own. Probably many printers away from here now, will recall recollections of "Jim Partridge" when they hear that he is dead.—Halifax Recorder.

Saint John County Court.

In the County Court this morning the first case on the docket Patrick McGuire vs. Alexander Stewart was settled, after the jury had been impannelled.

No. 6. Patrick H. Gorham vs. Daniel Barry, was made a remanet upon application of the defendant.

The case of Kitchen vs. Hoar will be taken up tomorrow morning if Mr. C. A. Palmer, who defends, is well enough to go on with it.

The criminal case to be tried under the Speedy trials act, is set down for tomorrow.

The court again adjourned till tomorrow morning.

I am still selling those celebrated Briar Pipes with pure Ambers at 25 cents each LOUIS GREEN, 59 King street.

Police Court.

Mary Jane Graves, drunk on Pitt street, and Theodore Watts, drunk on the Strait shore, were fined $8 each.

THOSE who investigate for excellence and beauty in photography will be repaid by a call at Climo's. In comparative merit his prices are lower than any. 85 Germain street.

Guy Turner the city treasurer of Augusta Maine shot himself yesterday in his office vault. He will probably recover. He has been ill with la grippe and despondent.

Brevities.

Mary Ann Lordly, once well known in this city, fell over a fire plug in Halifax one night recently when the lights were out and sues the city for damages.

At a meeting of the Halifax council yesterday afternoon, Alderman Dennis denounced Alderman O'Donnell as "A liar and a coward."

F. S. Hilyard, of Fredericton, is seriously ill.

Alex. Nevers, postmaster at Hartland, Carleton Co., and for many years a member of the Municipal council, was buried yesterday. He was 37 years of age and leaves a widow and one son.

The St. John Gas & Electric Light Co. have completed arrangements for the introduction of the incandescent light, and are now only awaiting the arrival of their engine and some wire to put the system in immediate operation.

The conversazione in St. Paul's church school room last evening included vocal and instrumental solos, readings, etc, and was very successful.

Fifteen hands are employed at the Barnesville gold mine and specimens of ore taken out have assayed from $3.50 to $40 per ton. New machinery is being put in and hopes are entertained that the mine will prove as valuable as any of the Nova Scotia mines.

The directors of the St. John Bridge and Railway Extension Co. have elected F. E. Barker, president; Hon. Thos. R. Jones, vice-president, and T. Barclay Robinson, secretary-treasurer.

John Wynn, died at Truro yesterday in his 106th year. He was one of the few survivors of the Shannon-Chesapeake fight.

The houses of Geo. R. Smith and Charles Hibbert of Yarmouth were destroyed by fire yesterday. The former was insured for $2,500 and the latter for $2000.

The pilot boat Lightning, moored in Lower Cove slip, fell over on her starboard side Tuesday night and filled with water. Preparations are being made to lift her.

On Tuesday Duputy Supreme Regent J. M. Taylor installed the following officers of St. John Council, No. 133, R. A.: Regent, Wm. Robson; vice-regent, W. Watson Allan; past regent, H. D. Peters; orator, S. R. Jack; secretary, D. McNally; collector, James McNichol; treasurer, J. M. Taylor; chaplain, Rev. L. G. Stevens; guide, Geo. A. Kimball; warden, James Emery; sentry, H. B. White. The council, organized in 1878 now has 103 members. Since 1878 it has lost 5 members by death and has received $15,000 which has all been paid to the beneficiaries of the deceased.

The Provincial Farmers' Association.

Yesterday morning's session of the Provincial Farmers' Association at Fredericton was occupied with papers on Buttermaking, by J. T. Fletcher of Carleton Co., and Dairying by Prest Peters. In the afternoon the present condition of the dairying interests of the province was considered by E. H. Turnbull of this city and Economic Feeding by J. B. McKay of Stellarton, N. S. In the evening Col. Blair of the Experimental farm at Nappan, spoke very intelligently of the cost and benefit of underdraining and also of the value of different kinds of fertilizers. There is a good deal of significance in the following statement.

Col. Blair gave some returns from several plots fertilized with different manures. Good barnyard manure, well made was the best manure tried. One-tenth acre plots were manured by the following substances, and the lbs. of oats yielded, with the weight per bushel, was as follows:—

Farmyard manure gave 88 lbs. of oats, weighing 37 lbs. to the bushel, on the one-tenth acre.
Mussel mud gave 47 lbs., weighing 33 lbs. per bushel.
Bone meal yielded 56 lbs., and 34 lbs. per bushel.
Ground phosphate gave 44 lbs., 34 lbs. per bushel,
Guano gave 49 lbs., 34 lbs. per bushel.
Corn fertilizer yielded 62 lbs., 36 lbs. per bushel.
Superphosphate of lime, 70 lbs., 36 lbs. per bushel,
Nitrate of soda gave 61 lbs., 35 lbs. per bushel.
Archibald fertilizer gave 69 lbs., 36 lbs.
Ceres superphosphate gave 68 lbs., 34 lbs. per bushel, and the plot unmanured gave 42 lbs. of oats, weighing 31 lbs. per bushel.

CARD.
To the public and our numerous patrons. As our business has made great strides during the past year and greatly exceeded our expectations we find it impossible to keep track of such a large number of small accounts unless we keep a large staff of book-keepers and collectors constantly employed which we cannot afford to do, therefore we have been compelled to notify you all that in the future we intend to do a strictly cash business. Parties wishing accounts rendered monthly will be accommodated, but all such accounts will have to be paid when the last parcel for the month is sent. All other parcels will have to be paid for on delivery. Hoping that all will see the justice of our course and soliciting a continuance of patronage.
We remain yours truly,
