A Word to Teachers. D. McARTHUR Stone, Brick and Plaster

Ten years ago not one teacher in five hundred had an Encyclopedia. To-day there is hardly one in five hundred, but that either owns an Encyclopedia or has access to one. Free Libraries and Mechanies' Institutes have accomplished great things for the teachers and others in this Dominion of ours, but the time has now come when teachers require books for every day use. The Gazette offers teachers a chance toget a library of their own in one great publication, viz., the Encyclopedia Britannica, Revised and Amended. The information contained in this colossal work represents the careful labor of over 1,000 of the ablest writers of the nineteenth century and is complete up to 1891. Fifty cents per week for one year makes you the happy possessor of this vast storehouse of knowledge.

AILY EXPECTED :-From New York 2 Car-Hard Coal in broken Stove and Chestnut recognized as termini for a Canadian mail service. With regard to St. John there has been so much prejudice entertained, and so many falsehoods have been promulgated in regard to this port, that it is not surprising that so little has been done for us. But Halifax, which has had mail steamships calling there for more than forty years, might have secured some sort of recognition from the government. If it is the case that no Canadian port can become the winter terminus of a Canadian mail service or the entrepot of the freight for the upper provinces, the state of affairs which is thus developed is one which will require the serious attention of our people. We are not prepared at the present to say what course the maritime provinces ought to take, if they find themselves entirely thrown out of Canadian business, but certainly matters could not be allowed to remain in that president and the phase of the phase of our public schools and colleges are any better qualified to grapple with life than they were when they entered those institutions. The reason is because they have been following blind guides; if they have studied at all it has been without a definite object in view. In adopting of all men. It is now time that another step should be taken. When we reflect that the average of human life is only thirty-three or thirty-four years, that our sons and daughters emerge from school at 20 or 22 years of age—one thind the second of the freight for the present of the first lives frittered away in aimless to could not be allowed to remain in that the average of human life is only thirty-three or thirty-four years, that our sons and daughters emerge from school at the ensuing year:

Yoke-president—James Woodrow.

Our Ministers find it necessary to purchase many books, but only few of them feel that they can afford to pay from \$150 to \$200 for an expensive Encyclopedia. This is a progressive age. The Gazerre offers the "Encyclopedia Britannica, Revised and Amended," which is acknowledged to be the very best work ever published, in connection with a year's subscription to the paper for the small sum of the chanical Toys, Rubber Town. Salem Grapes, Concord Grapes, Bartlett Pears. TAYLOR & DOCKRILL OLD WHEAT. A Word to Lawyers.

Now is the opportunity to make the valuable addition to your fibrary that you have long been contemplating. The Encyclopedia Britannica, Revised and Amended is a necessity to every lawyer. Questions are coming up every day which make an Encyclopedia indispensable to you. Fifty cents per week for one year will purchase this mammoth publication and you get a yearly subscription to one of the best papers in the Dominion, in the bargain.
