THE FIGHTING IN CUBA IS NOW ALL ON LAND

WAS HARD TO LAND A DASH FOR SPAIN. SOME DOING WELL HAD A GOOD TIME

Men and Mules Drowned and Crushed at Baiquiri.

Cuban Troops Almost Naked and Mostly Barefoot—A Motley Army.

Baiquiri, June 25.—There were two casualties during the landing of the troops at Baiquiri, Corporal Cobb and Private English, of Troop D of the Tenth Cavalry (colored), fell between a lighter and the pier. Capt. O'Neill, of Wood's rough riders, plunged into the sea at the risk of his life, but the men were crushed before he could reach them. O'Neill is a former Mayor of Tucson, Arizona. Several horses and mules were drowned while swimming ashore through the surf.
Gen. Garcia's army of four thousand men is to be conveyed by transport from Assoleros and landed at Baiquiri to join the 1,300 men under General Castillo, and co-operate with the American troops. The movement yesterday almost amounted to a change of base.
The Cubans who entered Baiquiri after the Spaniards had deserted the town, were clothed in rags and many of them were two-third naked. Some had no trousers and only tattered shirts, while the majority of them were barefooted. They were mostly negroes, some being boys of only fifteen years of age. The guns they carried were of many models, ranging from flint locks to Mausers and Remingtons. All, however, were armed with machetes. The officers rode donkeys and scrub horses. The sun was blazing hot and a number of the soldiers were prostrated by the intense heat and were taken on board the hospital ship.

FINED FOR CRUELTY.

The Planet a few days ago, told told how Thomas Johnston, of Morpeth, got in a rage at his horses and beat one of them to death. Johnston appeared before P. M. McKinley at Ridgeway on Wednesday and was fined \$30 and costs.

It Will Probably Follow the Fall of Santiago.

That It Is Believed Will be the Only Way to Bring Spain to Its Senses.

Washington, June 25.—The war is to be carried into Africa, metaphorically speaking. If Spain is foolishly enough to send the Cadiz fleet through the Suez canal to attack Dewey in the Philippines. It is announced on good authority that before the last Spanish vessel has passed through the canal an American squadron will be steaming at full speed across the Atlantic, straight for the coast of Spain to bring the war home to the Spanish people. There is no doubt that Dewey can take care of himself against the Cadiz fleet, since his own squadron will be reinforced by ironclads long before Cervera's ships sight the bay of Manila, and he will have the shore batteries with him instead of against him in the struggle. But it has been concluded by the administration that nothing save the most severe measures will suffice to bring the Spanish people to a realizing sense of the hopelessness of the continuance of the present war, and even kindness, it is held, will not dictate such a blow as that it is proposed to administer if

CARRIED BY CAVALRY.

Two Thousands Spaniards Defeated at the Gates of Santiago.

BUT THE AMERICANS SUFFERED HEAVILY IN THE FIGHT—SOME BLUE-BLOODED NEW YORKERS AMONG THE SLAIN.

Guantanamo Bay, June 25.—Yesterday morning (Friday) four troops of the first cavalry, four troops of the 10th cavalry, and eight troops of Roosevelt's rough riders—less than a thousand men in all—dismounted and attacked 2,000 Spanish soldiers in the thickets within five miles of Santiago de Cuba. The Americans beat the enemy back into the city, but they left the following dead in the field:—

Rough riders—Captains Allyn K. Capron, of Troop L; Sergeant Hamilton Fish, jr., son of the well-known New York banker; Private Tillman and Dawson, both of Troop L; Private Dougherty, of Troop A; Private W. T. Erwin, of Troop F.
First cavalry—Privates Dix, York, Bjork, Berlin, and Lenmark.
Tenth cavalry—Corporal White.

At least 50 Americans were wounded, including six officers. Several of the wounded will die. Twelve dead Spaniards were found in the bush after the fight, but their loss was doubtless far in excess of that.

Gen. Young commanded the expedition, and was with the regulars, while Col. Wood directed the operations of the rough riders several miles west. Both parties struck the Spaniards about the same time, and the fight lasted an hour. The Spaniards opened fire from the thick brush and had every advantage of numbers and position, but the troops drove them back from the start, stormed the blockhouse, around which they had made a final stand, and sent them scattering over the mountains. The cavalrymen were afterwards reinforced by the 7th, 12th and 17th infantry, part of the 9th cavalry, the 2nd Massachusetts, and the 71st New York. The Americans now hold the position, at the threshold of Santiago de Cuba, with more troops going forward constantly, and they are preparing for a final assault upon the city.

The Spanish persist in this last project. After the fall of Santiago and the capture of Cervera's fleet, the Spaniards will have an abundance of vessels to spare for the task set for them. Probably they will constitute the attacking fleet in two squadrons, the first a flying squadron to be composed of the swiftest vessels of the fleet. This will be followed under another command, either Sampson or Schley, by the battleships. The Spanish case would be speedily enveloped of all commerce, all Spanish shipping would be destroyed and some of the best ports blockaded or bombarded.
