FUTILE TALK ON LICENSE BY-LAW

SUGGESTION NOT TO AMEND IS SCOUTED

Aldermen Recognise Their Impotency in Regulating Sale of Liquor--No Action Taken

The liquor license question was again before the city council Monday night, after a suggestion by R. T. Elliott, made to the city solicitor, and conveyed by them to the council, to the effect that the liquor license regulation by-law should not be amended, but that the judgment of the Full court in the case of Maloney vs. the City, should be appealed, was almost unanimously rejected. From the expressions of the majority of the aldermen it was evident that they were averse to carry-

The following letter was received from the city solicitor: "Gentlemen,—We beg to report that we have taken advantage of the council's permission to, in the absence of the city barrister, Mr. R. T. Elliott, counsel, upon the amendments to the liquor license regulation by-law, and Mr. Elliott expresses the strongest distinction in his opinion upon any amendment, as he is clearly of opinion that an appeal taken against the decision of the Full court should be successful."

"Mr. Elliott considers the by-law as originally drawn will be found to be well within the powers of the council, and as we settle the form of the by-law with this belief we trust the council will see fit to allow us to bring the appeal to the Supreme court of Canada."

"We enclose Mr. R. T. Elliott's letter to you upon the subject. "If the council decided upon the appeal the resolution should authorize our being furnished with the necessary sum of \$500, the security for the costs required by the rules."

"MASON & MANN." The enclosure, a letter from Mr. Elliott to the solicitors, read as follows: "Victoria, Aug. 17th, 1907. Messrs. Mason & Mann, City Solicitors, Victoria, B. C. Dear Sirs,—Liquor License, Regulation By-law. I have considered the proposed amendments to above by-law, referred to in your letter of the 13th inst. These amendments, while in line with the reasons for judgment given by the Full court in the case of Maloney vs. City of Victoria, will render the by-law ineffective, in the sense that it will be unenforceable."

"The by-law as passed is effective and enforceable, and should not be amended, inasmuch as the Full court in the case of Maloney vs. City of Victoria, will render the by-law ineffective, in the sense that it will be unenforceable."

"An appeal should be taken from the judgment in the case of Maloney vs. City of Victoria. My reasons for advancing this appeal are set out in the enclosure hereto. I have also attempted an analysis of the authorities bearing on the by-law making proper reference upon the points in controversy. Even if the depu- ing it is doubtful by the diplo-

DISCORD AMONG CONSERVATIVES

STRUGGLE FOR NOMINATION IN PICTOU COUNTY

Tupper Tries to Solve Difficulty--Will Run if Party Wants Him.

Halifax, Aug. 19.—There has been a small sized furry in Conservative circles during the past few days. Down in Pictou county there is a struggle going on between A. C. Bell, ex-M. P., and C. E. Tanner, leader of the opposition in the local legislature, for the Conservative nomination for the Dominion house. Sir Charles Hibbert Tupper was sent for and he has intimated in a general way that he will be a candidate if the party wants him. This is supposed to cut out both Bell and Tanner, but advice from New Glasgow says that Mr. Bell will not be cut out. Once before he kicked over the traces and ran as an independent.

RESEARCH WORK AT PORT REEFREW

AMERICAN SCIENTISTS RETURN FROM SESSION

Professor Josephine Tilden Tells of Important Investigation Conducted at Station.

Twenty-four professors and advanced workers in science from a number of different states who have been holding their annual summer's session at the Linnesse seaside station, Port Renfrew returned Monday on the steamer Tees and have gone back to their homes. Among the most prominent of them were Dr. Schneider, professor of ichthyology in the University of California; Dr. Rosendahl, professor of taxonomy at the University of Minnesota; Professor Butters, who is interested in coniferous forestry; Professor Huff, Professor Oestland, a lecturer on entomology at Minnesota University, and Professor Kings, of Ohio, who has been two years engaged in studying the kelps; Miss Josephine Tilden, professor of botany at Minnesota University.

This year has been a record one in many ways. In the first place there are no young students in the party. All are advanced workers. Then the opportunities have been greater this season than any year since 1898, on account of the extremely low tides. In that year Miss Tilden, who now has charge of the party, visited the spot, but was unable to take full advantage of the low tides as they did this year. The lowest tide was July 27th, the water going out so far on that occasion that it seemed as if the straits were going to run dry.

In speaking of the work, Miss Tilden said: "There are four things for which the station is particularly noted—its seaweeds, marine animals, coniferous forests and geological formations. The algae and other seaweeds are more numerous and easier obtained at that point than at any other in the world, as which I know. In marine animals the starfish are extremely numerous. The forests are wonderful, the trees being so tall and of such immense size; and the variety of geological formations is so great, that there are within reach of the station almost every kind of formation known."

"These are not the only lines of study followed by the members of the party. For instance, Dr. Rosendahl and Mr. Butters are compiling a description of the flora of Vancouver Island. It will probably be published some time after our visit next summer. The work will be well illustrated and will aim to be exhaustive. Before giving it to the press the gentlemen will visit every section of the Island."

"Professor Oestland, too, is studying the entomology of the West coast particularly the plant life. Of these he has found several entirely new species. The journal published every year on the results of the research conducted at the station will give an account of these. The name of the journal is 'Postelsia,' from a rare seaweed found at the station."

"Every year the stronger members of the party climb to the top of Mount Edzards, sixteen miles distant from the station. This year six men and three ladies visited the summit, a four days' journey," concluded Miss Tilden, "that the station is the best point in the world for scientific study. That is why it was established there."

While in Victoria the party were guests at the Dominion hotel.

DESPONDENT YOUTH'S SUICIDE.

MILL HANDS STILL HOLD OUT

REJECT THE OFFER MADE BY COMPANY

Valleyfield, Que., Aug. 19.—For a while to-day it looked as if the strike of the 2,500 operatives of the Montreal Cotton Company was to have a speedy ending. The company agreed to give the mill spinners an advance of 10 per cent. The other operatives to return under the old conditions. The committee were satisfied with the settlement, but when it came to the main body of workers the disposition was to hold out for an advance of 10 per cent. all round, as demanded. This the company considers it impossible to grant, and in consequence the strike must go on. There is a report that the retail merchants of the town have decided to refuse to give credit, and if this is so, the strike cannot last long.

BROKEN RAIL CAUSED WRECK

REPORT THAT SEVERAL PERSONS WERE KILLED

Train Was Running Thirty Miles an Hour at the Time of Accident

Newport, Ark., Aug. 20.—Passenger train No. 3, the fast train between Texarkana and St. Louis, on the Iron Mountain line, is in a ditch at Alton lake and the meagre reports received are that several persons have been killed and many injured. The wreck occurred last night and is said to be due to a broken rail.

BOTHA'S PROPOSED GIFT TO THE KING

Plan to Present the Cullinal Diamond to His Majesty Is Criticised.

London, Aug. 20.—The plan of Premier Botha, of the Transvaal, to present the Cullinal diamond to King Edward meets with much criticism, both in England and in the Transvaal. The finances of the colony are in bad condition, and many people think the expense is unnecessary. Moreover, the 'magnates' of the Premier Diamond Mining Company have found the Cullinal diamond a white elephant as there is no market for such high priced stones.

DANCED WITH THE KING.

Mme. Lafamme, Who Has Just Passed Away, Was Prominent in Montreal Social Circles. Montreal, Aug. 20.—The death of Madame Virginie Lafamme, at the residence of her son, Mr. Godfrid Lafamme, has removed one who was prominently identified with Montreal's social life in the past. In the old times, when Montreal had a garnet and British red coats were dwellers in this city, Mme. Virginie Roy, afterwards Madame Godfrid Lafamme, was one of the leaders in the gay society of the time. When the Prince of Wales, now His Majesty the King, visited Montreal in 1860 among those who had the honor of dancing with him at the ball was the lady who has just passed away. Her husband was the broker and business partner of Hon. Rudolph Lafamme, a member of the MacKenzie government. The firm were counsel for the defence in the cases of the St. Alban raiders and the accused were concealed in Mrs. Lafamme's house for several days and she secretly conveyed food from the kitchen to their place of concealment in the garret. This was in the house on St. Catherine's street, between Mansfield and Metcalfe streets. The late Mr. Lafamme, husband of the deceased, was the brother of Lady Jette, wife of Sir Louis Jette. There survive two sons, Mr. Godfrid Lafamme, of the post office, Mr. Raoul, and two daughters, Mrs. Virginie Strugeon and Mrs. Charles Massey.

NEW YORK TRAGEDY.

Man Who is Suspected of Having Strangled Woman Has Been Taken Into Custody. New York, Aug. 20.—The police of Jersey city have arrested a man for the murder of Mrs. Sophie Kehrer, the wife of a Buffalo man who was strangled with a cravat in a room in West 22nd, this city, on July 20th. The man is known to the police both as Gulsan and as the 'Buffalo man'. He is alleged to have given the name of Davis when he hired the room in which Mrs. Kehrer's body was found two weeks later.

R. MANSFIELD'S CONDITION.

Saranac Lake, N. Y., Aug. 20.—Richard Mansfield has decided to prolong his stay here. Inquiries as to his condition are answered by Mr. Mansfield's brother, Frank, with the statement that there is no change.

BRUTAL ASSAULT.

CONSPIRACY TO DEFAUD COMPANY

STEWARDS OF C. P. R. LINERS IMPLICATED

Montreal, Aug. 19.—In conversation this morning Mr. Paquette, secretary-treasurer of the longshoremen's union, stated that neither the men nor the society's officers were thoroughly satisfied with the conditions under which the recent dispute was settled. The document the men had been called upon to sign the union officials did not consider worth the paper on which it was written, and Mr. Paquette added, with a significant look, that the men were not in such a settled condition at the wharf as on the surface they appeared to be. It is within the range of probability that there will be further trouble by the fall.

CONSPIRACY TO DEFAUD COMPANY

STEWARDS OF C. P. R. LINERS IMPLICATED

Canadian Architects Meet in Montreal--Commander of British Artillery Team Praises Canadians

Montreal, Aug. 19.—The C. P. R. steamship company has discovered a big conspiracy to defraud them out of fares. Some stewards are alleged to be bringing out passengers unknown to the company or passengers. It is covered on the Empress new line. It is said six passengers and three stewards will be deported and will be tried criminally on the other side. Steel-Coal Case.

Montreal, Aug. 19.—The steel-coal case was brought to a close this afternoon at 4 o'clock. There is much speculation as to what will happen next. Judge Langley's decision will probably be given within a month, and the case will be appealed. Which ever side wins will not be known until the decision is given by the Privy Council. Other claim and arrangement for a settlement will be made within three weeks, and the trial will serve the purpose of bringing out points in the dispute. To-day's proceedings were entirely devoted to argument.

Architects Meet. Montreal, Aug. 19.—This afternoon at 2 o'clock the congress of Canadian architects was formally opened in the assembly hall of the Canadian Society of Civil Engineers on Dorchester street by address from his Worship the Mayor, Hon. W. A. Weir and A. F. Dunlop, the president of the provincial board of institute. These were responded to by R. F. Lemay, president of the province of Quebec association of architects; Edmund Burke, president of the Ontario association of architects; S. Frank Peeters, president of the Manitoba association of architects; and Edan Smith, Toronto architects' eighteen club; W. Hilton, president of the Regina architects' association; F. Desgenettes, president of the Alberta association of architects. To-night's session was occupied in framing a constitution and by-laws of the new Dominion association.

Earl Grey's Tour. St. John, N. B., Aug. 19.—His Excellency the Governor General and party passed through the city at noon to-day in the private car of the Canadian Pacific. Earl Grey said he had greatly enjoyed his trip to St. Andrews. He was somewhat inconvenienced because of the cold, but he had a headache. The party left shortly after the head of Point Du Chene. They will visit Charlottetown for a few days and return to Ottawa on Sunday, travelling from Montreal by steamship. While on the island Earl Grey will visit the MacDonald consolidated school at Hillsboro.

Prisoner Canadian. Halifax, Aug. 19.—The British artillery team left for Quebec this afternoon and sail for England on Friday. "We have been overwhelmed by kindness in Canada. Everywhere we went we have been received with the greatest kindness, and we appreciate it very much," said Earl Stradbrook. "We admire the excellent work done by the Canadians very much. Their gun laying was especially good. One thing that pleased me very much was the interest taken by the people of Halifax in these competitions." Earl and Countess Stradbrook will not return with the team, but are going through Canada to the Pacific Coast. A number of the team are also going to remain in Canada some time. The cup presented by the King, which was won by the Nova Scotia team, was not a challenge cup, but was to become the permanent property of the association which was victorious. The Nova Scotia team having won it, the decision is to his postal rests with the Canadian Artillery Association.

FOREST FIRES. New York, Aug. 20.—Forest fires raging in the woods of East Port, Long Island, have devastated hundreds of acres of woodland. Early to-day the flames had swept within a quarter of a mile to the famous Country club house which, with its contents, is valued at \$50,000.

PREPARING FOR NEW PLANT

Superior, Wis., Aug. 20.—The work of excavating for buildings on the site of the steel corporation's new plant has been begun at new Duluth.

MOORS AGAIN ATTACK FRENCH

DETERMINED CHARGES BY NATIVE HORSEMEN

Fighting Lasted Four Hours--The Tribesmen Were Repulsed With Heavy Loss.

Casablanca, Aug. 19.—A large force of Moors suddenly descended upon the French camp early this morning, but were driven off after a sharp conflict. The tribesmen advanced to within eight hundred yards of the city when General Druce sent against them, under the cover of the guns of the warships, a detachment of 50 Arab horsemen in the French service. The firing lasted from 7 to 11 a.m.

The French used field and machine guns with deadly effect in repelling the attack of the Moors, and shells from the cruiser Cloire also rendered efficient service. From the military point of view the engagement was a small affair, but nevertheless it was an exhibition of splendid individual bravery. Bodies of horsemen charged repeatedly in the face of magazine rifles and Maxim artillery fire.

One of the striking pictures of the fight was an old Arab, apparently a Kaid, who was mounted on a black horse and carried an all red flag. He headed a long line of horsemen in a fierce downhill charge. When the horsemen halted before the withering fire and turned and galloped back, this old man stopped, looked quietly at the French position, and then with the utmost sangfroid he slowly and coolly retired.

The Arabs have retreated a considerable distance, but a renewal of the engagement is expected. Natives Lost Heavily. Paris, Aug. 19.—A telegram received here from Vice-Admiral Phillipart declares that the natives apparently suffered heavy losses during the engagement when the camp of General Druce was attacked.

Advices received from Morocco City declare that Mulai Hafiz, brother of the Sultan, has been proclaimed Sultan by the neighboring tribesmen. The correspondent of the Matin at Casablanca speaks in long praise of the 15 millimetre gun, 14 rounds of which he says put 1,500 Arabs to flight. In attacking the centre of the camp on the night of August 17th, the French succeeded in driving the French positions, where two rapid firing guns had been mounted on the roof of a farm building. These guns, each with 500 shots per minute, swept the ground with a rain of lead and covered it with dead and dying.
