Toronto Yesterday. Toronto, Aug. 1 .- Archbishop Walsh died suddenly last night, and the event, so entirely unexpected, has caused a great shock to the Catholic community. At 10 o'clock symptoms of heart failure became evident, and he rapidly sank and expired at 20 minutes to 11. The funeral takes place on Thursday. All the bishops of Eastern Canada have been notified and are

The Most Rev. John Walsh, Roman Cathlic Archbishop of Toronto, was born in reland in 1830 and came to Canada in He was ordained deacon in 1854 and the same year reaised to the priest good at St. Michael's Cathedral, Toronto. 1855 he was appointed to the Brock Dission on Lake Simcoe, and in 1857 re ved his more important charges, first of St. Mary's, Toronto, and then rector of Michael's Cathedral and vicar-general the diocese. In 1864 he visited Rome or the first time and was accorded disnction by Pope Pius IX. He succeeded Pinsonneault as Bishop of Sandwich, and in 1868 received the Episcopal See of ndon, Ont. When he next visited Rome 1876 Bishop Walsh was able to report remarkable improvement in the position his diocese, which continued until 1885, and as a crowning token the new cathedral of St. Peter's at London was dedicated. 1882, when visiting Ireland, he took part the ceremony of unveiling the O'Connell nument in Dublin, having previously, in 1864, assisted at the laying of the corner tone. At the close of the twentieth year of his episcopate, in November, 1887, he again repaired to Rome and assisted at the ubilee of Pope Leo XIII. at St. Peter's.

Bishop Walsh was on his return to anada from this official visit Archbishop ynch of Toronto laid down in death the rozier which for 28 years he had carried with so much zeal, and, by a brief from Rome dated August 27, 1889, Bishop Walsh's eventful career as Bishop of London closed and he was appointed to the Archbishopric Toronto, the ceremonies of the instalon taking place with great pomp on ovember 27. To the duties of the new charge he applied himself with the same zeal which had characterized his adminisation of the London diocese, with rewhich are apparent on all sides, the most conspicuous, perhaps, being the renoof St. Michael's cathedral. which in its interior decorations is now ne of the chief ornaments of Toronto while the constant visitation of the archdiocese and the encouragement of students greatly increased numbers for the sthood, testify to the activity of His face in those important branches. If these are accepted by Spain in their entirety ,it is stated that comissioners will be named by the United States to meet commissioners on the part of Spain for the purpose of concluding a treaty of peace on the basis above indicated." The Feeling in Madrid.

London Aug. 2.—The Madrid correspondent of the Standard says: The terms laid down by the United States are harder in tone and substance than supposed, especially regarding the Philippines, where scope is left for Aguin-aldo and the natives to interfere in the final settlement before a mixed commis-sion, which would create conditions in the archipelago rendering the working of Spanish rule impossible. It is rumored also that America insists on Spain paying the municipal debts in the Spanish West Indies and the old standing claims of American citizens.

Washington, Aug. 2.—It is very well understood at the department of state. that as soon as the preliminaries are settled, Ambassador Cambon's mission for Spain will end and "further negotiations' can follow the agreement on the first conditions with the United States to be taken up by chosen commissioners.
With the confidence that these expectations will be realized the administration is directing attention to the shrinking of the great war organization which has been created since the prospect of war began to be alarming. The work of expansion and shrinkage may seem for a while to be going on at the same time, but already arrangements are being made to cut down public expenses by releasing many vessels chartered at great cost as a service supplementary to the navy. With peace negotiations in sight this task will be urged with vigor.
