ST. JOHN, N. B., MARCH 20, 1902.

A SUGGESTION.

The liberal journals in St. John ap pear to be much elated over the bud get speech of Hon. Mr. Fielding. They talk jubilantly about a surplus and a buoyant revenue. If the condition of will no doubt impress upon the gov ernment the necessity for a reasonabl expenditure to provide needed wharf xtensions in St. John harbor. city has expended large sums and ha a right to ask for aid in the work which is still needed to fully equip the port The work is of national importance and in the interest of the whole cour try. Winter port business, inaugurated by the liberal conservative govern ment, although its development was fo a season retarded by the policy of th tions, and is destined to increase very much more. Now is the time for the liberal papers to demonstrate their in terest in this port. Their party is in power and they should be able to wield some influence. Let it be exerted for the benefit of St. John.

GEN. DELAREY.

Because Gen. Delarey did not burn Gen. Methuen at the stake, or flay him alive, or execute summary vengeance in some manner upon the wounder British officer, he is being much be lauded by the correspondents of American papers, and by the Irish member of parliament. It is due to Gen. Delarey to say that he treated his dis tinguished prisoner with every consideration, and set him at liberty. In doing so he manifested fine soldierly qualities, and also something of the wisdom of the diplomat. Gen. Delarey is not unaware of the fact that any indignity put upon the person of a wounded British general would be very bad for the Boers. He knows that many Boers are prisoners in the hands of the British, and that they include quite a number of men of note. He knows, furthermore, that a vast army of Boer women and children are being fed at the expense of th British government, and that leniency has marked the treatment of his people by the British throughout the war. It is a tribute to his discernment that h recognises these facts, but there is no casion for bouquets. His eulogist should allow it to be taken for granted that Delarey is neither a fiend no a fool.

The Telegraph professes to find that there is something lacking in th speeches of opposition leaders at Ot tawa. The like may be said of the or Old-time liberals yearn for an old-tim speech from Sir Richard Cartwright or Sir Wilfrid Laurier, or Mr. Fielding on the evils of protection and the rob bery of the people by the manufactur ers. They yearn in vain, for they hear instead the strong protectionist speeches of Mr. Tarte and other members of their own party. The tories are not now called upon to denounce free trade theories. The free traders are with-out an advocate in the house of their former friends.

A bulletin of the frequency and duration of royal sneezes would be both interesting and instructive, and would doubtless set the fashion in New York and Washington.

DOMINION PARLIAMENT.

OTTAWA, March 19.—At the evening sitting, after questions, Mr. Heyd, government supporter, resumed the budget debate, speaking rather favorably to protection for home industries and especially those situated at his home in Brantford.

Mr. Smith, conservative, of. Wentworth, pointed out the failure of the government to provide proparly for shipping fruit and perishable goods to Britain. He called attention to the fact that a deputation of Nova Scotia fruit growers were here now demanding a remedy. Mr. Smith quoted the resolutions of the Fruit Growers' Association and charged that some thirty or forty thousand dollars had been lost on one shipment.

Mr. McKinnon of Prince Edward Island closed the discussion for the day.

PUBLIC ACCOUNTS COMMITTEE.

PUBLIC ACCOUNTS COMMITTEE.

PUBLIC ACCOUNTS COMMITTIES.

In the public accounts committee today Mr. Pottinger gave testimony concerning the purchase of coal and ties. He stated that in July, 1900, there were 127,000 ties on hand, and last July 800,000 ties. The examination of ties alleged to be bad was being carried on by Conductor W. H. Williams and C. E. Morton, a brakeman, under direction of Manager Russell. In July, 1900, there was 15,507 tons of coal on hand, and last July 128,935 tons, valued at \$54,714. In December, 1900, the management contracted for 69,000 tons of American coal. This was done because the supcember, 1900, the management contracted for 69,000 tons of American coal. This was done because the supply of the road was nearly gone and a strike in the Nova Scotia mines was impending. Tenders were received from American dealers and Storekeeper. Palmer went to St. John to complete arrangements. Mr. Pottinger did not remember that Mr. Bladr instructed him what to do. The contract was made with Joseph Likely at St. John. Mr. Pottinger believed it was Mr. Likely who arranged with the Thomsons for freighting coal. After the American coal was bought the Nova Scotia men sent in large quantities, causing the accumulation of coal previously stated. This coal was now issued from stores and charged to the railway at four dollars per ton, while coal bought now from the Nova Scotia mines cost only \$3.10. Examined by Mr.Barker, Mr.Pottinger stated that the new rails laid last year were wholly charged to capital. He stated that so far as he knew all new rails laid by the former government from 1890 to 1896 were charged to maintenance.

Mayor Curry, Amos Etter and F. A. Gates are here from Amherst. They have been discussing the possibility of making the Chignecto ship railway dock available as the port of Amherst. Mr. Provand of the Ship Railway Co.

Mr. Provand of the Ship Railway Co. has been here some weeks.

The Amherst delegation suggest that it will be satisfactory if Mr. Blair builds a spur line to the neighborhood of the Fort Lawrence terminus ship railway, and Mr. Tarte constructs a suitable wharf there. Mr. Blair appears to be willing to take this action, and probably Mr. Tarte will take steps to ascertain the cost.

Mr. Rhodes, of the Rhodes, Curry Co. is here. He has been discussing with Marconi the construction of the Cape Breton station for wireless telegraphy. The company want towers 200 feet high and will have nothing but hard pine.

COMMON COUNCIL.

The common council yesterday afternoon considered the bills which are to be sent up to Fredericton. The first, which refers to the public library question, gives the city authority to, by a two-third vote, issue bonds for the purchase of a site and also to assess \$3,100 for maintenance outside of the \$1,900 already given. It was decided to insert \$6,000 as the bond issue for the site.

The next bill, to amend the Police Act in regard to licensing second hand dealtrs, was withdrawn. The bill regarding the graving dock was amended so as to call for a dock 625 feet long, instead of 800.

GOOD TIME AT THE SEAMEN'S

MISSION.

A varied crowd gathered last evening in the Seamen's Mission, but they enjoyed the entertainment to the fullest extent. Besides a number of seamen, there were the boys who are going to South Africa with the horses and one man dressed in khaki. The chief feature was a temperance talk by L. P. D. Tilley at the conclusion of which 29 men signed the piedge. During the evening solos were sung by C. D. Shaw, F. Date and S. J. McGowan, and Thomas Blake gave two recitations, Hymns were sung by all present. Another entertainment will be given Saturday evening.

FREDERICTON, March 19.—The house opened at 3 o'clock.
Hon. Mr. Dunn arose to a question of privilege respecting an item which appeared in the St. Join Globe of the 18th hest. In reference the printing and distribution of 19,000 copies of the Handbook of New Brunswick. He said: "'I'd not purpose referring to the article in question any more than giving an explanation to the question as to the facts in connection with the book. That is to say, 7,300 copies have been shipped to England, for which I have bills of lading; 200 copies have been placed in the agricultural department. for distribution. The balance, 2,500 copies, go forward by Furness steamer with the Rods and Gun of April 2nd, according to instructions given by me some time ago, but delay was caused: so as to have the book Rod and Gun accompany the others."
Hon. Mr. Labilios presented the report of the chief commissioner of public works for the year 1901.
Mr. Russell introduced a bill amending the act relating to the issue of debentures for wharf and warehouse purposes at St. Andrews.
Hon. Mr. Tweedle presented the return of the real and personal estate and indebtedness of the town of Newcastle.

and the Queens county conf. The took credit to the government for cancelling the recent fishery sale to the Restigouche Salmon Club, claiming it was in the interest of the people as against the corporation. He praised the Hickman hand-book and claimed there had been good results from the government's immigration policy. Mr. Tweedle quoted statistics and declared that the government had not unduly increased the provincial debt. New and necessary services increased the expenditure, and a government could not be run as economically now as fifty years ago. After going extensively into a discussion of the debt and interest, and current revenue and expenditure, Mr. Tweedle moved the adjournment of the house. He will conclude his budget speech today.

MR. BLAIR CHOKED IT OFF.

In the house at Ottawa, yesterday, Mr. Bell, of Pictou, brought up the question of the refusal of the majority of the public accounts committee to allow P. S. Archibald to be summoned in connection with the enquiry into the I. C. R. accounts. Hon. Mr. Blair made a heated and violent speech, declaring that Mr. Archibald should not be called, and Mr. Fielding supported this view with almost equal violence. Mr. Borden replied, declaring that it was unpleasant to find ministers themselves voting to shut out information, but warning them that the enquiry could not be suppressed, though the refusal to summon Mr. Archibald might cause delay. When the vote was taken, Mr. Bell's motion was defeated by a straight party vote of 100 to 56.

Invitations have been issued by Hon. A. G. Blair and Mrs. Blair for the marriage of their second daughter. Marion 5thef, to Clement Percy Clarke of St. John. The avent will take place at St. Andrew's church. Ottawa, April 2nd, at 2 o'clock p. ma.
