SEBASTIAN ROSS REWARDED For His Timely Suggestion At Sand Point Fire.

Sergt. Jacob Ross of the west side has received from the board of fire underwriters a cheque for twenty dollars, of which he is as proud as though it were a much larger sum given him for any different work.

It was at the time when the big elevator was in imminent danger and the methods employed by the firemen appeared unavailing. Cables had been attached to the conveyor for the purpose of tearing it down but this plan was abandoned because of the danger of being played upon the fire from outside, but all the while the flames were gaining. Then it occurred to Sergt. Ross that the only way to get control was by leading the hose through the elevator into the conveyor and fighting the flames from in front. He made the suggestion to Mr. Osborne and Chief Kerr who acted on it and in a few minutes had gained the upper hand of the fire.

Although the elevator was not insured in any of the St. John offices, the underwriters here feeling that the saving of any property is in the interest of insurance people, they have taken this method of acknowledging Sergt. Ross' work.

THAT MOOSE

The Daily Star of Rockland, Me., contains the following:

"St. John, N. B., had a visitor the other day in the person of a bull moose, which walked up and down the principal thoroughfares of the city. The reporter who advised the outside world of his arrival suggested that he was driven into town by the forest fires. It is more probable that he was attracted by the excellent grazing in the streets."

The Rockland man living here he does is in a position to know the habits of moose, but the animal which paid a visit to St. John, if she came for grass, was disappointed and went away with the belief that the mistake had been made in coming here when Rockland was open.

LOTS OF TELEPHONE.

Lying Useless Since the New System Was Adopted.

Up in the central telephone office on Chipman hill there are hundreds of instruments that are of no use whatever in St. John, but are nevertheless of considerable value. When the new system was adopted in this city and the new telephone office staff of St. John, Mr. James is one of the directors of the order.

REV. JOHN DESOYRES

Lectured Upon Englishmen and Canadians Last Evening.

A large audience listened to Rev. J. Desoyres' lecture last evening in the York Theatre upon Englishmen and Canadians. The address was more than merely interesting; it contained much valuable information, and in its political discussions and predictions upon such a subject.

The lecturer, in contrasting Englishmen with Canadians said that as there were many different types of the Englishman and so on, so there are innumerable types of Canadians, the westerners differing from those living in the east and the townsmen from the countrymen. Englishmen are often greatly misunderstood, from their peculiar manner, but their Canadian brothers must learn to know them better and vice versa, and the two nationalities, or divisions of the same nationality, grow more closely knit together.

Taking up the question of education, the speaker said that in this respect Canada stands on a post of vantage, more than some of us can realize. Our primary schools, in the cities at least, compare favorably with the English board-schools; our two great universities of Toronto and McGill, in some respects are superior to Oxford and Cambridge. The McGill laboratories and medical school far outstrip the more ancient rivals on the other side of the ocean. How excellent the exchange, when young Canadians go to Oxford or Cambridge for advanced studies in the sciences, and the young English students come over to us, to learn engineering, or to prosecute their scientific studies.

The question of political approximation was one which must look to a distant future for its fulfilment. Much must be done first by economic understanding, and by the introduction of Canadian judges into the Court of Final Appeal. But one vision of the future of the Empire was coming to the speaker, and that was the vision of a great Imperial Senate, to take ultimately the place of the mercurial House of Lords, a senate which shall include among its august members Canadians, Australians, New Zealanders, Rajans from India, Boers from the new Transvaal Colony—all united in the fervent loyalty which will be attached to the person of the sovereign, and to the whole limits of a mighty Empire.

And each portion of this mighty Empire will be free as to its internal government, subject only to such legal, economic, and political arrangements as are beneficial alike to the individual state and the whole body. Such an Empire will utter a preponderating voice in the councils of the world. Such an Empire will be strong enough to end the so-called Eastern Question by liberating the Christian populations from the rule of the Turk. Such an Empire will help the farther East by enabling China to emerge from her barbarous condition, and to escape from predatory neighbors. Such an Empire will be a power for peace, because it will be strong at all points.

ENTERTAINING THE GRAND CHANCELLOR.

Knights of Pythias Gave W. C. Black Dinner at White's—Officers Elected.

The regular convention of Union Lodge, No. 2, last evening, was doubly interesting, from the fact that it was election night and that W. C. Black of Springfield, N. S., was to pay an official visit.

The following officers were elected for the ensuing term: C. C. J. L. Sutherland; V. C. LeB. Wilson; prelate, A. S. Dinmore; M. of W. A. Dodge; M. of E. B. C. Wilson; K. of R. and S. and M. of P. F. A. Kinneary; M. at A. F. P. Burpee; I. G. P. C. Lachey; O. G. W. C. Clarke.

A special meeting of New Brunswick lodge was then held to receive the grand chancellor, and the members then adjourned to White's, where a couple of hours were pleasantly spent with a choice light supper and rounds of speeches interspersed with songs and recitations.

DUNFIELD-LIVINGSTON.

A very pretty wedding took place at the residence of Geo. A. Earle, 147 King street east, at 3:30 o'clock last evening, the occasion being the marriage of his niece, Miss Jennie Earle Livingston and Frederick Odier Dunfield, both of the city of St. John. The bride wore white cashmere, trimmed with silk and lace, and was attended by Miss Lillian Weatherby, who wore white cashmere, trimmed with pink silk and lace. Fred Weatherby supported the groom.

The happy couple were the recipients of many handsome and valuable presents, among them being a carving set from the employees of the Telegraph job rooms. They will reside at 81 Lennox street.

ROBERTSON-TAPLEY.

A quiet but very pretty wedding took place at ten o'clock this morning at the home of the bride, 233 Douglas avenue, when Rev. R. P. McKim united in marriage Miss Alice Pauline Tapley, daughter of Daniel F. Tapley, to Ralph N. M. Robertson.

The bride, who was unattended, wore a travelling suit of royal blue cloth, with pipings of black and white silk, and a straw hat with pastel trimmings. She was given away by her father. After the ceremony breakfast was partaken of, and Mr. and Mrs. Robertson left on the noon train for a trip to Nova Scotia. On their return they will live at 173 Dorchester street.

Only the near relatives of the contracting parties were present, among the guests being George G. and Mrs. Davis, from Point Wolfe, and Miss Ethel Davis, of Sussex.

Some very beautiful presents were received by the bride, one of which was a handsome royal teplitz statuette from the members of No. 1 Salvage Corps.

HELD UP AND BEATEN.

Cecil C. Currie, of the D. A. R. Falls into the Hands of Toughs.

The third hold-up in Lower Cove within a short time occurred at Reed's Point on Tuesday night, when Cecil C. Currie, who is in the employ of the D. A. R., was badly beaten by two men. Mr. Currie had been working in the warehouse and started home about 11 o'clock. When near the Three Lamps, two men asked him for a match. As he put his hand in his pocket to get the matches, one of the men hit him on the jaw and then the other piled in. As he was about losing consciousness a man ran across the street to his assistance and his assailants ran away. Currie recovered sufficiently in a short time to be able to go to a physician's office and have his wounds dressed. Several teeth were broken and was found necessary to put a number of stitches in one cheek where he had been badly cut.

POLICE COURT.

James Almon, who seems determined to join the morning jail parade, got two months today for being loaded in the old graveyard. Frank O'Neill and Daniel Donovan, four dollars for drunkenness.

Henry Close, arrested on suspicion of tearing out and stealing a large quantity of lead pipe from the house 20-22 Peters street owned by W. J. Fraser, was remanded. It appears that this house was unoccupied for a time and Mr. Fraser intended having some improvements made in it. Upon going to the house a few days ago he found a lot of the leaden pipe forming the plumbing had been torn from the fittings and taken away. The matter was placed in the hands of the police, who succeeded in locating over two hundred pounds of the pipe. Close is said to have sold it to a junk dealer.

BENEFIT GAME TONIGHT.

The Roses and Alerts did not play this afternoon, but will play the benefit game for the Maritime Grounds this evening. The weather conditions do not change for the worse.

Thousands of tickets have been sold and a big crowd is sure to be in attendance. It was intended to get two of the amateur league pitchers to do the twirling, but it is quite probable now that McDermott will pitch for the Alerts and Willis for the Roses. Both teams will line up in full strength. The City Council and ball players will leave King Square for the grounds at 6:40 o'clock.

Frank Connolly has been reported by the police for kicking in John Holland's door on St. Patrick street.
