## FOR EXPANSION.

Dr. Talmage, Discusses an All Absorbing Theme.

Points Out a Way for the American People.

Hold the Key

WASHINGTON, June 4.-In this discourse Dr. Talmage steers clear of the political entanglements of our time and recommends that which will meet the approval of all who hope for the perpetuity of our republic and the welfare of other lands; text, Genesis xxvii., 14, "Thou shalt spread abroad to the west and to the east."

Since the Americano-Hispanic war is concluded and the United States ambassador is on the way to Madrid and the Spanish ambassador is on the way to Washington the people of our country are divided into expansionists and anti-expansionists. From a different standpoint from that usually taken discuss this all absorbing theme. I leave the political aspect of this subject to statesmen and warriors and pray Almighty God that they may be enabled to rightly settle the question whether the islands in controversy shall be finally annexed, or held under protectorate, or resigned to themselves while I call attention to the fact that a canpaign of moral and religious expansion ought to be immediately open-

ed on widest and grandest scale. At the close of this war God has put into the hands of this country the key to the world's redemption. Heretofore the religious movement in pagan lands had to precede the ducational. After in China and India and the islands of the sea the missionaries have labored over 50 or 75 years the printing press and the secular school came in Now to better advantage then ever before religious and secular enlightenment may go side by side; and so the work be accomplished in short time and more thoroughly. 'Starting with' the fact that in Cuba and Porto Rico and the Phillipine Islands at teast threefourths of the people can neither read nor write, what an opportunity for school and printing press? Within five years every man in those islands may be taught to read not only the Bible but the Declaration of Independence and the constitution of the United States and the biography of George Washington and of Abraham Lincoln. It seems to me that the government

of the United States ought by vote of congress afford common schools and printing presses to those benighted regions. Our national legislature by one vote al-propriated, \$50,000,000 to give bread and medicine to Cuba. Why not by a similar generosity give \$50,000,000 for feeding and healing the minds and souls of those ignorant and besotted archipelagoes. In the name of God, I nominate a school for every neighbor-hood of Cuba, Jorto Rico and the Philippines. As soon as the gavel falls at table of the senate and house of representatives and theroil has been called and the preliminaries observed, let some member of our national legis-lature with mind and soul and voice strong enough to be heard not only through those nalls, but through Christendom, propose a measure for the mental and moral disenthraliment of the islands in controversy.

HIGHER CIVILIZATION.

What has made American civilization the highest civilization the world has ever seen? Next to the Bible and the church, schools, common schools, schools reaching from the Atlantic to the Pacific, and from British America to the Gulf of Mexico. Five years un-der such educational advantages and the whole subject that keeps our publie men agitated, some of them to frothing at the mouth, will settle it self. Give those islands readers, spellers. arithmetics, histories, biackboards. maps, geographies, glob's. Let the state legislatures at their next meeting, some of them assembling in early autumn, take parts of those islands under their especial educational patronage. What is needed is state and snational action in this matter of

schools. Then let the editorial associations of the United States, as many of such organizations as there are states, resolve. at the next convocation to establish in every region of those islands a printing press, to be supported by people of this country intil it can become selfsupporting. Each of these state editorial associations sending out to those islands at least one editor and two reporters and enough typesetters, down rill go the ignorance and superstition f those islands as certainly as the Spanish fleet under Cervera sank under the pounding of our American batas certainly as into the harbor of Manila went Admiral Dewey on that famous night when he was not expected. Hoe's printing press! Nothing can stand before its bombardment.

When Cubans and Porto Ricans and Filipinos see the morning and evening newspapers thrown into the doorways, and hawked about the streets of Havana and Santiago and Manila, th who cannot read by the force of curiosity will learn to read so that they may know what information is being scattered and that which may be missionary effort at the start and carried on by Americans sent forth to do the work will soon be done by educated natives. Porto Rican editors! Porto Rican reporters! Porto Rican type-setters! Porto Rican publishers. It was a great mercy to take those islands from under the heels of despot-ism, but if will be a mightier mercy to emancipate them from ignorance and degradation. The expansion of the knowledge and intellectual qualification of all those island regions is the desire of all intelligent Americans. Awake all you schools and colleges and universities and printing presses to

our opportunity! OPEN DOOR FOR CHRISTIANITY. Still further, here is a wide open door for Christianity. First of all, we have

THE PERSON AND THE PARTY

the attention of those people. heathen nations are for the most part The American missionarsoporific. ies heretofore had great difficulty in getting heathendom to listen. They excited some comment by their attire, so different was the parting of the hair, and the shape of the hat, and the cut of the coat, and the formation of the shoe of the evangelizers, but the questions constantly arose in regard to the missionary: "Who is he?" "What is he here for?" And then the interlogator would relax into the previous stupid indifference. But that condition of things has passed. The guns of our American navy have awakened those populations. They do not ask who we are. They have found out. They are now listening to what American civilization and our Christian religion have to say on any subject. Now is the time, while their ears and eyes are wide open, to tell them of the rescuing and salvable and inspiriting power of the gospel of Jesus Christ, the Saviour of the world. The steam printing press which secular education plants there ray be used to print religious newspapers and tracts and sermons and mighty discussions of questions

temporal and eternal. The comfortable homes of those populations, when Christianized, standing side by side with the degraded huts of those who remain pagans, will be re-volutionary for good. The Porto Ric-an and Filipino will come out from his uncleansed and low roofed and uninviting kennel and say to his neighbor of beautiful household, "Why cannot have things as you have them?" And when he finds that it is the Bible with its teachings on family life and personal purity and exalted principle, and the church of God that proposes the rectification of all evil and the implantation of all good, h will cry out, Give me the Bible, and the church, and the earthly alleviations, and the eternal hope which have wrought for you such transfiguration.

A SPLENDID OPPORTUNITY. Now, church of God, now all Christian philanthropists, is your opportun-Nothing like it has occurred since Christ came. Perhaps there may be nothing like it till His second coming. Here is a definiteness of aim that is most helpful and inspiring. The millions of dollars given for the redemption of the world and the thousands of glorious missionaries who have as volunteers gone forth among barbaric nations, were given and enlisted under a great and immeasurable idea. But when they come to add to the great and immeasurable idea the idea of definiteness we will infinitely augment the work. More than 300,000,000 of heathen in India, more than 300,000,000 of people in China, and more than millions of heathen than can be guessed outside of these coutries, sometimes stagger and confound and defeat our faith. But here in these islands of present controversy we can farm out the work among the churches, and in five years, under the blessing of God, not only fit the people for the right of suffrage, but prepare them for usefulness and heaven. The difference be-twen the general idea of the world's evangelization and some particularized ield of evangelization is the difference between the improvement of agriculture among all nations and the improvements of 75 acres put under one's especial care and industry. By all eans let the general work go on. But here is the specific field for religious consecration and development. I read this morning that the American Missionary association of the Congregational church has already begun their work at San Juan. Utuado and Albo nito, and all denominations of Christians in six months, will be in those island fields, and we all need with our travers and contributions to chee them on to take for God and righteous ness those regions which our American navy has captured from Spanish per-

It has been estimated that this Am. erico-Spanish war cost us \$300,000,000. It would not cost half of that to proclaim and carry on and consummate a holy war that will rescue those archi-pelagoes from satanic domination. Who will enlist under the one starred blood striped banner of Immanuel? Cuba and Porto Rico and the Philippines are stepping stones for our American Christianity to cross over and take the round world for God. We need a new evangelical alliance organized for this one purpose. In all denominations there are those with large enough hearts and who have been thoroughly enough converted to join in such an advanced movement; men who, putting aside all minor differences of opinion, "believe in God the Father Almighty, Maker of heaven and earth, and in Jesus Christ, His only begotten Son," and would march shoulder to shoulder to such a gospel campaign. The result would be that those islands, after a scene of gospelization, would assort themselves into denominations to suit themselves, and some would be sprinkled in holy baptism, and others would be immersed in those warm rivers, and some would worship in religious assemblage silent as the Quaker meeting house, and others would have as many jubilant ejaculations as a backwoods camp meeting, and some of those who presched would be gowned and surpliced for the work, and others would stand in citizens' apparel or in their

shirt sleeves preaching that gospel which is to save the world.

RELIGIOUS EDUCATION. Mark you well that statesmanship. however grand it is, and wise men of the world, nowever noble, cannot do this work. Mere secular education doe not moralize. Some of the most thoroughly educated men in all the would have been the worst men. Quicken a man's intellect, while at the time you do not make his morals good, and you only augment his power for Geography and mathematics and metaphysics and philosophy will never qualify a people to govern themselves. A corrupt printing press is worse than no printing press at all, but let loose an open Bible upon those islands and let the apocalyptic angel once fly over them and you will prepare them to become either colonies of the United States government or, as I hope will be the case, independent republies.

God did not exhaust Himself when He built this nation. Those islands will yet have their Thomas Jeffersons, qualified to write for their declara-tions of independence; and George

Washingtons, capable of achieving their liberties; and Abraham Lincolns strong enough to emancipate thier erfdoms; and Longfeilows and Bryants, capable of putting their hills and rivers and their landscapes into-poems; and their Banerofts and Prescotts to make their histories; and their ryings to write their Sketchbooks. and their Charles O'Connors and Rufus Choates to plead in their court-rooms; and their Daniel Websters and John J. Crittendens to move their sen-

The day cometh-hear it all ye who have no hope for those islands of be-dwarfed and diseased illiterates—the day cometh when those regions will have a Christian civilization equal to that which this country now enjoys, while I hope by that time, this country will be as superior to what it now is as today Washington and New York are better than Manila and Santiago. Do you see by this process of gospel-ized intelligence those archipelagoes will as a nation be protected from the two woes prophesied by the anti-expansionists? It is said by those who would have us take all we can lay our hands on as a nation that unless we enter the door now open for the enlargement of our national domain we will decline the mission which God in His providence has assigned us. - But surely no woe will come upon us or upon them if we Christianize them, as we now have the opportunity of doing. The political technicalities are nothing as compared with the importance of this movement. I implore all political expansionists to augment us in this work of moral and religious expansion, for unless those islands are moralized and elevated in intelligence and habits we do not want them, and their annexation would be political damnation. On the other hand, I implore all anti-expansionists to take a hand in the gospelization of Cuba, Porto Rico and the Philippine islands. The only way to prepare them to take care of themselves is to give them the Ten Commandments that were published on Mount Sinal and let them hear the groan of sacrifice that was breathed out on the heights of Golgotha. What hey most want is the gospel, the pure gospel, the omnipotent gospel, the gospel that helps heal the wounds of the body, and irradiates the darkness of the mind and achieves the ransom of

CONQUEST OF NATIONS But on this platforns the so-called expensionists and so-called anti-expansionists will yet stand side by side: Though I am not a prophet or the son or a prophet, within five years, if this religio-educational work is properly attended to, there will be a Cuban republic, a Porto Rican republic and a Philippine republic, none of them on a large scale, but they will all have their schools and printing presses and evangelical churches, their presidents, their senates, and house of representatives, their mayors and their constabularies, and as good order will be obeyed in their cities as now reigns on Pennsylvania avenue, Washington, or Broadway, New York.

of the nations, and nothing on earth orain hell can stop us. The continents are rapidly rolling into His dominion and why not these islands, which for the most partware only fragments broken off from continents, the intervale lands having been sunk by earth quakes, allowing the ocean to take mastery over them? Each mother continent has around it a whole family of little continents. If the continents are being so rapidly evangelized, why not the islands? If America, why not Cuba and the Bahamas? If Asia, why nct the Philippines and the Moluccas? If Europe, why not the Azores and the Orkneys? If Africa, why not Mada-gascar and St. Helena? The same power that broke them off the mainland can lift them into evangelization. In the old book, which has become a new book by reason of modern discoveries, especial attention is called to the islands, "Declare the Lord's praise in the islands," commands Isaiah. "Let the multitudes of the islands iah. "Let the multitudes of the islands be glad thereof," says the Psalmist.

"All the islands of the heathen shall worship Him." writes Zephaniah. "He shall turn His face to the islands," prophesies Daniel. "The inhabitants of the isles shall be astonished at the fortells Ezekiel. "Hear it and declare it to the islands afar off," exclaims Jeremiah. You see from this the islands are not to be neglected. Perhaps they are the Lord's favorites, as in households if there is any favoriteism at all it is for the weakest. The islands too small to take care of themselves have the eternal God to take care of them. Let nations look out how they tread on the islands, however small and weak, for they are omnipotently defended. They may not be able to marshal large armies or to send out navies to sweep the sea, but better than that, they have the chariots of heaven on their side, and the drawn swords of the Almighty. I have as smuch faith in the salvation of the small and weak is the faith in the salvation of the small and words of the Almighty. I have as smuch faith in the salvation of the small and words of the Almighty. I have as smuch faith in the salvation of the small and the drawn swords of the Almighty. I have as smuch faith in the salvation of the small and the small and the salvation of the small and the salvation be glad thereof," says the Psalmist. have as much faith in the salvation of the smallest island of the Falklands, of the Canaries, of the Ladrones, of the Carolines, of the Fijls, of the Bar-badoes, of the Cape Verdes, of the So-clety islands as I have in the salvation of America.

JUST FOUND IT OUT.

ALBERT CO.

Wedded in the Episcopal Church at Hillsboro Sailors in Great

HILLSBORO, Albert Co., June 7 .-William Spike of Andover was married to Miss Ida DeBar Scott at the Episcopal church at 10 o'clock this morning. The marriage service was performed by Rev. Mr. Smithers. The brid and groom were dressed in travelling suits. After the ceremony the bride and groom drove to the home of James and Mrs. Scott and partook of refreshments, and at once drove to Moncton to take the 1 o'clock train for New York via Boston, on a wedding tour, before settling at their home at Andover.

John L. Peck, banker, is adding a third story to his corner block, which is occupied by himself as a banking office, Miss F. M. Bishop as a milli-nery store, A. M. Keating, shoe store, F. J. Steeves, optician's office, and Miss Annie Moolins as a dressmaker. The second and third stories are to be

occupied when finished by W. E. Dryden as a dwelling house.

Mrs. John A. Beaty has connected the drug store with her house.

HOPEWELL HILL, June 7.—Mr. Word, who has seen operating his ar-tesian machine for G. M. Russell, has found a good flow of water at a depth of sixty feet. The machine is now boring on W. A. West's farm at the

Hill. Nelson Gough, who has been living on the Tobique for the past five years, has removed to his former home at Germantown, where he will permanently reside. Alfred Rennison is visiting his old home at Demoiselle, after an absence of fourteen years. Mr. Rennison is located in Ansonia, Conn. Ernest A. Bishop left by yesterday morning's train for Eastport, Me., where he expects a situation. Laura Bishop also left yesterday for Newport. P. I., to visit her brothers,

who reside there. Silas Benjamin of Mountville ha moved to this village, on to the M. C. Peck property, which he recently pur-Grass on the uplands progress

well the past week, but that on the marshes is reported very backward. WATERSIDE, A. Co., June 7.—W. F. T. Harrison of St. John is in this village today. Mrs. Capt. Harvey H. Copp, with her daughter Ada, arrived here yesterday from Montreal, and are visiting relatives.

The marriage of Stillman Anderson of Little Rocher and Mabel Barbour of the same place takes place tonight. F. J. Steeves, optical specialist, is at the Waterside house.

## ALASKAN BOUNDARY.

WASHINGTON, June 8.-It is learned at the state department that while a sensible advance is making towards the arrangement of a modus vivendi for the regulation of the Canadian boundary question, a conclusion has not yet been reached. Expert geographers are being consulted on the exact location of some of the boundary points, though as far as the Dalton trail is concerned, the definite neith has not been leasted. point has not been located.

LONDON, June 8.—The correspondent of the Associated Press learns upon high authority that the Alaskan modus vivendi does not imply that the boundary question has been settled or compromised, but simply that a temporary boundary has been arranged,

and will be preserved for two years, which interval will be available for the settlement of the main question at

ST. JOHNS, Nfld., June 8.-The Newfoundland government will decline to recognize the French claim for indemnity for the burned lobster factory, on the ground that no direct evidence is forthcoming as to how, when or by whom the factory was destroyed, although Ingram Taylor, now under arrest at Bonne Bay on charge of burning the factory, boasts that he did it. There is really no evidence, however, apart from this state-ment to connect him with the case.

ROME, June 8.—It is officially announced that the pope, at a recression of the land of the
