

By Dr. John Willey

35 S. 1. EIGHT

Willey said: The great prothet of Israel knew that the end was nigh, and he prepared to part from his young associate. And Elijah said unto Elisha, "Tarry here, I pray thee, for the Lord hath sent me to Bethel." But Elisha had his own susplcions, and he refused to tarry behind. Then it dawned upon Elijah that this keen-witted young man knew what of thy spirit be upon me."

is not a demand that the young disciple be more highly endowed than his teacher. Such a demand would have been neither modest nor courteous. But "let me as the eldest son receive a double portion of the The poor homeless Jew of the New Testament, healed of his blindness by was fully committed to the life he had who gave me this blessed new vision; chosen. Then answered the gratified Sribe and Pharisee hopelessly split. Elijah: "Thou hast asked a hard thing; And he who is endowed with the sixth nevertheless if thou see me when I am taken away from thee, it shall be so unto thee, but if not it shall not be so," There are then two kinds of power, sense power and spirit power; power to see Elijah in the ordinary occupations of every day life, and power to see him when, borne upward by the viewless whirlwind, he swept into the spirit realm.

It is by no means of the sens power we hold communication with the world. Our soul dwells in a castle with five gates, and through these gates come the messengers and messages from the outside. Without eyes life would be in the dark. The light which floods the radiant world, the colors that cyhange in the changing sky, would make no impression upon the soul. Without ears, the whisper of the evening breeze, the raash of the hurricane, the blare of the war trumpet, the love tones of a friend, would awaken g. With these senses we are in uch with life. They indeed make life full and resonant. They make us citi-zens of a splendid world.

And yet, with all these marvelous capacities, we are conscious that our ses are incomplete. They each can tell but one story. The eye can tell of sunset gold and meadow green and mountain purple, but the eye gives no hint of sound or taste or smell. It deligsts us with the snowy foam of the sea, but it is oblivious of the majestic tones of the booming surf. It shows us natural. the flashing plumage of a thousand dow nto earth; there is that within birds, but it knows nothing of the him which admits only of a spiritual elodies of the feathered songsters. It can interpret the blush on the cheek of the rose. Give us eyes alone and the world would still be fair, smile on his face and notes that his but it would be a dead world, a shadow hand is reached out toward us.

The Rev. John H. Willey, Ph. D., pastor of St. Mark's M. E. Church, Ocean, Avenue, Flathush, preached last Sunday morning on The Sixth Sense." The text was from flk Kings ii:10. "If thou see me when I and taken from thee it shall be according to thy wish." Dr. Willey said: The grant mothet of Israel knew

tirely sure even of that." this keen-witted young man knew what was about to take place, and he said: "It is true: I am about to depart, my work is done; ask what I shall give thee as a parting gift." And the ans-wer was ready: "Let a double portion we was ready: "Let a double portion How long has it been fashionable and testimony of one accredited witness who saw a murder committed is of more weight than the counter testi mony of a thousand whose only ple is that they did not see the son receive a double portion of the spiritual inheritance which will be di-vided among the successors." This was according to the prevailing law of in-gered, bewildered and dazed fell back according to the prevaining tow of was heritance, and such a request was proof that this young farmer, who had left his oxen in the furrow; this young now I see, and here stands the man now I see, and here stands the man and on this rock the sophistries of sense, who sees not only God's world, but God in his world; who not hears the varied voices of nature, but who can say in his soul:

> God's voice sublime is heard afar, In distant peals it dies, He yokes the whirlwind to his car, And sweeps the howling skies.

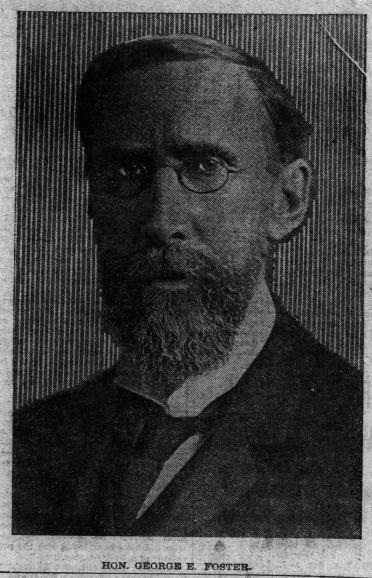

Here is a new sense added or an old ense quickened; a divine power supple menting the human, or a latent human power drawn out and developed and filled with the divine indwelling. And this sixth sense, dealing as it does with stupendous agencies, leading us into such vast areas of thought and feeling uncovered the hiding places of the spirit forces of the universe, launching out upon the boundless sea of the unseen and the unknown, this sixth sense is the very climax of power, the no echo in the still caverns of our be- grip of a giant, the vision of an archangel, the comprehension of a God. There is a clear scriptural guarantee for all that has been said. "The nat ural man receiveth not the things of God, neither can he know them; they

are spiritually discerned." So. out of the Old Testament comes the warning of the wise man, "Where here is no vision the people perish"-that is, come lawless and ungovernable. There must be something more than th natural, because man is more than He cannot live by bread alone; he cannot with safety be shull explanation. It is the vision that i wanted, the spiritual discernment that apprehends God and that discovers

world, a land of spectral shapes and Ah! what a meager life this

Our senses, then, are either abundantly." selfish, or they are ignorant. They either know a great deal which they refuse to tell, or there are vast terri-tories of knowledge which they have

not yet explored. And still another impeachment have we for these senses of ours. They so often misrepresent facts. They are false witnesses. They are shameless and habitual jugglers with the truth. There is not a single sense but that tells us again and again that which we know to be false: not one but will bear the closest watching, not one but calls for the constant exercise of the most careful judgment in order that

Not careful possible our hurt. So much for sense power, the ex-ponent of beauty and the interpreter of song, without which our lives would be blank. Yet when we remember the unexplored remainder of which our senses bring no tidings, the continents of reality unseen by the eye, the ranges of sound unheralded by the ears, the of reality u atalogued myriads we cannot touch nor taste nor smell, we are bound to nit that even at its best life would be sadly fragmentary and inconclusive if these were all the powers of the

Thus it has always been. Men who when the world is blind are fanatics; men who hear when the world is deaf are cranks. But all birds are not owls; and if the eagle claims to see the wandering lamb on the far mounthin slope, if he claims to see the nest and the nestlings there in the dim eyrie beyond the reach of man, shall we discredit his claim because the owl is nd ? . If some rare, 'ripened souls enjoy an added sense, by which they discern the spiritual, the power which they know God, shall we discount this the leper's des new faculty or dispute its findings because other men have but five senses Christ becomes a seer, and enters this and not one of these touches eternity ? larger world; finds his eltizenship with Once upon a time the religious world those who look not to the market place

kernel is just under our hand. Plato holds that ship is everything but the material of which the ship is made. them, This was an early way of saying what Carlye wrote later, "All visible things books of the Bank of Nova Scotia dis-books of the Bank of Nova Scotia dis-benefit of the company, but there was and they shall be changed." This world is not a solid fact; visible things are not real things. Three classes of men are there, according to Emerson. One class live to the utility of the symbol. With them health and wealth and large dividends are a final of the symbol. These are the poets, the artists, the men of science. A third utility of the symbol and catch glimpses of the thing symbolized. This is spiritual perception. This is the realm and the function of the sixth sense. Here is a rare new world in which the Elijahs mount upward in chariots of fire, and Moses falks with Cod in the mountain

God in the mountain fast God in the mountain fastnesses and comes out with a face like the rising sun, and Savonarola refuses the car-dial's hat and stretches out his arms on a funeral pyre formed like the cross in order that he may know the way of the Master, and Father Damien shuts himself up with his lepers, to point out the leper's Christ, and to die And every sincere servant of Jesus ler's position.

Once upon a time the religious world was greatly exercised by a new per-suasion, a new phase of beliet, or, shall i say, unbelief, a new Richmond in the world, but superior to the exchange, but who dwell apart with God. Not separate from the visionaries, but yision seers; not wait-ticism. It was a sort of religious knownothingism. According to an Am-erican humorist an agnostie is a man who loudly declares that he does not know anything, and who gets very angry with you if you believe him. Heaven within them. Not to the exchange, but who dwell apart with God. Not separate from the visionaries, but yision seers; not wait-ting for some new dispensation, no know anything, and who gets very angry with you if you believe him.

vide the \$55,000 handed back to him after he paid for the Kamloops lumber property.

Hon. Geo. E. Foster closely followed Mr. Ryan on the stand, and he also option, but Foster said if it was not Mr. Ryan on the stand, and he also was given an opportunity to explain his connection with the syndicates that purchased properties, while he was manager of the Union Trust Co. Mr. Foster said he came out of poli-

tics poorer than he went in. During a spell of hard luck he applied to many friends for assistance. Among them was George W. Fowler, to whom he applied for between \$5,000 and \$7,000. pany, which originally belonged to Wil-Shepley found in the bank accounts a check for \$2,500, paid to Foster by

It is this sense which brings us into the presence of realities. We are so readily deceived; we are so easily satisreadily deceived; we are so easily satis-fied. nothing to equal it for a leg and body
wash. I have never had a horse come
out sore or tied up after a race when I
used your Elixir. I have kept horses
with bad tendons going sound by a free
use of the Elixir, when nothing else
would do it.Queen Alexandra resident in Canada
will be favored with a visit from Their
Majesties during the summer of 1908,
in which year the ter-centenary of the
founding of Quebec will be celebrated.
Notwithstanding the fact that His
Majesty was obliged to decline the in-
vitation of the Canadian Parliament to
visit the Dominion this year, there is
every reason for believing that a royal
tour of Canada will take place in 1908.
When HIs Majesty declined the in-
vitation of the Canadian Parliament he
unhesitating expressed the hope,
through his ministry, that at some fu-
ture time it might be possible for him
to visit his Canadian dominions, and
it is thought that, providing affairs of
state will allow of his temporary ab-
ter work split on the rock of socialism of the advances and there would be an accounting between them. Foster stated that Fowler was acting in the negotiations for the pur-chase of the lumber properties in pur-suance of an understanding between McCormick, Irwin and Fowler, on one hand, and the Union Trust Co. on the other, and while declining to define the your other remedies in preference to relationship of Fowler as that of any other, and cannot speak too highly "agent," he admitted that he would be of them.

likely to ask for an accounting of any profits made by a person in Mr. Fow-

LONDON, Oct. 2-It is probable that

it is thought that, providing affairs of state will allow of his temporary ab-sence from the heart of the Empire, he will avail himself two years hence of the opportunity of seeing one, at least, of its outlying sections. It is understood that the Jer-Cen-tenary Committee at Guebec is anylous that Their the test.

that Their Majesties shall be present at the celebration they are aranging in honor of the founding of Quebee by the chivalrous French explorer, the

great Champlain.

This distressing and unfortunately very common malady

impartiality.

Except in the cases where Pneumonia develops, La Grippe is seldom directly fatal; the real danger lies in the after effects. Even when the patient has fairly well recovered from an attack (and it is very hard to tell just when he has fully recovered) the muscles are relaxed, the nerves unstrung, the heart and lungs weak, the throat and bronchial tubes irritable and tender and the whole system depressed, run-down and in no condition to resist the attack of any other disease to which it may be exposed.

This condition is fraught with danger and demands instant and intelligent attention, the system must be built up and restored to a normal and healthy condition-advice easy to give, often very hard to follow.

The appetite is liable to be poor and the digestion impaired so that it is almost impossible to consume and digest sufficient ordinary food to do the work quickly and effectively. What is required is a concentrated food, palatable, easy to digest and containing the elements necessary to repair the waste which La Grippe has committed. Just such a food is found in

a scientifically prepared emulsion of Cod Liver Oil, Iron and Phosphorus, palatable, digestible and effective. FERROL contains just what the run down system needs and all it requires. Cod Liver Oil to restore the lost flesh and make what is left firm and healthy, Iron to enrich the impoverished blood and restore elasticity and firmness to the relaxed muscles, Phosphorus to tone the nerve and brain as nothing else will.

Two or three bottles of FERROL, taken after the acute stage of La Grippe has passed, will do more to repair damages than can possibly be accomplished in any other way. Try it and sea
