THE REMOVAL OF THE SULTAN NOW SEEMS CERTAIN; A NEW RULER SOON TO BE PROCLAIMED

Constantinople, April 26.—The deposition of Sultan Abdul Hamid appears now to be certain and the 101 guns saluting Mohammed Rehad Efendi as the new ruler of the Empire probably will be heard before the next Selamlik on Friday. The dignitaries of the church care as little for Abdul Hamid as does the Committee of Union and Progress, but the higher clergy are seeking to curb the agitation of the enthusiasts of the Mohammedan League. Senators and deputies who have inquired among the Ulemas find them in different degrees favorable to the Sultan's removal.

Beirut, April 26.—The town of Hadjin, about 100 miles to the north of Alexandretta where the residents have withstood the assaults of the fanatics for the past week, was in flames yesterday. According to reports received here several of the quarters escaped, and up to midnight Sunday, all the Americans were safe. At this place there are five American women missionaries.

Latakia, in Syria, has been relieved, thanks to the unceasing efforts of the American Consul General at Beirut, Gabriel B. Revndal, who secured the co-operation of the French cruiser Jules Ferry, which arrived at Latakia this morning. Thousands of refugees have been pouring into Latakia and the presence of the French warship there has much influence in controlling the situation. The refugees are mostly women and children, many of the members of the families having been killed. The Consul General has also succeeded in inducing the local authorities to take measures for the relief of the people and they are responding sympathetically and energetically.

Continued from page 1.
MILLION. Yet Canada is a distinctly agricultural country. Germany must be a heavy importer of breadstuffs and raw material and Canada has both. Why not get a share of her market? Germany imported over FORTY MILLION POUNDS OF WHEAT, over eleven millions from South Africa and THREE HUNDRED AND SIXTY MILLIONS FROM THE UNITED STATES AND LESS THAN TWO MILLIONS FROM CANADA.

After dealing with the British market, he said: "Do not compel us, when we are expanding our trade to export wholly to one nation. Mr. Greenway made the statement that Manitoba was capable of producing a million and a half million bushels of grain with her 73,000 square miles. Where shall we be with Alberta and Saskatchewan with 250,000 square miles each, when they are sending their proportion of wheat and barley to the United States and Canada? What position are our fruit men in today when SIXTY-SIX PER CENT OF THE BRITISH MARKET is already controlled by them and they are only exporting a million and a quarter barrels of apples in 1906, while we produced in the Province of Ontario alone in that year 18 million barrels of apples?"

Mr. Warburton.
Mr. Warburton defended the German surtax on the ground that Canada should be ready to take her own part in any war with Germany, fiscal or otherwise. Referring to some remarks of Mr. Armstrong as to the balance of trade he said that those countries which have adverse balances are the most prosperous. He confessed that he was not greatly enamored of bounties, but he preferred them to high protection.

Mr. Madden.
Mr. Madden's speech was almost wholly devoted to the duty. He protested against any reduction, agreeing in this with Mr. D. D. McKenzie who spoke on the subject some weeks ago. He also laid stress on the way in which the American coal industry has long the Nova Scotia coal in Montreal and drew attention to the attitude of Mr. Ralph Smith and other Liberal members in advocacy of free coal. The duty on bituminous coal should be raised at least to an equality with the American tariff. Discussing the service rendered to the industry by the Government Mr. Madden said that the production in Nova Scotia has been rendered more costly by governmental mismanagement. The Fielding and Murray Governments had encouraged speculation in coal leases and their railway policy also has proved disastrous. 140 coal leases were in the hands of speculators. As for the plea that the Laurier Government has improved the condition of the miners, he declared the

PRISONERS MAY SUFFER.
Constantinople, April 26.—The vigorous search continues even in the European quarters. It is estimated now that at least 10,000 prisoners are in the hands of the Salonikins. Those liable to suffer punishment such as the rebellious Salonik chausseurs, have been securely roped. Among the civilians arrested are Maud Bey, editor of the Nizamiye, Abdurrahman Efendi, Assistant Minister of Finance, and several high officials of the Porte. A number of reactionary newspapers have been suppressed.

Fresh battalions continue to arrive from the country districts. They came in today, marched to the palace of justice where the Parliament was sitting and saluted the representatives of the new Government. Many of the soldiers went to the mosques today to pray.

Most of the American tourists have left the city. Ambassador Leishman who has received many telegrams inquiring whether it is safe to visit Constantinople has replied to these that such a course would be inadvisable. The city is under martial law. Nevertheless several Americans reached here today, including Mr. and Mrs. Chas. A. Moore.

The condition of Frederick Moore, the American consul, was reported as shot while watching the fighting on Saturday, is causing anxiety. His wound may prove to be more serious than at first supposed. The surgeons in attendance will not be able for two or three days to give a definite opinion as to whether his spine is injured.

SCOTT'S LAND STOCK.
Mr. Neely, Saskatchewan, devoted his attention to Mr. Glen Campbell's reference to the land transactions of the Government, resenting his references to Walter Scott, and his attempt to besmirch the character of the Premier of Saskatchewan.

Mr. Campbell asked Mr. Neely if he would say on his honor as a gentleman that he did not believe that it was true that Mr. Scott had got the stock in question.

Mr. Neely said that Campbell did not need to put him on his honor to get a true statement. He did not believe it, because he had Walter Scott's sworn statement that he had no stock in the Saskatchewan Valley Land Company.

Mr. Campbell replied that as far as eye or ear could tell his original statement was correct.

Mr. Neely said that Mr. Campbell should have some proof other than his bare assertion. He had sworn declarations from Mr. Scott, from A. D. McRae, Secretary treasurer of the company and from Col. Davidson that Mr. Scott had no stock in the company.

Mr. Campbell retorted that Mr. Scott had taken proceedings against the men who had made the charge. Mr. Neely declared that the charges had been withdrawn and over this there was a squabble.

Finally it turned out that what Mr. Campbell had been charging was that Mr. Scott had stock not in the Saskatchewan Valley Land Co. but in the Saskatchewan Valley and Manitoba Land Company; and Mr. Scott declared that it would have been no harm if Mr. Scott had been given stock in that company. It had been organized to handle Canadian Northern Land. It had the same directors as the Saskatchewan Valley Land Company, but he held there was no discredit in Mr. Scott holding stock in it.

Mr. Neely went on to attack Mr. Campbell personally, suggesting that he owed his election to padded lists and attacking the Manitoba Government. He went on to talk low tariff.

After Captain Tom Wallace had urged consideration for market gardeners, Mr. Logie opposed the demand for increased protection on hogs saying that the class of hogs whose flesh was imported were a class not grown in Canada, and largely consumed in the woods of New Brunswick. He also opposed increased protection for market gardeners.

Rev. C. W. Vernon, editor of Church Journal, spoke splendidly on Canadian Journalism. Among the other distinguished guests were Rev. W. H. E. Bullock, M. A., late chaplain to the forces and Canon Smithers, Fredericton, N. B.

A DOMESTIC EPISODE AT UNION DEPOT

A domestic episode which is said to have some connection with a police court case now pending had for its scene the Union Depot; time, six o'clock Saturday evening, as the Montreal train was about to pull out. The principal actors were a moving picture machine operator and his wife, who emerged into the limelight on Charlotte and Union streets a few nights ago.

The man was about to leave for Montreal, apparently without the cognizance of his wife, for when she appeared on the scene, the signs were all the more evident of her departure. A hurried conversation ensued. It reached its climax when the woman gained possession of the man's ticket and tore it into small pieces, this effectively preventing his departure for the time.

Since then he has managed to make his getaway from town by carriage, and several people have drawn the conclusion that his haste to get away has an important connection with the case referred to before.

REPLIES TO INQUIRIES BY MR. BURGESS

Special to The Standard.

Fredericton, N. B., April 2.—Chief Commissioner Morrissey in reply to Mr. Burgess' inquiry said:

Q.—Was a contract let for the construction of a steel bridge across the gulch in Broadway at Grand Falls by the late Government?

A.—Yes. A contract was let for the steel superstructure portion by the late Government.

Q.—If so have this Government cancelled such contract?

A.—Yes. This Government cancelled such contract because the contractor was not complying with the contract.

Q.—Have the Government called for tenders for a bridge across said gulch?

A.—Yes. Have they let the contract for its construction? If not why say?

In contemplation extensive changes in and throughout their yards at Grand Falls and have requested the department in the interest of that province to delay action until they submit their proposition.

Q.—Do the Government intend to have a bridge erected there?

A.—All depends on what the C. P. R. may set forth in their yard improvements there.

WILL TAKE OVER ASSETS OF OLD FIRM

New York, April 26.—A plan for the rehabilitation of the bankrupt brokerage firm of Ennis and Stoppani was announced today by Irving L. Ernst, one of the attorneys for the failed brokers. The plan provides for the formation of a co-partnership to take over the assets of the firm and issue new stock. The plan also provides for the payment of the claims of the creditors in part payment of their claims, the remainder to be paid them in the form of cash dividend. Mr. Ernst was confident that this cash payment would approximate 220 per cent.

A meeting of the creditors will be called shortly for the purpose of formally endorsing the plan.
