The Service You Want

While we are constantly endeavoring to increase the volume of our business, we realize that we can best do this by properly serving the interests of our customers, both in the careful selection of investments and in the safeguarding of their interests.

The service which we will give you as a customer will not end with the sale of one or more securities to you, as we have established a special department for the purpose of exercising a watchful care over your interests and the safety of your investment.

We are always pleased to have our customers send us their coupons and bonds when they mature. We look after their collection for them.

TRADING MARKED BY DULLER TONE

New York, June 12.—For absolute dullness and insignificance, the operations of today's stock market has seldom been equalled thus far this year, the movement was listless and halting from the very outset, and in the first three hours just about 100,000 shares changed hands, the day's total output being 162,000 shares. Most of the active issues and other speculative favorites fluctuated fractionally, with here and there changes that extended beyond a point. Some of semi-active issues were not traded in at all and the net result may be set down as negligible. Following an irregular opening, prices hardened slightly and as the session proceeded further improvement was noted, the limit of apathy was reached in the final hour.

Canadian Pacific was virtually the only high class stock to display marked strength, probably on the absence of pressure from abroad and the Harriman and Hill shares were almost altogether neglected, with some late heaviness in Union Pacific. An optimistic statement of general conditions attributed to the head of the Great Northern and Northern Pacific lines, was of little benefit to the securities of these roads. In fact, Northern Pacific was not quoted until just before the market's close. In the industrial group Amalgamated Copper, Tennessee Copper, American Can common and preferred, Bethlehem Steel, American Sugar and several of the less important issues rose from 1 to 2 points, while Colorado Fuel which early in the day added to yesterday's gain, later fell back.

Sentiment on the board was perhaps less pessimistic than on the preceding day, but a majority of the traders seemed indisposed to take on new commitments pending the outcome of the money trust inquiry and more definite crop advices. Some of today's news from important agricultural centres was not altogether promising. These advices should have been offset, by the regular weekly reviews of the steel and iron trade journals, which lost little of their recent encouraging character, albeit admitting that in certain specific instances demand has somewhat slackened. Reports dealing with the copper trade also bore out recent intimations of a steady diminishing supply of the metal, while another advance in lead testified to the greater activity in kindred lines.

London's part in this market was trifling, sales for that account aggregating little more than a few thousand shares. Money was in good demand abroad and British discounts were easier. Further realizing of stocks was reported from Berlin. Local bankers again assert that conditions at the German capital were improving, but private advices from London were of a less reassuring nature. Money conditions at home were marked by greater firmness with a slight advance in all accommodations, ranging from 4 to 9 points. The rate for the latter period going to 4¼ per cent. The loss of the local banks to the sub-treasury since last Friday amounts to almost $3,000,000, which is much in excess of last week's figures. Forecasts point to another actual loan expansion before July 1.

Putnam's Corn Extractor Rids Feet of Corns

What any corn needs is the soothing influence of Putnam's Painless Corn and Wart Extractor, which in twenty-four hours lifts out every root, branch and stem of corns and warts. Just clean riddance to the old offenders—that's the way Putnam's Painless Corn and Wart Extractor acts. Refuse a substitute preparation for Putnam's Extractor, 25c. at druggists.

CLOSING STOCK LETTER.

By direct private wires to J. C. Mackintosh & Co.

New York, June 12.—Today's stock market was extremely quiet of undertone and the transactions were without feature. The most significant point was the withdrawal of pressure by professionals who evidently decided after testing the market at every point that there were no important offerings of stocks at this level. The recent government crop report served merely to emphasize the desirability of caution at this period. With normal conditions henceforth a total agricultural yield above the average would be quite within the possibilities. The most active repressive influence at the moment is the money trust inquiry which is beginning to bear directly upon the machinery of the stock exchange. Thus far nothing has been brought out to cause apprehension of restricted legislation or disturbance of any character. Routine news was rather favorable although it's evident that business at large is being held in check by the presidential campaign. The action of the market at this time is rational and if speculation can be held in check pending a more definite knowledge of the crops and the political line-up this fall, there is every reason to expect a healthy expansion of stock exchange business later on accompanied by advancing prices.

LAIDLAW & CO

Canada Machinery Corporation 6% Bonds

DUE AUGUST 1st, 1940. DENOMINATIONS $500 AND $1,000.

EARNINGS. Five times the bond interest.

SECURITY. Plant value alone over three dollars for every dollar of bonds issued.

ASSETS. Quickest and most readily convertible of any industrial concern in Canada.

We recommend these bonds as being a very safe and profitable investment.

PRICE: Par and interest.

CLOSING COTTON LETTER.

By Direct Private Wires to J. C. Mackintosh & Co.

New York, June 12.—Today's cotton market was fairly active and very strong of undertone throughout, influenced by the comparatively strong Liverpool cables and by apprehensions that the weather disturbances in the Gulf regions would penetrate sections of the interior where rains would aggravate the conditions of flood that already exist. Bear interests contended that if the rain extended to Texas and Oklahoma the results would be beneficial, but the storm carried enough potential damage to emphasize the firmness of the old crop situation. There were heavy offerings of contracts on the advance, but these were well absorbed buying by certain large spot interests being in evidence. Liverpool market appeared to share the local feeling of uncertainty with respect to the size of crop and foreign spinners have become competitive bidders for desirable grades of cotton at the South which are reported to be in meager supply. While the trade as a whole preserves an open mind with respect to the season's outturn and the course of prices an increasing number of people seem willing to speculate upon frequent crop scares owing to the late start of the plant, while a considerable element in the trade is convinced that 11 cents is not a high price for cotton. Result has been a steady absorption of contracts near the eleven cent level and a good volume of support on all reactions. It looks to be an easy job for the bulls to bid up prices further in the event of unfavorable weather developments at this time.

JUDSON & CO.

IT WILL PAY YOU TO WRITE US

Many people are glad to write us regarding their present holdings and to have our opinion and suggestions.

We have been handling only high-grade securities since 1873 and *our advice* which is freely given *is good.*

J. C. MACKINTOSH & CO.

Established 1873.

Members Montreal Stock Exchange.
