DEMAND FOR RAILS IS STEADILY IMPROVING

This the Opinion of Specialists and Other Brokers Reports New York Financial Bureau.

(McDOUGALL & COWANS.)

New York, April 14.—It is reported from specialists and other brokers that a better demand is appearing for the rails as a whole. It seems to be growing on a conviction that better conditions are in store for them. We notice the stocks of Eastern lines are bought during all recessions apparently for account of important investment interests even though preparing for the war bond financing.

The floating supply of the better class of stocks is steadily decreasing, judging from enquiries made by us in responsible circles. The declines in them are uncovering orders on a scale down and industrials with large surplus are receiving as much consideration when dividend yield is high as are railroads of the standard class.

Investigations show a steadily increasing private borrowing demand for active stocks in the industrial class. The motor issues are also inquired for. It is understood that the selective selling is taking place for short account against holdings based on peace analysis. The railroads as a class reflect the largest short interest according to our reports. Commission house advices in a large majority of cases are advising clients to base activities on the theory that the market is a trading affair with a good underdone. Recommendations are quite positive to buy Harvester, Beet Sugar, American Agricultural, Chemical and such stocks whenever the market is weak.

LESS MEAT IF KIDNEYS HURT OR YOU'RE BACKACHEY AND RHEUMATIC

Meat forms uric acid which clogs kidneys; causes Rheumatism and irritates Bladder.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The

urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

"We use Extra Power on every drive, now"

It is not long since the men who buy belts in mines, mills, factories, machine shops and foundries were skeptical of a new basis rubber belt.

But the qualities of Extra Power were convincing. They began to buy this belt for big drives—main drives rolling mills, ore crushers, mule drives and bucket elevators.

Then, here and there, piece-workers began to prefer their machines belted with Extra Power. In munition work, where speedy, continuous production day and night is demanded, men who knew put Extra Power on lathes, grinders—on motor drives and countershaft drives.

More and more, now, industrials are using extra power on all drives. On big drives and small—big belts and little—fast drives and slow—steady loads and intermittent—in heat, steam, acid fumes.

This would not be so if Extra Power were not standing up and delivering the goods. Ask factory superintendents why they use Extra Power. They will tell you, as they have told us, that it transmits more power and gives lower cost by lasting longer.
