No. 65

MILLIONS OF PEOPLE AGONY

Physicians Cornered!

I suppose there is not in the whole of our boasted civilization, anywhere, a more distressing and painful affliction than RHEUMATISM!

It is a disease which attacks the system, and which is so generally admitted to be incurable, that it is not only a source of great suffering, but also a source of great expense. It is a disease which is so generally admitted to be incurable, that it is not only a source of great suffering, but also a source of great expense.

RHEUMATISM!

There is a cure for it!

It is a disease which attacks the system, and which is so generally admitted to be incurable, that it is not only a source of great suffering, but also a source of great expense. It is a disease which is so generally admitted to be incurable, that it is not only a source of great suffering, but also a source of great expense.

Mr. Mills' and Palmer's Speeches in the House of Commons on the Proposed Change in the Constitution of the Senate.

Mr. Mills—I rise for the purpose of moving the resolution which I have given notice, "That the House go into Committee on the Writ to consider the following resolution—That the present mode of constituting the Senate is inconsistent with the Federal Principle in our system of Government, makes the Senate allies independent of the people and the Crown, and is in other respects defective, and that our Constitution ought to be so amended as to confer upon each Province the power of selecting its own Senators, and to remove the most of their selection." Our Government is based upon the Federal principle, and it was so to be understood and carried out, and it is not to be understood and carried out, and it is not to be understood and carried out.
