### DEMAND FOR THE COLLEGE AND ITS GROWTH FROM THE START.

The great need felt by loyal Protestant Churchmen for a regular and certain supply of true-hearted clergymen to carry on effectually the work of our Church in accordance with those Reformation principles on which it is based, resulted in 1877 in the establishment of WYCLIFFE COLLEGE.

1877.—

One teacher met in a room in St. James' School-house seven young men who then agreed to give themselves to the Work of the Ministry.

1882.—

As an outcome of the meeting in this "Upper Chamber," in 1879, Wycliffe College was incorporated, and in 1882 the **first structure**, then thought sufficiently capacious to answer all our needs was opened.

1891.—

1891 finds completed our present building on Hoskin Ave., with its chapel and largely increased accommodation, ready for occupation when the October Term begins. This has cost \$67,000, and we enter the building **free of debt**.
