FEDERAL FINANCES .- The N. Y. World re-ment and Mr. Chase's resignation, he supposed peace would give great buoyancy to its value. As soon as capitalists saw that no further additions were to be made to the debt, they would have trustworthy data for estimating the solveney of the Government. The public revenues could then be made sufficient to meet the public expenditures without the present alarming deficit; and the general joy at the return of peace would exert an invigorating effect on public credit. Mr. Chase has been buoyed up by the expectation that the military campaigns which opened with the season would result in such successes as would insure an early termination of the war. This he regarded as the last card in the financial game he has been playing; in his estima-tion, it has been played and lost. The war must still go on for an indefinite and incalculable pe proportional augmentation of a debt already so arge as to occasion great disquietude. Chase recoiled before the prospect. So far as his judgment was founded on his knowledge instead of his fears, his successor must confront

BLASPHEMOUS BRAGGADOCIA.-The following sentiments are reported as having been given by the notorious Parson Brownlow in relation to T. H. Davies (P.W. D. Bent \$2, S. E. Bent \$2, T. H. Davies (P.W. D. Bent \$2, S. E. Bent \$

Institute, New York:

"And if I had the power, I would arm and uniform in Federal habiliments, every wolf, and panther, and catamount, and tiger and be ar in the swamps of Florida and South America; every crocodile in the swamps of Florida and South America; every ground and south America; every devil in hell and pandemonium. This war, I say to you, must be prosecuted with a vim and a vongeance, until the rebellion is put down, if it exterminates from the face of God Almighty's green earth every man, woman and child south

VULCANITE RUBBER PLATES ARTIFICIAL TEETH.

PRESUMING you have heard of the above ce of Dentistry, without any very definite idea of its uses or merits, I beg to state for your informa-tion, as well as that of the readers of your valuable paper, that by a process of heat, the soft rubber is rendered as hard as bone, and can be finished and polished as thin and as smooth as the gold plate. Its advantages over metal are—that it takes the form of the mouth in the outset more readily, and in succeeding operations no chance exists of its being other than an exact fit. It is quite as strong as other work, and perfectly clean and sweet. It is light, it is easy to the gums; and very durable. It is free of taste and can be used in masticat on with perfect freedom; while for aged people it is peculi-arly adapted in many ways. I do not recommend it as better than gold; yet after using it for four year; with entire success. I am prepared to say hai is is better than any material which is cheaper than gold; and I have great plessure in being able to offer so good and beautiful a substitute for gole It is now being extensively used both in England and America, and in the opinion of the leading Dentists of the day its durability as well as its cheapness, will give it place over any other substance now in use as a base. Yours respectfully,
O. P. MACALLESTER, DENTIST.

R. MCMURRAY & CO. UNPARALLELED SUCCESS! HAVING been appointed Sole and Managing Agent for the sale of Dr. Ridge's Patent Food for Infants and Invalids, for the whole of B. N. America, and having been the Introducer of the said Article on this Continent-it gives me much pleasure to place before an impartial and discriminating public the following reliable Test monials. Six months ago the Food was first used in this city, and already I have many well attested proofs of its invaluable qualities, and it is sold at a much
