DAWSON, Y. T., WEDNESDAY, MAY 27, 1903.

PRICE 25 CENTS

RECORD DAY FOR GOLD DUST RECEIPTS

TIONS OF GOLD DUST

Are Now Coming to Dawson Daily

Purchases of Local Banks Yesterday and Today Aggregate \$800,000.

The golden harvest time is now upon us and where depression and gloom reigned only a few weeks ago rays of the bright sun of prosperity have penetrated the horn of plenty...

Never before in the history of banking in Dawson have there been such heavy purchases of gold dust as yesterday, which was the banner gold day in Yukon history...

Today the purchases are not quite so heavy as were those of yesterday although for the two days they will aggregate from \$800,000 to \$900,000.

Compared with this time last year the present receipts of gold at the banks are far ahead and one who is in a position to know where the speaker said today that present indications are that the Yukon's output of gold this season will exceed that of last from one million to two million dollars.

Swatting Recitals. Messrs. Frank P. Slavin and Nick Hays returned today from a tour of the creeks where they entertained the giving swatting recitals. They performed services at Caribou Monday night and at Grand Forks last night. As a result of the tour there will be a boom in the tin ear or gutta percha market as the goes were not of the disagreeing variety. The people of the creeks were highly edified.

Mr. Aubrey, Chris Colson and Mrs. Childs arrived yesterday in a small boat nine days out from lower Yukon. They experienced no difficulty on the trip with the exception of being delayed by the jam at Hell Gate where the ice was strewn from bank to bank. It is reported an unusual number will arrive this season on the small boat route.

The opera "Erminie" at the Auditorium on Monday, Tuesday, Wednesday and Thursday, May 25-28. Tickets at Cribbs', First Avenue.

The Dominion hotel now open. Cliff Belling, proprietor.

LADIES Wash Suits in Organdy, Muslin, Chambray, Percale and Linen. SUMMERS & ORELL, 128 SECOND AVENUE.

Shipping, Sledge and Flume Lumber a Specialty. Sitka Mill, Klondike River at Mouth of Starbuck Creek. Telephone - Mouth of Starbuck - City Office - Boyer's Wharf, Sitka, Alaska.

Two Thousand Strike. Chicago, April 28.—Two thousand union and non-union metal workers are on strike in the plant of the Deering Harvester Company for the reinstatement of one hundred men who were discharged for belonging to the union. Recognition of the union is now demanded.

The police have issued orders that no boats are to be tied up in front of the barracks. Berths will have to be secured below No. 2 fire hall.

Lemps' St. Louis beer on draught at Rochester Bar.

Cottage Dinner Sets For six persons in plain and gold decorations. \$18 Pink and Green 50-Piece Set \$18 Green Argosy, 56 Pieces, \$10.00 Green Hamburg, 56 Pieces, \$12.00

We also have open stock patterns that can be made up in any size.

THE YUKON HARDWARE CO. Ltd. Successors to McLennan, McPeely & Co. PHONE 7

Big Swindle Party of Parisians Were Easily Duped

Special to the Daily Nugget. Paris, May 27.—A party of Parisians, including Count Desaint Phalle, Baron DePeulose, Mons. H. Morin and Mons. E. Papelland, who sent out an agent ahead to purchase land and buildings for a French dairy at St. Norbert, Man., claim they have been swindled of \$50,000 by their agent.

Big Salmon District. Among the passengers arriving a day or two ago on the Sybil was Mr. W. M. Heron who for the past two months had been in the Big Salmon district in the interest of the N. O. Co. The latter has very extensive interests in that section and they will be heavily worked this season.

Mr. Heron's visit was for the purpose of examining the properties, condition they are in and ascertaining the needs of the coming season. The plant is hydraulic and the coming season will be the first that it will have been given an actual test on a long run. Last year the bulk of the season was taken up in the construction of a huge bedrock drain so that by the time work was ready to be begun the sluicing was almost over.

However, 160 feet of bedrock was cleaned up and the results were very satisfactory. The creek has a large fall and there is plenty of water at all times, two things of the greatest necessity to the hydraulic miner. All the ground in the Big Salmon country is shallow, workable only in the summer. The company anticipates a splendid run as the result of this season's operations.

Outlook Bright. Washington, April 28.—In a report to the United States state department, Consul-General Bittinger, at Montreal, says that never before in the history of Canada has the industrial outlook been so bright as today. American capital promises to make the present year memorable by the establishment of new and immense industries, and the enlargement of many of those now existing.

American capitalists have started new railroads and banks, and vast tracts of timber have been purchased by a new company, composed principally of American capitalists. Different companies have begun to mine coal, copper, nickel and gold, and a large company has purchased a tract of land in Montreal on which to erect a plant factory. Syndicates have been formed for the purpose of manufacturing pulp, timber, seeding machinery, aluminum, iron, steel and asbestos. Valuable mica properties in the provinces of Ontario and Quebec, and recently purchased, are owned by United States capitalists. An American transportation company has begun to build ships to be operated between Duluth and Quebec, and many other investments have been made of American capital.

Missing Man Found. Los Angeles, Cal., April 28.—Geo. L. Mills, manager of the Syndicate Loan Company, who has been missing since last Wednesday, has been found dead in an empty house here. The hands were tied and the head had been crushed in from behind. His jewelry was gone and he evidently had been killed in a holdup.

Two Steamers Collide With the Loss of Twenty Two Lives. Special to the Daily Nugget. Antwerp, May 27.—The British steamer Huddersfield collided with the Norwegian steamer Ut of Antwerp. Twenty-two Austrian and Italian immigrants were drowned.

Trouble Removed. American Mail Will Now Arrive Without Delay. United States Consul Saylor has received word from the department of state at Washington, which would lead one to believe that the trouble Dawson has experienced this winter with delayed American mail would be obviated in the future. For many weeks it was noticed that American and Canadian mails arriving at Skagway on the same steamer were often a week or ten days apart in their arrival at Dawson, the Canadian mail coming through with dispatch while that from the States was sidetracked at some point or another. It was finally learned that the American mail for some inexplicable reason had to be repouched at Skagway while that from Canada came through. The matter was called to the attention of Mr. Saylor upon his return from the outside by the American residents of the city who had previously communicated with Washington in regard to the delay. He at once lodged a complaint to the department of state directing his first communication in March and sending another later in April. To these a reply was received on the last mail, the department informing the consul that an investigation had been made of the matter of which he complained, as a direct result of which instructions had been issued which it is believed will prevent a recurrence in the future.

Job Printing at Nugget office.

Wouldn't Accept. Special to the Daily Nugget. New York, May 27.—A special to the Herald says that President Nord has refused to accept the resignation of the Haytian cabinet.

Fires Continue. Winnipeg, May 25.—Raging fires continue in Manitoba. At Netly Lake several settlers' homes were destroyed.

Few Entries. London, May 27.—Only seven horses started in the Derby yesterday. The king, queen, prince and princess of Wales were present.

Comes Home. Southampton, May 27.—Ambassador Choate has sailed from Southampton for a flying visit to America.

INDENTIFIED AS CONVICT. Had Served Term for Killing a Woman. Escaped From Jail in Kingston County Over 28 Years Ago. Special to the Daily Nugget. Seattle, May 27.—Last night, realizing that his life is coming to a close, John Josie alias John Phillips confessed his identity as a convict, who escaped from Kingston, Ont., penitentiary, 28 years ago, after serving 9 years for the murder of a woman.

EMIGRANTS DROWNED. Sad Fate of Steerage Passengers. Two Steamers Collide With the Loss of Twenty Two Lives. Special to the Daily Nugget. Antwerp, May 27.—The British steamer Huddersfield collided with the Norwegian steamer Ut of Antwerp. Twenty-two Austrian and Italian immigrants were drowned.

RESIGNATION DEMANDED. Premier Prior Adopts Heroic Measures. Commissioner Wells is Terribly Wrought Up—Eberts Takes Matters Calmly. Hudson Bay Ry. Ottawa, May 27.—A bill to incorporate the Hudson's Bay Western Railway Company has passed.

TRAVEL IS ENORMOUS. Extra Stages Necessary Nowadays. Since Roads Are Becoming Better Miners Are Coming and Going. Transportation companies hold that it is remarkable how quickly travel has picked up since the roads have become more passable and the clean-up is under full way so that frequent trips to the bank by the miners has become necessary. Not a day passes now that every stage leaving and arriving in the city does not carry all the passengers that can possibly be accommodated and in quite a few instances some of the companies have been compelled to put on extras in order to care for their patrons. Nowadays practically all the creeks contiguous to the city are covered by stage lines, Bonanza as far as the Forks having no less than four whose services are at the disposal of the public. Gold Run, Hunker, Sulphur and Dominion are thoroughly covered by two lines, the terminus on the last named creek being at 33 below lower with a strong probability of it being extended during the summer season as far down as 86 below. Another line that covers Dominion runs only as far as 7 below lower.

Victoria day was the banner day for travel, so many people being in from the creeks to take part in the celebration. Extra stages were required by all the lines, some of them sending out as many as three six horse coaches. Excellent facilities are provided this year for the safe transportation of dust from the creeks to the banks or wherever it may be consigned to. Each of the stages carries a strong box which often arrives so loaded that two men can scarcely lift it. The dust is weighed when it is delivered to the company's agent on the creek, the poke is sealed and delivered in that manner to the consignee. The company is responsible for any loss that may occur and charges one-quarter of one per cent for handling the yellow stuff, \$2.50 on the thousand dollars. Miners find such an arrangement very satisfactory, providing as it does safety and at the same time relieving them of the necessity of taking a trip to town whenever they desire to make a deposit.

The roads are fast drying up and a drive to any of the creeks in a very short time will be only a pleasant outing while a ride of 50 or 100 miles on the hurricane deck of a Concord coach will be a pleasure second only to the trolley parties along the New York speedway.

Blow Back. Will the party who got lumber order book at Bonanza saloon on Monday last please return same. 7. c19 Lemps, beer on draught. New Dominion hotel, Cliff Belling, prop.

Ready to Sail. Special to the Daily Nugget. Greenock, May 27.—Sir Thomas Lipton's fleet is now at Greenock preparatory to sailing for the United States tomorrow.

To Map Tanana. Special to the Daily Nugget. Seattle, May 25.—Surveyor Gerding has started north to map the Tanana for the geological survey department. He goes via Dawson.

Barbers Win. Chicago, May 27.—The barbers of Chicago have won. The proprietors give shorter hours to 3,900 hair-dressers.

Returns East. Spokane, May 27.—President Roosevelt visited Spokane yesterday and goes to Idaho today.

EXTENSION GRANTED. Must Build Fifty Miles This Year. Railway Committee Takes Action on a Number of Important Matters. Ottawa, May 27.—The railway committee has passed bills authorizing a network of branch railways throughout Manitoba and the Northwest. The Edmonton, Yukon & Pacific got an extension of time on a stipulation that fifty miles will be built this year.

German Ministers Say That Vice Runs Rampant in Kaiser's Capital. Special to the Daily Nugget. Berlin, May 27.—At the annual session of the Berlin synd, the ministers declared that the German capital outrivals even Paris in up-blasting vice.

FIRST SCOW ARRIVES. Cargo of Spuds, Eggs, Butter and a Quantity of Hay. The first scow to arrive this season from the foot of Lebarge tied up opposite the Mackay this morning at 10 o'clock, being but one day behind the Sybil. The scow and contents belong to Charles Jones and Harry Ingraham and consists of twenty tons of freight, mostly perishables. In the cargo are potatoes, eggs, butter and hay, all of which was hauled across the lake before it became so bad that travel was dangerous. One of the gentlemen stated that in his opinion there would not be over a half dozen or so scows arrive before the opening of the lake, so many of the shippers failing to get their goods across the lake in time. Above the lake there are probably sixty or seventy scows. One man has 65 tons and he succeeded in getting but four tons over the lake before he had to abandon the attempt and wait for the opening. Skagland, Brown and Mayhew, well known importers here did not get a pound across. Sullivan paid \$75 a ton for the freight he had hauled from upper to lower Lebarge. Freight was at times so high that it was impossible for the shippers to pay it.

Sybil Will Sail. At a late hour this afternoon the White Pass Company announced that the Sybil will sail for Lake Lebarge at 9 a.m. tomorrow (Thursday). Postmaster Hartman will not close the mail until 7 o'clock tomorrow morning.

OPERA ERMINIE. Another Successful Presentation Last Night. The opera Erminie was presented again last night to a fairly good house, the fact that the Auditorium was not filled being due to the ball game between the Amaranths and Civil Service. The action went along with more snap than was apparent at the initial performance, the improvement being due to the fact that the natural nervousness of the first night had largely disappeared. Encores were frequently given and generously responded to. The thieves as portrayed by Messrs. Hulme and Barwell carried the house by storm, their clever dialogues and inimitable acting keeping the audience in roars of laughter. Mrs. Malthy easily shared the honors with the prima donna, both ladies receiving vigorous acknowledgment for their efforts. Fred Atwood as the Princess was splendid and Dick Cowan sustained his part in an admirable manner. At the box office today it was stated that seats are selling rapidly and a full house will undoubtedly greet the company tonight. A movement is on foot among the teams of the baseball league to attend the opera tomorrow night in a body attired in the league uniforms. Mr. William McIntyre, one of the proprietors of the Dawson Daily News who spent the winter on the outside, returned yesterday on the steamer Sybil, bringing with him a bride. As he has not yet called on the fraternity with cigars we are not prepared to state the particulars of the marriage. Mr. McIntyre is a thorough gentleman and knowing him we can heartily congratulate the bride on her choice of a life partner.

Another Gift. Montreal, April 30.—Sir William Macdonald, who has already made many splendid gifts to McGill, has endowed a new chair of moral philosophy for the university. Hitherto the subject of mental and moral philosophy had been combined, the chair being held by Prof. Clark Murray, who recently resigned. No appointments have been announced. It is understood the new chair will be endowed to the extent of \$50,000. Montreal customs collections for the month of April amounted to \$793,085, an increase of \$62,699 over the same month last year. Mr. James Ross, president of the Dominion Iron & Steel Company and Dominion Coal Company, arrived in New York today, and is expected to reach Montreal on Saturday, when a meeting of the directors will be held. Mr. Ross, it is understood, will announce that while in England he was unable to obtain an English manager for the steel company. Mr. Ross in an interview said the recent decline in the securities was purely due to stock manipulation. Do you want a good laugh? Then don't miss the opera "Erminie" at the Auditorium four nights next week commencing on the evening of Victoria day. Tickets at Cribbs', First Avenue. Fresh Kodak Films, all sizes, at Goetzman's, 128 Second Avenue. LOST, pair glasses, in case. Please return Blecker & de Journal crt

MOVEMENT OF BOATS. Seattle No. 3 for Tanana Tonight. N. C. Co. Will Establish Post at Fairbanks—Prospector for Stewart. The Dawson waterfront presents a peaceful appearance today, nothing of an exciting nature occurring. The Seattle No. 3 is billed to sail from the N. C. dock at 8 o'clock this evening for the new diggings in the Tanana country and will get away sharp on time. She had a fair list of passengers at 2 p.m. and a number of others will secure tickets before the boat leaves. Among those who have engaged passage are the following: Capt. Hibbard, Capt. Barnett, Howard Turner, A. Healey, A. P. Puckett, J. Krosinsky, A. N. Shaw, L. Martin and Miss Scott. Of these several are attaches of the company who have been assigned to lower river points. Capt. Hibbard is master of transportation for the N. C. Co. and goes to Tanana to look over the field. Mr. Turner will take charge of the N. C. store at Fairbanks and under his immediate care will have a stock of goods amounting to 75 tons which is now safely stored aboard the boat. It is stated that a number of parties are aboard the Thistle en route for Tanana but they will be able to catch the Rock Island which will sail in about a week. Frank Mortimer has been appointed manager for the Prospector and that boat will herself sail from the Aurora dock. She left last night for Stewart river points with 14 passengers and a light load of freight, due to the fact that numerous orders for goods could not be filled owing to shortage in the market. The Thistle and Sifton are still at Heilgate having been unable as yet to get through. They may be expected to arrive at any time. The La France is billed for Stewart river points tonight. Several scows got in today and helped relieve the somewhat strenuous conditions which have prevailed in the markets for a week or more. The Tyrrell left last night for Fortymile and Eagle. She will make a quick trip bringing back a number of passengers. The Maid—What makes you chew your mousethatch so, Reggie? Are you fond of discouragement? The Thing—Discouragement—aw? The Maid—Yes, feeling down in the mouth, you know—Harvard Lampoon. Eastman Kodaks, 116 each. Just over the ice—at Goetzman's, 128 Second Avenue. This being the last week in the month the territorial court is taking its usual vacation. Fresh Kodak Films, all sizes, at Goetzman's, 128 Second Avenue.
