Our Streets.

We are glad to see that our citizens are awakening to the urgent need of some action with regard to the immediate improvement of our streets.

Report of the School Board.

In presenting a report of the transactions of the past calendar year, your Board has to record a year of continued progress in school affairs.

At the close of the school year our Principal, Mr C. E. Seaman, after two years of faithful and painstaking service, resigned his position in order that he might go abroad to pursue further studies.

Mr J. F. Godfrey was appointed to the situation left vacant by the resignation of Mr Seaman. Mr Godfrey has a well-earned reputation as an efficient teacher and enters upon his work with an enthusiasm that bids fair to maintain the present excellence of the schools and to prepare the way for further advancement.

Your Board in consultation with Mr Godfrey deemed it wise to extend the work of the advanced department; so that we have now two grades carrying on High School work.

The number of pupils now in attendance in the public schools is 240. These are distributed as follows:

Grades I, II, Miss Burgess teacher, 76. Grades III, IV, V, Miss Godfrey teacher, 44. Grades V, VI, Miss West teacher, 50. Grades VII, VIII, Miss Scott teacher, 36. Grades IX, X, Mr Godfrey teacher, 34.

It will be noticed from the above that during the year 1894 the total number of scholars has increased by 19 as compared with 1893, and that we have now one more grade in the schools and an additional department.

In the High School department there are 19 pupils in grade IX and 15 in grade X. The average attendance in this department has been about 90 per cent.

The Heating and Ventilating apparatus having proved satisfactory, your Board ordered the payment of the contract price together with the amount of interest accrued from the date of the completion of the contract.

Entertainment at Horton Landing.

The musical and literary entertainment given in Acadia Villa Hall, Horton Landing, on Monday evening last, was a decided success.

AN ENGLISH PHYSICIAN FROM THE TIGHT LITTLE ISLAND. HE IS PLEASED WITH CANADA.

Talks About Canadian People. He Says we Have Too Many Pale and Half-Dead Women.

HIS EXPERIENCE WITH PAINE'S CELEBY COMPOUND. Thinks it is the Right Medicine for Building up Weak and Sickly Girls and Women.

In the early part of January an English physician of high standing and considerable wealth visited the principal cities and towns of Canada, after a tour in the United States.

When asked what he thought of Canadians from a physiological point of view he replied: "Taken as a whole you have a fine, sturdy population; but there is room for improvement. You have splendid specimens of manhood; your women generally look healthy and vigorous, but you have too many who are pale, listless and half-dead looking, such as I have met in the United States."

"Oh, yes! I know something about Paine's Celery Compound, I have used it occasionally myself, and know of its being used in England. I have recommended it to pale, weak and run down women and girls in England, and it has produced very satisfactory and pleasing results."

"Your pale, weak and half-dead women and girls have a true life-building agent in Paine's Celery Compound. There is no other preparation I know of that is so well adapted for the troubles of weak females."
