Export Duties on Logs.

WASHINGTON, May 20.—The Free Press
Washington special says that President
Cleveland has been greatly impressed with
the benefit to the lake coast of the removal of
the Canadian export duties on logs, and has
informally directed an expression of his grati-
fication at the introduction of a bill for that
purpose in the Dominion Parliament by Sir
Chas. Tupper, Minister of Finance. There is
a prospect that this limitation upon the pros-
perity of a great Michigan industry will be
removed. The friendly attitude of both the
American and Canadian administrations to
this proposition gives hopes of its adoption.
