Ottawa, March 22, 1936.

Dear Mr. Rhodes:

I have your two letters of the 18th instant. Do not be discouraged over Nova Scotia, you have handled the situation well. It is amazing what bull headed notions some men will take - even men of marked ability. I am exceedingly sorry the one party especially should act as he has been acting and I simply cannot comprehend it.

Mr. Black has been advising me that you purpose having a resolution put through the Legislature regarding disclosure of confidential information respecting your province by the Prime Minister here. We thought that best time for us to take action was upon information that this resolution had gone through. Mr. Black has been wiring you at my request.
