

## TABLE OF CONTENTS.

|                                             | PAGE |
|---------------------------------------------|------|
| I.                                          |      |
| Introduction.....                           | 10   |
| Types of Beds.....                          | 11   |
| (a) Open beds.....                          | 11   |
| (b) Frame beds.....                         | 12   |
| 1. Cold bed.....                            | 12   |
| 2. Semi hot beds.....                       | 12   |
| 3. Hotbed.....                              | 13   |
| (c) Greenhouses.....                        | 15   |
| II.                                         |      |
| The Soil of the Seed Bed.....               | 17   |
| Bush soils.....                             | 17   |
| Dutch mud.....                              | 18   |
| Composts.....                               | 18   |
| Fertilization of Moulds.....                | 19   |
| Manure.....                                 | 19   |
| Chemical fertilizers.....                   | 19   |
| Liquid manure.....                          | 20   |
| Hen manure.....                             | 20   |
| Regeneration of the Moulds.....             | 20   |
| A poor method.....                          | 20   |
| III.                                        |      |
| Shelters.....                               | 22   |
| Vertical shelter.....                       | 22   |
| Surface shelters.....                       | 22   |
| Straw mats.....                             | 24   |
| Frames.....                                 | 24   |
| How to use Surface Shelters.....            | 26   |
| A bad practice.....                         | 27   |
| IV.                                         |      |
| Seed-sowing and Maintenance of the Bed..... | 28   |
| Choice of seed.....                         | 28   |
| Artificial germination.....                 | 28   |
| Sowing.....                                 | 29   |
| Thickness of seeding.....                   | 29   |
| Care and Management of the Beds.....        | 30   |
| Watering.....                               | 30   |
| Airing.....                                 | 30   |
| Weeding.....                                | 32   |
| Moulding.....                               | 32   |
| Thinning.....                               | 32   |
| Nursing.....                                | 32   |
| Hardening off and acclimatization.....      | 33   |
