That this Meeting recognizes with pleasure the prospect of the increased usefulness of the Canada Sunday School Union consequent on the removal of the Depository to the New Association Building, and knowing the immense value of a sound Sabbath School Literature both for towns and remote settlements, hereby expresses its conviction that it will be for the interest of Religious Education, if the Book department were set free from the pecuniary liabilities now pressing upon it ; and therefore appeals to the liberality of the Christian public to place the Union in a position of ease and freedom in this respect.

Moved by Rev. J. DENOVAN, seconded by B. LYMAN, Esq.  
supported by Rev. Dr. DURYEA, of Brooklyn, New York.

That this Meeting is of the opinion that the increasing population of the Dominion, the better facilities for access to the outlying settlements the growing need for conjoined counsel in the work of Sabbath School teaching, and especially the ever paramount claims of the Gospel of Christ in its relation to our youth, present a most powerful motive to awaken the deepest interest of the Christian Churches in the special work pursued by this Union.
