A few years since a great manufacturer of Broma lands and was seared that he had fully succeeded. Hospitals, infirmaries, and inouschold generally, should always be provided with it. When gruel, arrowreet, greats, barley, starch, rice, farina, and many other things erdinarily resorted to for patients are of no utility, the Broma is sometimes relighed. It is believed that those who us he as a beverage will have manifold distotic advants over the consumers of ten and eaglie. We see it thinks that in the last summer than individuals who 
was continually using Chocolate or Broma neither land 
statels of cholera or dy-conterio affections, while others 
delto state families, taking their daily polations in tea, 
seeding or wimple cold water, were the sufferent, if any.

We amont vouch for the truth of this, but it has reall

of the Waterloo Tavern. Contham. Yorkshire. Interest the Life Guards, dated September 28th. 1848.

To Frotessor Holloway,
Sig.—For a long time I was a martyr to Rhenmatism and Rhenmatic Goot, and for ten weeks previous to using your medicines, I was so bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the japer I take in I thought I would give them a trial. I did so. I rubbed the Ominment in as directed, and kept cubbage leaves to the paris thickly spread with it, and took the Pills night and moraing. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven months, without any symptoms of the return of my old complaint.

Besides my case of khemmatic Gout. I have lately had proof that your Pills and Ominment will heal any old wound or wheer, as a married woman, living near me, had had a had leg for four years, which no one could care, and I gave her some of your Pills and Ointment, which soundly healed it when mething che would do it. For your information I had the honour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen years a corporal. I was two years in the Peninsular War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd Sequember, 1888. The Counganding Officer afyliat time, was Colonel Lygon, who is now a teneral. I billonged to the troop of Captain the Honourable Henry Baring.

To Professor Holloway,

To Projesser Holloway,
Sm.—I was superintending, about six months ago, the erection of one of our Ralfway Bridges, and by the fall of a large stone my right foot was surfously bruised, which ultimately got so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to safe my foot, two of my tees must be taken off in despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Cintment and Pills, which fidd, and was by their means in three weeks enabled to recume my usual occupation, and at this time my toos are perfectly cared. Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigous.

The number of Diseases mentioned above, as cured by this preparation of Sarsayarith, may soom large; but we are, nevertheless, prepared to prove, by an extensive array of certificates, that such is the fact. A fraction of the cidence which we possess concerning each disease, would be recived before any indicial tribunal as complete demonstration. It must be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are put similar in their origin and causes; for they all suring directly or indirectly from a corrupt fountain. If the blood were in a pure, healthy, and active sail those complaints from the system, and chronic disease would be impossible.
