

**A WORD TO THE WISE**

The editors hope you enjoy reading The Guide. This year will see many important improvements made. We can promise our old subscribers many new unusual and interesting features, a constant bettering of *the service*.

During the next few years Canada must solve the trying problems that will have resulted from the great war. The equitable solution of the reconstruction difficulties will determine the status of western agriculture—whether our prairies will be dotted with prosperous farms or the industry stifled by placing upon it an unequal portion of the vast burden of debt that has been created. Every farmer should keep posted. The Guide should be a weekly visitor in every farm home during this period. Back numbers of The Guide cannot be supplied. Send in your renewal promptly to avoid missing a single issue.

The yellow address label on The Guide shows to what date your subscription is paid. No other receipt is issued. Remittances should be made direct to The Guide either by registered letter, postal note, postal bank or express money order.

The Saskatoon Fair report was held up somewhere during the strike and did not arrive in time to be included in last week's issue. As a result, the reports of both the Saskatoon and the Brandon fairs appear this week. Next week the Regina report will be published. A considerable number of illustrations showing the prize winners have already appeared in The Guide and others will be published from time to time in our livestock department.

The postal strike has certainly taught everyone the importance of a smooth-working and uninterrupted mail service. Perhaps most of us appreciate as never before the service that is rendered for us by the men who handle our mail. The Guide suffered by the strike in two ways. It interrupted the steady flow of information, which is the life blood of a paper, and it delayed the mailing of two issues. In fact it accounts for this issue reaching subscribers a day late. However, we are overtaking our schedule and next week The Guide will be out at the regular time.

A telegram from Seager Wheeler reports: "No damage to crop, prospects satisfactory." Mr. Wheeler has growing and now nearing maturity a 40-acre field of the new Red Bob wheat. Crops on nearly every side of Mr. Wheeler have suffered damage, some from wind, some drought, some hail, and many large acreages are badly injured by frost. His friends will be glad to hear that there will be a supply of the Red Bob seed for distribution this fall.

The Guide containing our crop report form was, unfortunately, held up by the strike. Our readers were asked to fill out the report and mail it to us

not later than August 3. Under the circumstances it was impossible for many to do this, as the paper did not reach them in time. It has been decided, therefore, to extend the time for receiving the reports but we would ask our readers to fill out and return them as soon as possible.

Tractor farming has received a tremendous impetus as a result of the unprecedented demand for foodstuffs that has been thrust on the farmer, laboring, as he is, under the disadvantages of a depleted farm labor supply. The effect will be to greatly increase the per capita output of grain growers. The increasing interest taken in tractors was reflected at the Brandon demonstration, where hundreds of farmers watched some 43 different machines in operation. A report of the demonstration, together with a full page illustration made from photos taken with The Guide camera, is published in this issue.

The Back-to-the-Lander is the title of a feature article in this issue by Peter McArthur. Mr. McArthur is one of the best-known writers in Canada on topics relating to the farm. He had a distinguished career as a journalist, but, as he explained in an article republished in The Guide some time ago, the memories of the old farm clung to him wherever he went and now he is back on the Ontario farm where he was born, and which his father helped to hew out of the wilderness. He has continued his writing, however, and his articles, dealing with country life have a realism and freshness which have delighted thousands of readers throughout Canada.

How many bushel of oats did you "take off" in 1917? What did potatoes net you last year? What did it cost you to thresh that field of grain, and how were the different charges distributed?

Wouldn't these facts be mighty valuable next year, or a couple of years hence; wouldn't they afford interesting comparisons, and probably give you a good basis for judging future prices?

To jot these facts down in simple record form, ready for instant reference anytime, would take but a few minutes of your time at the end of the day. And the profit they'd yield in giving you definite information on which to base future conclusions would well repay the little effort. Besides proper Card Record Cabinets and Cards to make those records safe and permanent we are always glad to make suggestions and render what service we can in developing a record-keeping system to suit your needs.

GET FREE PRIZES**

In the centre of our issue of July 31 (last week) will be found The Guide's announcement of free prizes to The Guide boys and girls or their parents. There are over 100 prizes and their total value is over \$230. These prizes are to be sent free and postpaid to The Guide readers sending in answers to the questions asked. Full information is given on the three centre pages of that issue.

This information is needed by The Guide in developing its business. Individual answers will be kept confidential. With the information asked for here The Guide can increase its advertising revenue and give its readers a bigger and better paper. At the same time it is willing to pay you well for your trouble in getting it. You will be surprised how much interesting information you will obtain by filling in the question sheet. Look the prizes over and make your selection now.

**Answers MUST Be MAILED Us By SATURDAY, AUGUST 17**

Tear the three sheets out now and fill them in at your first opportunity.
