

A NEW FINANCIAL FIRM.

The firm of A. J. Pattison and Company, bankers and financial agents, has been formed in Toronto. The senior member of the firm was until recently president of the Brantford Street Railway, the Grand Valley Railway and the Woodstock Thames Valley and Ingersoll Railway. Mr. Pattison sold the controlling interest in his railways to a Pittsburgh railway magnate. Mr. Pattison is a Canadian by birth, a Lambton county boy, and has been in business in a fiduciary position in Toronto for twenty-five years and has been a resident of Toronto for over thirty-five years. The record of the Canadian Homestead Loan and Savings Association under his administration for over twenty years, loaning upon mortgage that is one foreclosure, has not been equalled by any Toronto loaning coming. The new firm will have a strong reputation for integrity and administrative ability, and a high financial rating.

Direct New York, Boston, Philadelphia and Montreal Stock Exchange wires with one of the largest New York and Boston firms has been arranged for. The firm will have direct wires also to Chicago and Cobalt, and are in a position to give not only excellent service but the most conservative advice upon financial investments that can possibly be had. The firm's advertisement appears in another column.

HOW DO YOU WALK?

This is not the simple question it appears. Many people now believe that a person's character may be foretold from his method of walking. Firm regular steps are said to denote a steady, reliable nature, while jerky, uneven movements indicate the reverse. The energetic person walks quickly and stops suddenly; the dreamer saunters along with slow, abstracted mien. The obstinate man goes straight ahead, refusing to turn aside for anybody. On the other hand the person who is ready to step out of everyone's way is not necessarily weak-willed. He may be afflicted with too much courtesy. The long swinging step usually marks the generous broad-minded person while the small petty tread shows the walker to be of a mean and narrow character. This last rule applies, of course, far more to men than to women.

DISFIGURING FACE SORES.

Pimples, face sores, and the kindred eruptions common to late winter and early spring, are the worst disfigurements the fair sex have to bear. To remove them the pores must be opened and the functions of the skin stimulated, by the vigorous applications of Zam-Buk morning and night, and washing frequently with Zam-Buk Medicinal Soap. Zam-Buk reaches the root of the disease by soaking through the skin and tissue and its powerful herbal juices expel disease and make the skin do its work, which can't be done simply by the use of internal medicine. Miss Ellen Smith, of Somerville Ave., Toronto, says: "My face was greatly disfigured by a skin eruption which annoyed me dreadfully for months. I was advised to try Zam-Buk and I am glad I did for it quickly removed the trouble and my face is now clear of all eruptions."

Zam-Buk contains no animal fat whatever, but is a pure healing salve. It cures cuts, burns, chafings, cold sores, itch, eczema, running sores, ringworm, piles, bad legs, inflamed patches, and all diseased, injured and irritated conditions of the skin. Obtainable at all druggists and stores 50c., or post-paid from the Zam-Buk Co., Toronto.

Even a first-class woodworker cannot necessarily fill a position in a chop house.

HIS AWFUL FEAR.

"Oh, the sorrow of it!" sobbed the fair maid. "Last night I refused Mr. Blank and this morning his body was found in the river."

"Poor fellow!" murmured her girl friend, "suppose he was afraid you might change your mind."

Tess: "There goes Ursula—Hope with Jack Timmid." Jess: "Yes, she's setting her cap for him." Tess: "Do you really think she cares for him?" Jess: "Yes, indeed! You know her full name is Ursula May Hope. Well, she sings all her letters to him now, 'U. May Hope.'"

OUR NEED OF WATER.

Muscles Made Elastic and Temperature Regulated by Moisture.

Physiologists tell us that the animal body consists of almost 80 per cent. of water. Admitting this to be true, it would seem plausible, says the Medical Record, that this quantity is necessary in order to carry on the normal physiological processes of the animal economy in proper condition.

For similar reasons it would also appear plausible that should this quantity in any way be greatly reduced or diminished, either through normal processes of the body or through abnormal processes; this lost quantity must immediately be resupplied. Should such a withdrawal of water be permitted to be uncorrected, the disorders will assume such grave dimensions that life itself may ultimately be terminated.

Elasticity and pliability of muscles, nerves, cartilage, tendons and even bones depend mainly on the amount of water they contain. Water also serves as a distributor of bodily heat and regulates the body temperature by the physical process of absorption and elimination.

Under normal conditions and in a proper degree of health this supply is ordinarily furnished partly by the food and partly by the drink we are daily consuming. An overindulgence in the use of water—provided it is not carried to excess—will seldom if ever be productive of any deleterious consequences.

Bickel's Anti-Consumptive Syrup needs no recommendation. To all who are familiar with it, it speaks for itself. Years of use in the treatment of colds and coughs and all affections of the throat has unquestionably established its place among the very best medicines for such diseases. If you give it a trial you will not regret it. You will find it 25 cents well invested.

IT ALL DEPENDS.

"Things is blessin's or otherwise," said Uncle Eben, "cordin' to how you uses 'em. Hope is what keeps some men workin' deir best an' what encourages others to run into debt."

LOCKED AWAY FROM BRIDE.

Young Irishmen Avenge Wrongs of Pretty Mary Durkin.

The aristocrats of Dublin Castle, the fashionables of London, the millionaires of New York—everyone who lightly makes love or breaks his vows, whether before or after marriage—should be informed of the punishment which his humble but true-hearted neighbors are inflicting upon a faithless flirt.

Robert Flynn, once an artilleryman, now a small farmer near Carrick-on-Shannon, made love to Mary Durkin, a girl as pretty as worthy. They engaged themselves to marry; the date for their wedding was fixed. Mary prepared her trousseau with her own needle, but, with each stitch she felt hopes as pure, tremulous, as ever animated a princess. Suddenly, and without the slightest

cause, Flynn transferred his affections, so-called, to Anne Farrelly, another local beauty. The priest, like everyone in the country round, knew of Flynn's faithlessness to Mary Durkin, and, after giving him and Anne Farrelly a severe lecture, telling them he questioned if they could be happy after breaking poor Mary's heart, the good father refused to marry them.

Flynn and Anne were married by civil process. This the farmers living near Carrick-on-Shannon regard as impious. Besides they are angered by Flynn's treatment of Mary Durkin. So when the bride and bridegroom were returning from the civil ceremony thirty young men met them.

Without wasting words these rural defenders of the faith and of constancy in love seized Flynn and took his bride back to her father's house. Then they carried the struggling bridegroom to his house.

For ten days and nights the young farmers kept constant guard over both houses, have had Mr. and Mrs. Flynn under unceasing surveillance, and have prevented them from rejoining each other.

A doctor can hardly be blamed for losing his temper when he gets out of patients.

AS BAD AS CHICAGO.

Wellington, New Zealand, one of the Windiest Cities in the World.

Wellington, the political capital of New Zealand, is one of the windiest cities in the world, and once a building there gets "well alight" there is little chance of saving. Recently the Parliament buildings were destroyed, and St. Mary's Roman Catholic Cathedral, close by, has been twice burned down. Everybody in Wellington clutches his hat on rounding a street corner to prevent its being blown into space. A Wellington man is always known in Sydney, Melbourne and other cities by holding on to his hat through force of habit.
