PRESBYTERY ALSO OBJECTS TO THEM

A meeting of the presbytery of St. John was held yesterday in St. Andrew's church. The Rev. L. B. Gibson Rev. Dr. Morton, misssionary at Trinidad, addressed the meeting on the importance of missionary work and of the generous help which should be given this branch of work. The rev-

erend doctor spoke of his labors in Trinidad, of the obstacles which had success. The idea of the present missionary work was to get as many teachers as is possible, with the view that ultimately they would become ministers. The work was advancing ahead of the means to uphold it, and a special effort should be made in New Brunswick to help. This could be done, the reverend gentleman said, in a quiet manner by placing the needs before the individual congregations, and they would not stint the work so good and noble.

A motion was made and seconded, thanking Dr. Morton for his address. Rev. Mr. Gibson thanked the doctor. A report was read from Dr. Campbell stating that the two candidates for the ministry, Messrs. Powers and Fulton, be received as ministers. But as neither of the gentlemen was present, a motion was made that the power of receiving the candidates be transferred to those courts under whose di-

The request of Rev. L. G. Macneil was then brought before the meeting. Mr. Macneil asked to be placed on the retired list. The matter was placed in he hands of the convener.

A petition was read from Fredericton in which the congregation asked for the continuation of their present code under the new act of the church. After some discussion the meeting ledged itself not to oppose the matter

at the general assembly.

The report of home missions was read by Rev. Gordon Dickie. It stated that the field was fairly well covered but there was room for more stud-ents. In a few cases a deficit has been shown, but in all but one this deficit was covered. Scotts' Mills' deficit of

\$30.54 was ordered paid.

A lively discussion followed. The question of Sunday train running came before the meeting and was discussed. A motion was made whereby the pres-bytery expressed a strong protest against the service. A copy of the resolution will be sent to Mr. Downie, general superintendent of the Atlantic division of the C. P. R.

FATHER TAKES CHILD

Runs Down Union Street Followed by Howling

Frederick Adams (colored) said to be a ticket-of-leave man, living near the Marsh Bridge, sauntered into Union alley last night for the stated purpose of having a quiet talk with Thomas Marsh, his father-in-law, and others of his immediate relatives. Adams has a little daughter which the grandfather has cared for since its infancy and the main drift of the conversation that followed the arrival of the visitor had to do with the upkeep of little Linda. But words never have been exceptionally efficacious in the promotion of domestic bliss and a small altercation followed in natural sequence to find its outcome in the spiriting

away of the child. Abrams becoming angered at something that was said, picked up the yard, and headed for down town. followed by all the denizens that Union alley could number, and that means no few. Officer Scott, who had been detiled for the purpose of preserving order in just such an emergency, arrived only in time to see a cloud of dust disappearing in the direction of Brussels street. He joined in the chase, but was only successful in inducing the pursuers to have done with the pursued and to return with him

to central station, where, he stated, that a complaint might be laid. The small army of denizens had divested themselves of their more incidental garments during the progress of the chase nad they presented a rather, weird appearance when coatless, hatess and decidedly out of breath they straggled into the station.

Thomas Marsh found wind enough t tell his story, but the Chief counselled that as Abrams was the father of the child, little might be done in her recovery. Then Thomas Marsh and all the other Marshes went home.

Nurse Again Testifies--Dr. Currey to Go on Stand

FREDERICTON, N. B., July 6. -The regular July sitting of the New Brunswick divorce court opened this morning, Mr. Justice McKeown presiding. The docket consists of five cases. Lawyers interested in the suits outside of the Currey one, urged strongly upon His Honor to take their cases first. The Currey lawyers as strongly objected. His Honor said that the Currey case

had precedence and he could not allow any other case t' come first unless those engaged in the Currey case consented. As the latter would not agree the Currey suit was taken up and the others set down for next week. Mr. A. H. Hanington, K. C., on be half of Mrs. Currey, moved an order little one, who had been playing in the for execution for \$300 against the goods and chattels of Lemuel A. Currey for alimony under an order made by Mr. Justice Gregory on the 9th day of February last granting Mrs. Currey \$75 per month, payable on the 15th of each month, the \$300 being for the \$75 due March, April, May and June. This morning was taken up with the reading of affidavits for and against the

> Mr. Skinner, K. C., opposed the motion, and read an affidavit of Mrs. Currey. The latter claimed that no proper order was made in February, that Judge Gregory was not in sufficient health to sign any order and if he did sign an order it was not done in the presence of defendants.

Mr. Currey repeated many statements made in the libel that during the past winter Mrs. Currey had not conducted herself properly, that the children were not looked after, but were neglected, that she still broke into the house and carried things away, and that she still charged goods

against him Mr. Hanington, K. C., came back with a long affid vit of Mrs. Currey denying in toto the charges made by Dr. Currey. The Currey case was continued this afternoon. Dr. Walker, who took the

stand shortly before dinner, concluded his testimony. His evidence, as was that of Miss Ada Tapley, the nurse who followed, was similar in every detail to that given before the court in December last. Dr. Walker, as on the former occasion, expressed the opinion that Mrs. Currey was a monomaniac in respect to her feelings against her husband.

Miss Tapley's evidence is in substance that the husband and wife did not live happily together and that each threatened the other in a like manner as far as conversation was concerned. Miss Tapley told over again her knowledge of the time that the police entered the home. That night she was awakened by hearing Mr. Currey talking loudly and Mrs. Currey crying, "Let me up." She went out into the hall and in a short time a policeman appeared on the scene. The policeman asked her if Mr. Currey had struck Mrs. Currey. This she declined and stated that she had never seen Currey strike his wife. She retired and took no further part in the affair. She expressed the opinion that the relations between the parties from what she observed were very unhappy. Tomorrow morning Dr. Currey will take the stand and give the evidence

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Glanford Station, Ont .- "I have taken Lydia E. Pinkham's Vegetable Compound for years and never found any medicine to compare with it. I had ulcers and falling of the uterus, and doctors did me no good. I suffered dreadfully until I began taking your medicine. It has also helped other women to whom I have recommended it."—Mrs. Henry Clark, Glanford Station, Ontario.

Another woman says Lydia E. Pinkham's Vegetable Compound is the best remedy in the world for women.

Fox Creek, N. B. - "I have always had pains in the loins and a weakness there, and often after my meals my food would dis-tress me and cause soreness. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better, and I can walk with ambition. I have encouraged many mothers of families to take it, as it is the best remedy in the world for women. You can publish this in the papers."
