EDUCATION.

THE central position of Three Rivers in Eastern Canada, its quietude and healthfulness, and its possession of the advantages of ready communication with other parts of the Province by means of Telegraph, Stage and Steamboat, seem to point it out as a place well suited for the establishment of Seminaries for the education of youth.
The Rev. the Incumbent of Corpus College, Cambridge, who enjoyed the happiness and advantage of being one of the pupils of that distinguished scholar, and very admirable teacher, the late Rev. James Tate, A. M., Master of the Grammar School of Richmond upon Swale, Yorkshire,—has been engaged for several years in the tuition of his own sons, and now proposes to undertake the instruction of a few additional pupils.
The charges, which are payable each Term in advance, are as follows:—

	Per Term.
Tuition for Boys under 12 years of age	£3 0 0
Do. do. above 12 do	2 10 0
Tuition, Board, &c., &c., for Boys under 12 years of age	9 0 0
Do. do. do. above 12	10 0 0

No extra standing charges.
Commencement of Terms: January 13, March 20, July 23, October 8.
Vacations: From December 23 to January 13, and from June 16 to July 21.
School Hours: from 7 to 8, A. M., 9 to 12, and 1 to 2, P. M.
Evening: Exercises and partial preparation for the next day.
Some additional time would be devoted to youths who may be desirous of studying the higher Classics, and the Rudiments of Mathematics, in preparation for a College or University Course.
For such pupils, ordinary charge per
Term in full..... £12 10 0
Do. with single room..... 17 10 0
SAMUEL P. WOOD,
Rectory, Three Rivers, May 12, 1851. 366

The Rev. James Tate, latterly Canon Residentiary of St. Paul's Cathedral, in addition to many other commendations to the notice of the public, was the author of Elements of Arithmetic, of an Introduction to Greek Metres, and of a Continuous History of St. Paul, works all favorably known to men of letters.

Out of a small number of pupils, compared with that which annually issues from the great public schools of England, a large proportion distinguished and advanced themselves during their Academical Course, or in other walks of life. Not to mention the attainment of various other College honors by many of them, from twelve to fifteen were elected fellowships at the University at which were Dr. Dinsen, author of a Greek Grammar, &c., &c., Dr. Peacock, Dean of Ely, Archdeacon Thorpe and Musgrave, and the Archbishop of York.

FAMILY TEA, COFFEE AND SUGAR WAREHOUSE,
No. 109, Notre Dame Street.

SAMUEL COCHRAN invites the attention of Customers to his stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as allow him to offer them at unusually low prices.
THE MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Roasting and Grinding Coffee, is on the most approved plan, the Coffee being closely confined in *polished metal spheres*, which are constantly revolving and oscillating in *heated air chambers*, to prevented imbibing taint from Smoke, danger of partial carbonization of the Bean and loss of Aroma, so important to Connoisseurs, which is further ensured by attention to Grinding at the shortest time prior to Sale. To this elaborate process SAMUEL COCHRAN owes the high reputation his Coffee has obtained through a large portion of the Province.

PRICES OF BOARD FOR THE SEASON OF 1851:—FIVE SHILLINGS PER DAY, or FIVE POUNDS PER MONTH.
Caledonia Springs, 2nd June, 1851.

MONTREAL, 4th June, 1851.

DEAR SIR,—In compliance with your request, I have much pleasure in giving you my opinion of the extraordinary efficacy of the Waters of the Caledonia Springs, so long and highly appreciated by the Public, based upon the observations of some twenty-five years' experience, and viewed as they have been in a great variety of cases of urine and others, laboring under rheumatic affections and the different forms of disease to which the human frame is liable, I consider them second to none in America, except those who have suffered from this dreadful malady, can justly appreciate their wonderful salutary effects. I have often seen persons of middle age, myself for one during ten years, which baffled all medical skill, both in England and on the Continent, result in the Caledonia Springs walking on crutches, and others that could not walk at all, return out by personal sufferings, and ignorant and want of exercise, return to their homes free from pain, leaving behind (with unspeakable joy) their crutches, and with health, strength, appetite, and activity fully restored. Such, Sir, is the living proof of the curative action of these Waters, the intermittent and Sulphur Springs in particular, have been almost as efficient in other cases of disease, such as confirmed *Sore Mouth*, and other affections of the skin; in a variety of Dyspeptic Complaints, Chronic Affections of the Liver and Kidneys; and I am sure that a great number of those who visit the Springs will, when they have tried it, find completely restored, would have been cured by a more extended use of the spa. That these Waters have saved many lives, and restored many others to be generally admitted, and so much respectable testimony to this effect has already been laid before the Public, that to my more would be superfluous.
Sir, Yours truly,
Member of Royal College of Surgeons, London.
To John L. Wilkinson, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 13th December, 1848.

DEAR SIR,—I have to state that I consider the use of the Caledonia Springs Waters peculiarly efficacious in the treatment of many forms of disease. Circumstances beside me to grant you a favorable Certificate with more than ordinary pleasure, many of my own Patients have, at different times, derived great benefit from the use of the Waters. Of all diseases that have come under my notice, in which a persevering course of the Caledonia Waters produced the most beneficial results, Chronic Rheumatism ranks the first. Many of the cures in this disease have been truly astonishing. I can with a safe conscience recommend the indirect, as well as the direct, to those suffering severely for more than nine months, who had completely lost the use of his limbs, and could only move about with great pain and difficulty, by the aid of crutches, after a residence of six weeks at the springs, he returned free from pain, and strong enough to walk a considerable distance without fatigue. I have also found the Waters useful in Chronic Affections of the Urinary Organs, in Chronic Secondary Syphilis, and some of the forms of Cutaneous Diseases.
In conclusion, allow me to add, from a personal visit to your Establishment, that (independently of the softness) the purity of the Water is the great recommendation. I have been put to in the improvement of the place, and the unwearied care and attention which you bestow to the comfort and convenience of your guests, are highly creditable to you as a proprietor of public premises and support.
I remain, dear Sir, yours very truly,
Gustave H. Baehr, M.D.
Licentiate in Surgery, McGill College.
To the Proprietor of the Caledonia Springs.

MONTREAL, December 8th, 1848.

SIR,—I beg to state that I consider the Caledonia Waters efficacious in cases of Dyspepsia, Chronic Rheumatism, and Chronic Diseases of the Liver, Kidneys, &c., &c., in the administration as a Mercury, and Illustrated Syphilis I would also add, in certain Cutaneous Diseases. I have frequently recommended their use to the above cases, and have witnessed their good effects. I hope that the benefits that are derived from their use may not be lost to society, by the inattention of those interested in the Springs, but that they may be more universally known, as they have been lately put to, and like the best of all of our other excellent remedies, fall into unmerited disrepute.
I have never visited the Establishment, but I have often heard it most favorably spoken of.
I am, Sir, your obedient servant,
JAMES CRAWFORD, M.D.
To the Proprietor of the Caledonia Springs.

Truth for the Million.

The great number of parties, (including the most eminent physicians of the Province,) who have testified to the efficacy of these waters, whilst it has placed them high in the estimation of the public, has induced some other proprietors of so-called mineral springs, to try to put their waters on the same footing with the Plantagenet, but nothing can be more absurd than this. These other inferior Springs have been known to the public in some instances for fifty years, and in that time what have they done? Have they anything to show for the patronage they have received from the public? How have they stood since the Plantagenet came into the field? It is now only three or four years since the Plantagenet Waters were introduced to the Public, and in that short space of time what has become of other Springs, which were known before them? Can any amount of puffing make the public believe that they deserve to be mentioned in the same breath with the Plantagenet Spring? It may be safely said that no one who has once used the Plantagenet Water will ever use any other water. Their inferiority is to be noticed, and they are comparatively so worthless, that in a short time they will be forgotten. The sooner pay twenty times the price for Plantagenet Spring Water, than for the best of them. Yet some of these Springs have a great advantage in locality over the Plantagenet, in so much as they are nearer Montreal, and are accessible, (if they are worth seeking,) to all classes without difficulty.
One great cause of this preference is the distinct character of the Plantagenet Water, and more especially its solidity of body, and the gluttinous quality it possesses, which distinguishes it in a remarkable degree from all other waters, which appear poor and thin in comparison with it. It may be truly said to have done more for the public health in four years, than any other water has ever performed in Any, and some of the cures it has effected are truly miraculous. Many of these facts are already before the public, and others can be ascertained at Plantagenet, where the public are invited to judge for themselves. In severe cases of rheumatism and other chronic disorders it is almost infallible, a number of cases having occurred where parties who had lost the use of their limbs have been restored to health and vigor by the use of it. The public are invited (in confirmation of this fact) to peruse the numerous testimonials of medical men and others, and particularly that of Dr. Nelson, who speaks of effects produced on members of his own family. Such being the case, it cannot be wondered at that the Plantagenet Water has driven all competitors from the field, and that its sales are about to be placed on a high above all other Springs ever discovered in the country.
As evidence of this, it is only necessary to refer to the names of the eminent Physicians, and public and private individuals, who have certified to the virtue of the Plantagenet Waters, and who regard it as a boon to the country.
In conclusion, let it be borne in mind, that it is the Plantagenet Spring alone that these Waters are bottled, but besides their superior flavor, fattening property, unknown to any Water-Bottler. There is, in fact, but one Plantagenet spring, and the more that is known, the higher its reputation, and the more all others sink into its gulfmore behind it.
It is enough to read the letters given below, or parties who have used the Plantagenet Waters, to be aware of their superior excellency over all others. Doctors Colwell, W. Nelson, St. Pierre, Hamilton Hetton, George W. Campbell, Archibald Hall, Alex. McCulloch, Robert L. McDonnell, J. G. Bilaud, E. H. Trudel, H. Mount, J. L. Leprohon, C. S. Sewell, F. Badgley, H.
