Trade Went Up With the Lowering

BUFFALO, Dec. 31.—The Buffalo customs house is generally regarded as a good barometer indicating the trade with Canada, and as most of the imports entered here are from Canada the customs report has unusual interest. It is shown by official figures that not in sixteen years have the imports entered been so small as in 1894. The value of goods entered this year subject to duty was but \$1,781,697 and the duties collected \$472,944. The goods entered this possible to duty amounted in value to \$808,001, while the year previous they were valued at \$435,203.

830,801, while the year previous they were valued at \$543,536.

Since the adoption of the new tariff there has been a very large impetus to the Canadian trade. This is best shown by a comparative statement of the value of entries of goods free of duty for the four last months of 1894 as compared with 1898.

Indicating with the lower tariff rates a very largely increased business, and it mists be remembered that with the advalorem duties substituted for specific duties the valuation of goods has been much lower and does not fairly represent the actual increase. Details for the various commodities represented are not yet prepared, but lumber forms one of the biggest items for the free list goods increase.

Destructive Fire in Thedford.
THEDFORD, Ont., Dec. 28.—One of the most destructive fires that has occurred in our village took place yesterday totally destroying the large and well-equipped roller flour mill belonging to James Calvert. The cause of fire is unknown but is supposed to have originated from hot boxes in the third story. The fire spread to the frame house owned by the estate of the late Mr. Rose and occupied by John Chester. The next building to fall a prey to the devouring element was Mr. Barney Service's barn which was soon levelled to the ground. A strong south-west wind was blowing and there was great danger of the many buildings in that direction including D. Weir's flax mill, but through the efforts of our citizens these were saved. The losses were as follows: Jas. Calvert, mill insured for \$6,000, loss \$7.000; Rose estate, insurance \$300, loss \$200; Barney mill insured for \$6,000, 1088 \$7,000; hose state, insurance \$300, loss \$200; Barney Service, insurance \$100. The chalice was presented to the Rev. Stephen Gladstone, son of the ex-Premier and rector of the Hawarden church, in recognition of the interest his father has taken in the Armenian outrages. In reply to the presentation address, the ex-Premier expressed his sympathy with the suffering of the Armenian Christians. The deputation took luncheon with Mr. Gladstone at Hawarden castle. The Prince of Wales and Lord Aberdeen were among those who telegraphed their congratulations to Mr. Gladstone.

Mr. Gladstone, in his reply to the deputation's address, said that it was not their duty to assume that all the allegations of outrages were true, but rather to await the result of the inquiry which had been instituted. However, he said, the published accounts pointed strongly to the conclusion that the outrages, sin and abominations committed in 1876 in Bulgaria had been repeated in 1894 in Armen-

xation at large, and a disgrace to man-kind.

Mr. Gladstone, continuing, said: "Don't let me be told that one nation has no au-thority over another. Every nation, aye, every human being, has authority in be-half of humanity and justice." He had been silent, he said, because he had full confidence that the government knew its duty. If the allegations made should prove true it was time that the execration of humanity should force itself upon the ears of the Sultan of Turkey and make him sensible of the madness of such a course as was being pursued.
