When buying poison for Potato Spraying always

specify

HANDY-KILLER

This poison is too well known to require any lengthy adver-
tising on our part and is acknowledged by the largest growers in
both New Brunswick and Maine to be one of the most efficient and
satisfactory poisons at present offered the grower. Ask your dealer
about it. He will be pleased to go into the matter with you.

Important!

Farmers buy a **WATSON TRIPLEX
SPRAYER** to protect your potato crop.
This sprayer will do it.

I also call your attention to the
JOHN DEERE RIDING CULTIVATOR
This cultivator was especially designed
for the Arcootook County trade, as it
works better than any other machine
when the plants get big.

If you want anything in our line
make your wants known.
