

REPULSE OF MOOR FORCE.

Fifteen Hundred Natives Dispersed by Spanish Artillery.

Moors Incensed at Capture of Sacred City of Riffs.

Spain May Make Declaration of War Against Morocco.

Melilla, Morocco, Oct. 4.—Fifteen hundred Moors appeared yesterday on the heights of Mount Miner-Lixa, but they were dispersed by the Spanish artillery. The Moors also made a feeble attack on the Spanish position at Nador, but were repulsed.

No further information has been received here of the outcome of the offensive movements undertaken on Saturday by General Marina, commander of the Spanish forces.

Natives coming into Melilla report that the capture by the Spaniards of Seluan, the Sacred City of the Riffs, has aroused the tribes in the hinterland who are flocking to join Harka, the Riff leader.

TROUBLE IN COUNCIL.

Madrid, Oct. 4.—The extension of the field operations in Africa to which the government is now committed by the despatches of reinforcements to General Marina, the Spanish commander, is further complicated by the possibility of a regular declaration of war between Morocco and Spain. While the Cortes is closed it becomes the duty of the Council of State to authorize unforeseen expenditures and rumors are afloat to-day of dissensions in the council. It is understood that the military party, the influence of which is growing, now insists that the military efforts and sacrifices in Africa must be compensated by the permanent occupation of the Moroccan coast between Cape Tres Forcas and Tetuan. King Alfonso is disposed to sympathize with the claims of the militarists, but an unexpected obstacle has arisen in the person of the liberal party, which has been opposing the campaign in Morocco as a military adventure having been joined by another liberal, creating a tie in the council.

P. L. SCRIVEN.

Honored by People of Herkimer Baptist Church.

On Friday night last, at the home of Mrs. J. W. Linklater, 291 Hunter street west, about eighty of the late members of the Herkimer Baptist Church met for the purpose of presenting Mr. P. L. Scriven, the church clerk, with a purse of gold and an illuminated address. The presentation was made by Mr. R. Jacques, and the text of the address was as follows: We, the assembled company, take this opportunity to express to you our deep appreciation of the many kindnesses shown us, and for the zealous way in which you have discharged your duties as clerk for the Herkimer Baptist Church for so many years. We fully appreciate your self-sacrifice in discharging the arduous duties incumbent upon this office and for the many hours of your valuable time spent so ungrudgingly for the welfare of this church and congregation. Feeling that as so many of us have been compelled to sever our connection with the church in which we have worshipped for so many years, on account of the principle involved, we could not let you pass by unnoticed. Therefore, we pray that you will accept this small token in recognition of our deep appreciation of your devotion in the interests of this church and also for the high esteem in which you are held by us. Though we part company as members of one church, we are glad that we are not part of our friendship. We admire your many ways and Christian courage and pray that God's richest blessing will always be upon you.

Mr. Scriven was taken completely by surprise, but responded feelingly. The remainder of the evening was taken up with songs, recitation, and speeches. Mr. Thomas Simpson acting as chairman. The ladies sang to the needs of all present by serving light refreshments.

FALSE HAIR BANNED

Women of Choir of One Fifth Avenue Church Must Forego It.

New York, Oct. 3.—The Reverend Percy Stickney Grant, rector of the Church of the Ascension at Fifth avenue and Tenth street, has won his fight against rats and puffs and all forms of artificial hair—at least in so far as the wearing of such feminine decorations by the members of the choir of his church is concerned.

The matter was first broached by the rector as much as a year ago in the form of a suggestion. It got to the desired ears all right, but found them deaf.

Last Friday when the choir was getting into its vestments for the Clyde Fitch funeral, Henry Warden, the choirmaster of the church, issued an order, prompted by the Reverend Mr. Grant. Whatever hair had not accrued in the ordinary course of events simply had to come off if the women wanted to stay in that choir.

Of course, all wanted to stay, so right then in the dressing-room hair began to fly and in a very few minutes every one of the fluffy heads was as sleek as the most straight laced could wish. It was hoped that the dreadful order would be rescinded, but this morning the order was repeated and Mr. Warden further said that it was a permanent order to be obeyed right along week after week.

PEARY'S PROOFS.

New York, Oct. 4.—The officers of the Peary Arctic Club held a meeting to-day to pass upon the proof of Commander Robert E. Peary, that he has obtained to show that Dr. Frederick Cook did not reach the Pole. The statement will be made public in a few days.

BATTLESHIPS FOR SALE.

Sebastopol, Oct. 4.—The Russian battleships Ekaterina II. and Tchesma have been stricken from the lists and will be broken up and sold.

Amusements

Charles Cherry and the original Maxine Elliott Theatre Company and production will be seen here next Wednesday and Thursday at the Grand in Clyde Fitch's latest comedy, "The Bachelor." Mr. Fitch has done many unique things, but his latest contribution to the stage is declared to be one of the nearest, daintiest works he has yet accomplished. "The Bachelor" had its first run in New York during its run last spring at the Maxine Elliott and later in the summer enjoyed much prosperity at the Whitney in Chicago. The story is that of a bachelor, who falls in love with his stenographer without the slightest intention of marrying her. His motives, however, are honest. Mr. Fitch manages to bring the lovers together in one of the amusing things of the play. While New Yorkers enjoyed the comedy situations immensely, much was said of the delineation of a Swedish character in the play. As usual, Mr. Fitch has lived up to his reputation by drawing one or more original characters.

A KNIGHT FOR A DAY.

The topical song success is said to be "Hang out the Front Door Key," which is introduced in the musical comedy "A Knight for a Day," which will be seen at the Grand next Friday and Saturday. It tells in comic phrase the reprisals that beset the husband and father of a family in his attempts to confine to himself the privileges of the metal talisman that opens domestic portals, long after some folk are abed. The husband of the song is a gay bird, given to nocturnal excursions. When out on a junket, his wont is to send a message to his family to hang out the front door key. The truant is cured of his excursions when his son and spouse conspire to apply his favorite request to their own advantage and his discomfort.

BENNETT'S THIS WEEK.

Aware of the strength of good musical attractions as drawing cards of the first magnet, Manager Appleton made no mistake in securing the six Musical Nosses as the chief feature for the Bennett bill this week. This is shown by the large advance sale, a tribute to the popularity of the act has aroused, and the fame of its reputation. This pleasing combination of beautiful scenery, costuming, posing, singing, dancing and music is described as the most pretentious musical act ever staged in vaudeville. The organization has been greatly strengthened since it appeared in musical comedy. At that time the critics of the American press were loud in their praise of it. When appearing with "The Earl and the Girl," the papers declared that the thrilling brass work of the Nosses was largely responsible for the success of the production. The bill will include James and Sadie Leonard and Richard Anderson in their laughable Roman travesty, "When Caesar Sees Her," Terry and Elmer, presenting "The Doctor and the Show Girl," and Anderson and Goines, one of the most entertaining black face teams in vaudeville; The Marlow Trio, a fine comedy horizontal bar act; Helen St. John and Winona Brydges in a pleasing comedy sketch and new moving pictures.

HARRY LAUDER SAILS.

London, Oct. 3.—Harry Lauder sailed for America yesterday on a tour beginning in New York. At a farewell luncheon before his departure he described his mission in life as follows: "A always make myself one of you. I like to be like you, them by the hand over the feet, an' say 'Am here ta mak' ye laugh an' ye'll just ha'e ta dae it.' It is the maist deefult thing in the world ta mak' a mon laugh. Men are by nature o' a sad temperament. Weemun often ha'e a lot ta dae wi' that."

ATTACKS GIRL.

Devilish Winds Its Tentacles Around Young Swimmer.

Los Angeles, Oct. 30.—Miss Mary Seymour is at her home here to-day recovering from the shock and injuries inflicted by a big devilfish, which nearly drowned her in the surf at Long Beach yesterday.

Miss Seymour, who is an expert swimmer, went out beyond the lifeline, when the octopus grasped her.

Screaming in horror she struck out for one of the pilings of the pier, while the monster's tentacles wound about her lower limbs. She managed to lay hold of the pile, and her shrieks brought lifeguards to her aid. When rescued she had swooned.

SHOT GIRL.

Chicago Lady Cashier Killed by Her Admirer, Who Suicided.

Chicago, Oct. 2.—Refusal of Miss Phoebe Armstrong, a cashier, 27 years old, to marry L. Miller, a stationary engineer, aged 50 years, terminated in a double tragedy in a boarding house on Rush street, early to-day. Miss Armstrong roomed on the first floor, and her admirer, who had been attentive for two years, on the second floor. Miss Armstrong slept with her window open, and it is said, by the police, that Miller entered the room by this means, at about 3 a. m. Miller is believed to have shot the girl as she slept and then ended his own life.

HAL AT BROCKVILLE.

The Brockville Recorder has the following about an old favorite son of Hamilton, Mr. Hal B. McGivern, M. P., of Ottawa:

Among the speakers at the meeting at Athens was Mr. Hal B. McGivern, M. P. for Ottawa city. It was Mr. McGivern's first public appearance in this riding, though he has been for some years a summer resident at Perth, and numbers among his friends many Brockville citizens. Mr. McGivern is not only one of the youngest members of the Canadian Parliament but is one of the ablest and most energetic. He is a young Canadian thoroughly imbued of the great opportunities of successful development that this country affords, and his address last night showed that he has a thorough grasp of public questions, as well as a splendid conception of their solution. The meeting was delighted to hear him, and it is to be hoped that he will in the future more frequently address the electors of this riding.

THE BEVERAGE FOR ALL WEATHERS.

"Epps'" Excellence **EPPS'S COCOA** A delicious food and drink in one.

LIVED ONLY A FEW HOURS.

Accident at Dundas Quarry Resulted in Ayers' Death.

Although the Injuries Were to a Leg Only.

Special Services in Town Churches—General News.

Dundas, Oct. 4.—(Special)—Death followed the accident to Albert Ayers at the Doolittle & Wilcox quarry on Saturday morning, as reported in Saturday evening's Times. Deceased was a blaster at the quarry. The accident was caused by what is called a "mud" blast. These blasts are for crumbling stones too large to be put in the crusher. They are made by placing dynamite on the stone, covering it with a few spades of mud and igniting with a short fuse. The overdrift then flying to a safe distance it is these mud blasts that cause the thundering detonations so often heard. The blasts placed deep in the rock for loosening up large quantities of the material make much less noise. In this case the victim had got about 150 yards away when he was struck by a fragment of the broken rock in the calf of the leg, nearly midway between the ankle and the knee joint. The missile was on a downward slope, and, tearing the calf of the leg badly, crushed the ankle, completely removing the shoe and a piece of the heel. Drs. Lachland and Rykert were soon in attendance and saw at once the dangerous condition of the victim. They had him removed to the Hamilton Hospital. The foot was amputated below the knee, but the shock was too much for the sufferer, who died in about an hour afterwards. The remains were taken to his home in Greensville on Saturday evening. The unfortunate man had only just recovered from an illness. He leaves a wife and three children, soon to become a mother again. He was a native of England and had been here two or three years. He leaves his family totally unprovided for. A life insurance of \$500 he carried in some society, it is said, become forfeited when he entered the quarry's services, owing to the dangerous nature of the service. Much sympathy is expressed for the family in Dundas and the vicinity of the quarry.

METHODIST ANNIVERSARY.

The 74th anniversary services of the Methodist Sunday school were begun yesterday, and will close this evening with a cantata, under the direction of Miss Lillian Kay and Miss F. Ella Peterson, in which nearly the whole school will take part. The anniversary sermons were preached yesterday, morning and evening, by Rev. A. C. Crews, B. A. Both sermons were interesting and forcible. In the afternoon a platform meeting was held in the Sunday school building, when appropriate addresses were given by Rev. Dr. Crews and the pastor, Rev. W. H. Harvey, B. A. There was, besides, special music by the choir and the annual presentation to members of the school of diplomas, seals, etc. A member of the school on first obtaining the necessary marks is presented with a beautiful diploma, to which is added annually, if the requisite number of marks be secured, a seal, each year of a different color. The presentation of these diplomas and seals is a matter of very deep interest to the school and the parents. At the evening service, Mr. Clark, who is expected to be the new choir leader, sang a solo very acceptably.

TOWN DOINGS.

The after church song service of the Y. M. C. A. last evening was held in the Unique Moving Picture Theatre, as repairs are being made in the Y. M. C. A. room where this service is held.

A meeting will be held in the Y. M. C. A. parlour on Friday evening to organize an advanced Bible class, the feature of which will be to discuss the religious dogmas of the day that engage the attention of Christian thinkers and students.

After several months' rest, owing to ill-health, Rev. S. H. Gray has resumed charge of Knox Church, and conducted the services yesterday. Needless to say, his parishioners are delighted to have him amongst them again, very much benefited in health by his vacation.

The morning service in the Baptist Church yesterday was of more than ordinary interest. After the morning discourse the pastor, Rev. Mr. Grant, took up the early history of the founding of the Dundas church. These portions of history relating to the church are introductory to the diamond jubilee to be celebrated later on. The church was opened in 1834 by Elder Cranford, who extended to Green Flint on the Minnesota border, to connect with the Port Arthur & Duluth, owned by the Canadian Northern, giving the company a short line from the Canadian head of the lake to Duluth.

Winnipeg, Man., Oct. 4.—The Canadian Northern Railway & Canada has acquired the Duluth & Northern Minnesota Railway, according to an announcement made here. It is said the road will be extended to Green Flint on the Minnesota border, to connect with the Port Arthur & Duluth, owned by the Canadian Northern, giving the company a short line from the Canadian head of the lake to Duluth.

Winnipeg, Man., Oct. 4.—The Canadian Northern Railway & Canada has acquired the Duluth & Northern Minnesota Railway, according to an announcement made here. AWAIT THE NEXT MOVE.

(Continued from Page 1.)

are taking steps to have the sanitary conditions remedied."

The Canada street houses, the small-pox hospital and other places requiring attention were visited yesterday afternoon by Mayor McLaughlin, Dr. McGillivray, Charles Peebles and Frank Quinn, of the Board of Health. The doctor expects to release two of the smallpox cases on Saturday.

City Engineer Macallum explained to-day that what the Sewers Committee had done in the matter of placing Building Inspector Anderson under his department in the matter of private sewer construction and connections was to revise an old by-law, which has been a dead letter for a long time, and which provides for the City Engineer having the say about the issuing of permits.

Chairman Allan, of the Board of Works, announced to-day that during the winter, a very complete map of the city would be secured for the guidance of the building inspector in issuing permits to prevent encroachments on city streets, so frequently complained about.

Engineer McFarlane's report of the amount of water pumped in September shows a decrease of three per cent. over the corresponding month a year ago. August showed an increase of eleven per cent., although the street water and lawn sprinkling was shut off for several days on account of the accident at the pump house. The amount of water pumped last month was 236,923,930 gallons, a decrease of 6,226,630.

William F. Williams, of New Bedford, Mass., will visit here to-morrow to inspect Hamilton's sewerage system in connection with improvements to be made to the system at Clark's Cove.

The following building permits were issued to-day: C. Kutzback, building, Lotridge north of Barton street, for W. Holden, \$800.

E. B. Patterson, brick house on Catherine street, between Picton and Simcoe streets, \$1,500.

H. J. Bush, brick house, on Queen street, between York and Barton streets, \$2,000.

This was a busy afternoon around the City Hall. The Fire and Water Committee met at 2 o'clock to arrange to have the sandcruiser removed from the filtering basins to behind the revetment wall. This was followed by a meeting of the special committee, revising the water-works by-law. At 4 o'clock the association committee will have a conference with Barton Township Council and two or three other sub-committees are meeting on matters of minor importance.

The principal of the Technical School will be at the institution between 7.30 and 9 o'clock to-night and Wednesday night for the registration of pupils for the night classes which open on October 11th.

IN A WELL.

Trying to Rescue Farmer Buried 60 Feet Underground.

New York, Oct. 4.—All night long layers of men were engaged in the work of sinking a new shaft alongside of the well at the bottom of which lies John Coffin, the young farmer who was buried by a cave-in while deepening the well on his father's farm, two miles north of Central Islip, L. I., yesterday forenoon.

Although there is a possibility that the cross beams at the bottom of the well may have formed an air chamber in which Coffin might live for a short time, there is not believed to be more than one chance in a thousand that he could keep alive until the men now at the well could reach the place where he must be. He is 60 feet from the surface and there is thirty feet of sand and clay on top of him.

Constable Schwartz, who has charge of the men at work, said to-day that it might be three or four days before Coffin could be reached, and that in his opinion there was not the slightest chance of finding him alive.

GOT ROAD.

Winnipeg, Man., Oct. 4.—The Canadian Northern Railway & Canada has acquired the Duluth & Northern Minnesota Railway, according to an announcement made here. It is said the road will be extended to Green Flint on the Minnesota border, to connect with the Port Arthur & Duluth, owned by the Canadian Northern, giving the company a short line from the Canadian head of the lake to Duluth.

FLOOD SUFFERERS.

Monterey, Mexico, Oct. 4.—The suffering growing out of the recent flood is very acute, and unless something is done thousands of people must starve. There is great need of corn, rice and beans for food, and blankets and clothing to prevent death from exposure. Second-hand clothing from the United States would be more acceptable.

'PHONE BONDS.

London, Oct. 4.—Barrington Bros. are inviting applications for \$10,000,000 worth of the 4½ per cent. thirty year first mortgage bonds of the New York Telephone Co. The price is 95. Bonds to the amount of \$10,000,000 are reserved from the London lot of the total issue of \$25,000,000.

MISS BEDDOE TO SING.

C. Percival Garratt will give an organ recital on or about Oct. 21, and is negotiating with the well-known contralto soloist, Miss Mabel Beddoe, daughter of the well-known tenor, Thomas Beddoe. No doubt her appearance with Mr. Garratt will be of great interest to the music-lovers of Hamilton, as this will be her first appearance here since completing her studies in Europe.

FLEW OVER THE WARSHIPS.

Wilbur Wright's Marvelous Flight at New York.

Was in the Air For Upwards of Half an Hour.

Three Hundred Feet Up in the Air—Successful Trip.

New York, Oct. 4.—Orville Wright to-day made a marvelous flight over the numberless craft in New York harbor and the North River. Starting at 9.56, the aviator headed into the wind and flew over ferry boats, yachts, steamers, and the other boats that fill the waters of New York harbor. Flying high to avoid the air currents from the smokestacks of the steamships, Mr. Wright went up the North River over the fleet of battleships and on past Grant's tomb, encircling the British cruiser Argyle, returning at faster speed with the wind. He came back over the water and landed at his starting point without difficulty. He had been gone for 33 minutes and 33 seconds, making one of the most perilous trips ever attempted. The distance of the flight was estimated at fifteen miles. "The machine responded in fine shape," said Mr. Wright, as he clambered through the network of wires of his machine, after he landed at the aerodrome on Governors' Island. "The motor worked fine. I started flying about 75 feet over the water, but kept climbing higher until I was about 200 to 300 feet high. The air currents sent up by the funnels of the ferryboats interfered somewhat, and I came down nearer the water."

ON THE WARSHIPS.

On the warships," continued Mr. Wright to the enthusiastic group of army officers and newspaper men that had awaited his return with keen anticipation. "The wind was blowing about ten miles an hour, and I had to head in a little towards the east, instead of pointing the machine straight up the river. This flight fulfils every condition of my contract," added
