UNITED STATES.

The Mormons.—It has been determined by the U. S. Government to send a force of about 2,500 men to "conquer and re-annex" Utah. It will probably be under command of Gen. Harney. The command will concentrate at Fort Leavenworth as soon as practicable, and will move westward as soon as the subsidence of the June floods renders the passage of the rivers practicable. The arrangements of the details of the movement is made by General Scott, who says, if he were young enough, he would prefer the service himself.

Election Riot at Washington and Loss of Life.—On the 1st inst., the Muncipal Election took place at Washington, which resulted in a riot, and the loss of several lives. Some fighting took place at the polls, when the Executive, at the request of the Mayor, ordered out the Marines to preserve order, who fired upon the mob, killing six persons and wounding sixteen, although it is believed there are others of the victims who have not been discovered. It is said that all the killed were innocent spectators of the riot. An indignation meeting was held on Tuesday evening, at which speeches, condemning the conduct of the Mayor were made. Much excitement prevailed.

Destructive Fire in Philadelphia.—*Philadelphia June 3, 1 a m.*—A destructive fire is now raging here, in the centre of the business portion of the city. On Smith and Chesnut streets, the Melodeon (a place of amusement) and the Arcade Buildings are on fire, and the flames are communicating to the valuable surrounding property.

Important from Utah— High handed Proceeding of Brigham Young.—*St Louis* June 2.—The Leavenworth *Herald* learns from Mr. Williams, who left Salt Lake on April 15, that there was great excitement in that place. Brigham Young was carrying things with a high hand, and driving the Gentiles away. Judge Stiles, the United States' Marshal and the Surveyor General with his family and a large number of emigrants, had been obliged to leave the territory.

An Iron Ship with Iron Rigging.—On Saturday last, the ship Santiago, captain Fowler, from Arica, South America, arrived at Baltimore, Maryland. The *Sun* says:—She is an iron clipper ship of a beautiful model, and, perhaps, some six hundred tons burthen. The rigging of the fore and main masts is of iron wire woven into ropes; the mizen mast is otherwise rigged. The compass, so as to prevent the attraction from the iron of the ship, is placed on the mizen top mast. The rigging is so arranged that the topsails can be reefed or furled by men on deck.

Mr. Ziegler, of the New York Medical College, was blown out of his room by an explosion, and everything smashed in the laboratory, where he was attempting to fill a large India rubber bag with oxygen gas. People in the neighborhood hearing the noise, thought an arriving steamer had fired a gun.

At New Orleans, the feeling in favor of General Wakler still runs high, and it was even expected that he would return to Nicaragua in the course of fifty or sixty days, with a full force.

The Mormon Population at Utah is estimated at one hundred thousand, and in the adjoining States and Territories at two hundred thousand more, all subject to the will of Brigham Young.

Railroad Depreciation.—We see it stated that a railroad in the Western part of the State—which road cost $800,000—has been sold for $500,000, or at the rate of about twelve and a half cents on the dollar. Several other roads have been sold at an equal rate of depreciation, showing very clearly what those are worth that are not actually up for sale. The State of Pennsylvania owns canals which cost forty or fifty millions, and at the last session of the Legislature they were offered for the one-seventh of the original cost; but nobody would have them at that rate. The truth of the matter is that railways are of the greatest benefit to the country they pass through—increasing the price of real estate, town and city lots; but as an investment, railway stock is about the worst property one can have.—*N. Y. Herald.*

No Rights that a White Man is Bound to Respect.—Judge Taney, in his recent opinion in the Dred Scott case, uttered the abominable sentiment that "they, i. e., the African race, had for more than a century been regarded as beings of an inferior order, and altogether unfit to associate with the white race, either in social or political relations; *and so far inferior, that they had no rights which the white man was bound to respect;* and that the negro might justly and lawfully be reduced to slavery for his benefit."

Judge Taney will be dishonorably remembered for this declaration longer than he will be honorably remembered for any act or sentiment of his life. It will stick to him and his memory like the shirt of Nessus.—*Bost. Trav.*

Loss of Money for the Army.—The Charleston *Courier* learns by an arrival at that port from India river, Florida, that about the 12th inst. Major Dashiel, paymaster in the army, in attempting to land from a schooner came near drowning and lost overboard $23,000 intended for the payment of the troops in Florida.

Prof. Mitchell, in his lecture at Cincinnati, on Comets, said that there was not the least probability that the comet that now agitates the public mind, would ever come in collision with the earth. There was more to be feared from a collision with a comet never yet discovered, than from any one whose existence was known to astronomers.

The journals overflow with lamentations or diatribes, leveled against the general neglect of peaceful, wholesome industry, in favor of hazardous and sterile speculations. Our capable Youth, we are daily and truthfully told, despise the plodding ways and patient gains of their laborious, frugal sires, and rush to the cities or the mines, to cards or corner-lots, in quest of sudden and enormous wealth. Hence food is scarce and dear, foreign debt accumulates, and the whole fabric of Trade and Business is threatened with collapse and subversion.

There is truth in this view, but it is not the whole truth. The very journals which most frequently and fluently rail against these popular aberrations are constantly pursuing a course which incites and aggravates them.

Take their treatment of the fillibuster Walker for example. This man has drawn away thousands of brave, adventurous youth from the pursuit of industry and the endearments of home to take part in [illegible] enterprise condemned by the laws alike of God and man—an enterprise which steals the holy names of Liberty and Progress to cover projects of rapacity, enslavement and spoliation—an enterprise which has carried agony, bereavement and ruin into thousands of households, and overspread a whole country, which it found smiling in abundance and happiness, with deserts, ruins and graves. Yet this man Walker has been enabled to work all this wretchedness and evil through the countenance accorded him by a large portion of the American Press. And now, when he returns a fugitive from the field of his devastations and his crimes, he is welcomed and honored like a Lafayette or a Washington. No Whitney, Fulton, Morse, or other inventer, who has enlarged the boundaries of human achievement, and made the common life nobler and happier evermore, ever received one half the attention and homage which the thoughtless multitude have been prepared and incited by the Press to render this desolator of a country and author of wholesale anguish and massacre. How can we hope to see peaceful industry duly followed and delighted in, while the Press impels the worship of such Juggernauts of impesture and homicide as fillibusterism and Walker.—*New York Tribune.*

COLONIAL.

Survey of the Miramichi Bar.—We are pleased to be enabled to state that the Government brig Gulnare, Captain Orlebar, which vessel has been for several years surveying the rivers, harbours, bays, &c., on the Gulf Shore, arrived here on Sunday last. The object of Captain Orlebar's visit to this port is to take soundings on the bar of the river, and give a report respecting the best method to be adopted to deepen the water and remove the obstructions that have accumulated there for years; a measure which will be highly advantageous and beneficial to the port.

The subject was brought under the notice of the British Government by the present Government of the Province, through Captain Orlebar, and no sooner was the request made known to the Admiralty than it was complied with.—*Miramichi Gleaner.*

Canadian Seat of Government.—The *Hamilton Banner* says the decision of the Imperial Government respecting the future capital of Canada is not expected for a couple of months to come. In the mean time, the Governor General is to visit Downing street and consult with her Majesty's Ministers.

A gentleman who is just returned from a somewhat extensive trip through Upper Canada, informs the Rochester *Democrat* that nothing can exceed the promise of the wheat crop there; and unless some evil, now unexpected, shall befall it, there will be an unusually bountiful harvest the present season.

We understand that Sir Alexander Bannerman, who several months ago was appointed Governor of Newfoundland, arrived at Halifax in the Cunard steamer on Thursday night, and soon after went on in the Merlin, accompanied by Lady Bannerman, who had been sojourning for a considerable time at the Waverley.—*Journal.*

We are requested to state that an additional Teacher of high qualifications, and strongly recommended by the Edinburgh Institute for the Deaf and Dumb, is shortly expected for the school in this City, now located at 124 Gottingen Street—where more boarders can be accommodated. Terms for boarding and tuition, according to the circumstances of the applicant.

The means of instruction will be supplied to the poorest, as well as to others. Applications to be addressed (post paid), to the Rev. J. C. Cochran, or to Andrew Mackinlay, Esq., Halifax.

Immense deposits of iron ore have been discovered in that part of Digby Neck, N. B., covered by the leases of the Union Mining Company. Mining operations are to be begun under the auspices of the company during the present season.

NEWS AND MISCELLANEOUS SCRAPS.

Benevolence of Converted Heathen.—Though the Sandwich Islanders are poor, and have just emerged from barbarism, their contributions last year to religious objects were $18,431, and the government expenditures for education were $43,000. The London Missionary Society, according to their last Report, received during the year $71,000 from the various mission stations—of which $10,000 were from the South Seas; from China, $2,000; India, $20,000; South Africa, $9000; Jamaica, $7000; Demarara and Berbice, $20,000. A considerable portion of these sums was given by European residents; but that which was contributed by the mission churches was, in proportion to their means, in advance of the liberality of the churches which have long had the gospel. It should rebuke the limited and parsimonious giving which is a stigma on the professed followers of Christ at home.

The Mormons.—A letter in the Washington *National Intelligencer* presents some very startling views of the power and designs of the Mormons. It is written by a gentleman who is said to have lately spent twelve months in the Salt Lake Valley, engaged in business connected with the transit of the mails through the Territory to and from the Pacific. He confirms fully the statements and apprehensions of Judge Drummond, and insists upon the necessity of taking some very prompt and decisive measures to protect the country from the dangers which threaten it from that quarter. He says the Mormons are 100,000 strong in Utah, besides having 200,000 spies and agents scattered throughout the country, and being in in close alliance with 300,000 Indians upon our Western border.

Perils of Hoops—*A Woman Burned*—The New York *Tribune* says:—Mary Hall, a pretty young girl residing at No. 163 Laurens street, while sitting by her fireside on Sunday evening, 26th ult., was nearly burned to death by her dress catching fire. She wore hoops of the most ample dimensions, and over them a dress of white muslin. A door opening suddenly inflated her baloon-like robe, and carried it against the grate, when it ignited and instantly wrapped her in flames. With much presence of mind she sprang into a bath and turned the faucet, but before the fire was extinguished her back and the lower part of her person were shockingly burned. Her friends conveyed her to the City Hospital, where but slight hopes are entertained of her recovery.

Letter from a well known Pysician.

Haverhill, Mass., June 1, 1856.

S. W. Fowle & Co.,—*Gentlemen:* While suffering from Dyspepsia some years since, and trying almost every thing for its removal without any benefit, I was accidentally led to make use of the "*Oxygenated Bitters,*" and after a short trial of them, found my health improving, and in time *my disease radically removed.* Since then I have used them in my practice, and generally with good success. I know of no medicine so well adapted to the cure of Dyspepsia, in many of its aggravated forms. I have seen the most stubborn cases, which had resisted almost all the preparations commonly used for Indigestion, yield as by magic upon the administration of a few doses of these Bitters. Such results have increased my confidence in their medicinal powers, and strengthened my convictions of their superiority over all other instrumentalities, in the treatment of the complaints for which they are recommended.

I would certainly advise those troubled with Dyspepsia to use the Bitters, and I am confident all who do so, will reap great benefit if there is nothing to contra-indicate their use.

Also, Drawing in Crayon and Pencil from copies and casts. Classes for this purpose will be opened in the Rooms above Mr. Strong's Store (Dawson's Building), and terms and hours of attendance made known on general application to Mrs. Irving.

Charlottetown, June 17, 1857.

MAID OF ERIN.—NOTICE.

THE WELL KNOWN AND FAVORITE STEAMER Maid of Erin, Captain JOHN BELMORE, having been thoroughly overhauled and put in a complete state of repairs, is ready to resume her previous route, viz:—Leaving St. John for Digby and Annapolis every Monday morning at 8 o'clock—returning same evening. Leaving St. John for Dorchester, Hillsborough and the Bend every Tuesday and Friday evening tide, and returning, leaves the Bend next high water.

Shippers for Dorchester and Hillsboro' will please take notice that Freight for those places is payable in advance, and that the owners of the Steamer do not hold themselves responsible for any Goods after landing them on the respective shores.

Passengers are requested to look after their own luggage, as the owners will not be responsible for anything unless given in charge to the proper officer and signed for. For particulars apply to.

JOHN WALKER, Ward Street.

St. John, May 6, 1857.

LAW STUDENT.

THE UNDERSIGNED WILL BE prepared to receive in his office at the expiration of the ensuing Trinity Term of the Supreme Court, a young gentleman desirous of studying the law. No applicant is expected whose education and habits do not render him in all respects competent for the study of the profession.

EDWARD PALMER.

June 10, 1857. 3i

PERRY DAVIS' VEGETABLE PAIN KILLER,

STILL TRIUMPHANT!!

AND AFTER A THOROUGH trial by innumerable living witnesses has proved itself to be *THE MEDICINE OF THE AGE.* Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued steadily to advance in the estimation of the world as the best family medicine ever introduced. As an internal and external remedy it is truly a source of *JOY TO THE WORLD.*

One positive proof of its efficacy is, that the sales have constantly increased, and upon its own merits, as the proprietors have not resorted to advertising to gain for it the rank it now holds among the great number of preparations of the present time. The effect of the Pain Killer upon the patient, when taken internally in cases of Colds, Coughs, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medicinal preparations that can never be forgotten. Its success in removing pains, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. The magical effects of the Pain Killer when taken or used according to directions are certain. You have only to be sure that you buy the genuine article and adhere to the directions in its use, and you will admit its wonderful medicinal properties.

The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words Davis' Vegetable Pain Killer blown in the glass; and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others can be relied upon as genuine. Prices of bottles 12 1-2 cents, 25 cents, 50 cents, and $1 respectively.

Valuable Medicine.—We presume no medical preparation ever offered to the public has been more thoroughly tested than PERRY DAVIS' PAIN KILLER. Thousands of persons, were they called upon to do so, would cheerfully testify that they have used it for various ills, with the most satisfactory success. It is within our own knowledge, that an immense amount of suffering has been relieved by it. Its proprietors, Messrs. Perry Davis & Son, save no pains or expense in order to satisfy the public. Being strictly honorable men, they observe the utmost uniformity in the manufacture of their celebrated Pain Killer. The materials of which it is composed are carefully selected—none but the best quality being used. By these means the high reputation which the Pain Killer has long since acquired, is at all times triumphantly sustained. In view of these facts, we are by no means surprised to learn that Messrs. Davis & Son's sales are constantly and rapidly increasing.—While we congratulate our friends generally that so valuable a preparation as the Pain Killer is placed within their reach, we must be permitted to rejoice at the well merited success of its liberal and enterprising proprietor,—*Providence General Advertiser.*

Sold by WILLIAM R. WATSON, and dealers generally.

London House—Established 1820.

NEW GOODS! SPRING 1857.

EX "ISABEL" FROM LIVERPOOL, "Europa" from LONDON, and "Galena" from BOSTON, the subscribers have received 465 Packages Merchandise, and 12 tons Bar Iron, which, with their stock on hand, they offer for sale at their usual low prices for prompt payment. June 17. JAMES MORRIS.

THIS DAY!

Extensive Sale of Real Estate, &c.

POSITIVE AND UNLIMITED.

TO BE SOLD AT PUBLIC AUCTION, on the Premises, in Summerside Village, Bedeque, Prince Edward Island, by WILLIAM DODD, on WEDNESDAY, the 17th day of JUNE next, the whole of the Subscriber's

REAL ESTATE, HOUSES, &C.,

in this Island, consisting in some FIFTY VILLAGE LOTS or more, in said Village, including 12 Water Lots, secured with a good Breast Work of considerable expense. Opposite some of these lots is the best location in the Village for a wharf. On part of the Village Lots, near the Government wharf, stands Two DWELLING HOUSES, one Store and Warehouse, and one Carriage Factory, which will be sold with the Lots on which they stand.

Immediately adjoining the Village is a FARM of about Eighty acres, 50 of which are in a good state of cultivation, and the balance well covered with a splendid growth of wood. There are also a large BARN, a small Farm HOUSE, Outhouses, and a large Spring of superior water on the premises. This Farm being situate on the North side of Bedeque Bay, and gradually descending South to said Village, renders its location pleasant; and as it commands a full view of the Straits with New Brunswick in the distance, makes it a very desirable site for residences, consequently it will be sold in 5 acre Lots, or in the whole, as may best suit purchasers—the whole of this Farm, however, will be shortly required to supply the growth of the Village, in Village and fancy Building Lots. This property, in point of beauty, pleasure, convenience and profit, is second to none in the length and breadth of the Island. A more healthy place cannot be found on the globe—old people have often been known to leave the Island to go to the United States to die. Much might be said of the many advantages for fishing, shipping, general business, &c., of Summerside, and of its proximity to Shediac, terminus of the Railroad. This Village has grown within the last 3 or 4 years from nothing into quite a town.

Also—At the same time and place will be sold 300 Acres of LAND on Lot 8; 100 acres on Lot 3; 100 acres on Lot 15, as also an interest in other Lands at Fifteen Point.

Also—The freehold of Two FARMS on Lot 25 (John Picket's and Archibald Waugh's), paying an annual Rent of £9 14s o'y. The whole of this property will be sold in Lots, Farms and portions to suit purchasers, and on liberal terms. Good titles will be given. For further particulars, apply to Messrs. Beer & Son, Charlottetown, or to P. Baker, Esq., Bedeque, with whom plans of said Village Property can be seen. J. WEATHERBY.

April 29, 1857.

This sale will commence at 11 a. m., and will (unless all is sold on the 17th) continue on the 18th.

WILLIAM DODD, Auctioneer.

N. B.—Twenty per cent. of the Purchase money on the day of sale. Two-thirds of the whole amount may remain on the Property one or two years. A longer credit may be given to large Purchasers.

CARRIAGES AT AUCTION.

THE SUBSCRIBER INTENDS selling at Auction, on FRIDAY, the Third day of JULY next, at 11 o'clock, all his Stock of Carriages, on hand, consisting of—

5 superior GIGS, cushioned complete,
11 WAGONS, double and single seated, mostly of superior make,
9 FLYS, very good articles,

twenty-five in all—excepting two or three, they are all new, and fitted with steel springs and iron axles, complete. As the subscriber intends removing his establishment to another part of the country, they will be sold without reserve. Having been made partly by the undersigned, and partly by one of the best workmen in the country, he can safely recommend them to purchasers. Persons at a distance in want of Carriages will do well to attend.

A credit of Five months will be given on good Joint Notes of Hand. Threshing Machines on hand.

Brackley Point, June 4. PETER GREGOR.

Charlottetown, May 20, 1857 3m

Letter from the Rev. DR. CLAY to the Editor of the Christian Visitor.

Carleton, St. John, N. B., Nov. 11, 1856.

Messrs. Editor: Being desirous that the production of our own citizens should be patronized, rather than those of foreigners, I take the liberty of stating that the people of our Provinces need not use Fahnstock's, Mac Dean's, or any other "Vermifuge," while they can get Fellows' Worm Lozenges, prepared in our own city. I was induced to try Fellows' Lozenges, having had a number of children under my care whose stomachs were so irritable the ordinary medicines could not be retained a moment, and the success that followed their use was so complete, that I can recommend them as one of the most pleasant and safe medicines that can be administered!

EDWIN CLAY, M. D.

Fellows' Worm Lozenges are sold by all Apothecaries.
