Mr. Nichols' Mission.

Among those who landed here from the S. S. Prospero, on her last trip from St. John's, was our old and much esteemed friend, Professor Nichols, although his hair is somewhat grayer, Father Time has dealt lightly with him; his eye and ear are as keen as of old, and there is some elasticity about his step as when we used to see him mounting the steps of the Old Athenaeum, in which building the School of Art was situated. We soon learnt that the Professor was here at the invitation of the Government to instruct the teachers of the different schools in the elementary stages of a new System of Drawing, other than that of the old uninteresting and unpractical method of Freehand. On Friday morning, at the Methodist High School, we had the pleasure of renewing our acquaintance with the Professor by an introduction from the chairman, the Rev. A. G. Bayley, and for an hour we listened with great pleasure to the very interesting account of his visit to London three years ago, as the Colony's representative of the Art Convention held there. In his opinion, the method of Freehand Drawing had not given the satisfactory results that were expected of it, and as a consequence many of our young men who have gone to seek a living among the artists of other countries have found

that their lack of knowledge in drawing has been one of the most serious drawbacks to them when chances of advancement were open to them. The method he was about to introduce would be found so interesting to teachers and pupils as to be readily taken up, and he felt sure that excellent results would follow. His illustrations of the new method by blackboard drawing proved so interesting to those—outside the teachers—who were present at the opening, that they availed of the privilege of being present at all the subsequent sessions. On Monday he visited the schools and addressed the children on the great importance of drawing. On Monday evening the teachers held a social in the Church of England School in honour of the Professor, at which were present also several townsmen who had been attending the sessions of the previous week. After tea quite an interesting programme was got through consisting of songs, readings, recitations and speeches. The Professor expressed his great pleasure that the evening's entertainment had afforded him, and said he would take away with him very pleasant impressions of his visit to Bonavista and of the intense interest and enthusiasm evidenced by teachers and others in the great and important matter in which he was specially concerned. He took passage by the Dundee on Tuesday morning for Greenspond.

Big Cable Boat Here.

The cable boat, Mackey-Bennett, Capt. Landry, arrived here yesterday from Halifax via Cuckhold's Cove, arriving at the Cove at 6 a.m. yesterday. The ship made the run down from Halifax in 3 days and had some stormy weather. She remained in Cuckhold's Cove all day repairing the Commercial Cable Co.'s cable, which had become broken. It is thought, by icebergs grounding in there. She left here this forenoon for Sydney and afterwards will repair the Government cable between Port aux Basques and Canso. Supt. Stott went on the ship to look after the work.

Child Badly Burned.

Little Maud Hamilton, the 4½ year old daughter of Mr. James Hamilton, Barter's Hill, came near being burned to death at 9.30 last night. While Maud's mother had gone to the tank for a bucket of water the little one found some matches, and in lighting them on the stove set fire to her clothing. When the mother returned she was horrified to see the child enveloped in flames. She hastily put out the fire and pulled off the clothing, but the little one had received dreadful injuries about the arms, abdomen and face. Dr. Tait was called and did everything in his power to relieve the child's sufferings.

SUFFERING FROM CANCER—Yesterday William Knox was taken to the General Hospital suffering from cancer in the hip, and will have an operation performed to have it cut out.

A Clean Match.

Olson Wins the Wrestling Bout—Berry Proves a Clever Sport.

Without exception the best wrestling match ever witnessed in St. John's was that which took place at the Prince's Rink last night. Both Olson and Berry "played the game" like men and gave a splendid exhibition of scientific wrestling. The work of both men was clean and clever, and they had not to be warned even once.

Berry is the middleweight champion of England, and in facing him last night Olson knew that his work was cut out for him. He was in good condition, however, and it was not long before he secured the first victory, an arm roll and body hold and brought Bob Berry to the mat amidst wild applause from his friends. Time, 41 mins. 36 secs.

The contest now grew more exciting than ever. Berry warmed up to his business and getting a chance on Olson with a "swivel" on arm and half Nelson" laid him on his little bed of "cocoa mat" in 17 mins. and 11 seconds. The rafter shook with applause, on sportsmen showing that they are ready to embrace the stranger when he can deliver the "goods". Berry did it fine that time!

We tender our hearty congratulations to Olson who more than ever showed himself to be an all round good man as was evidenced by the applause of the 2,000 spectators who went there to witness the bout.

The wrestlers were introduced by Mr. Reg. Dowden. The officials were: Mr. Harwell, of the City, referee; P. Goodland, timekeeper; G. Marshall and J. Kenna, seconds for Olson; M. Power, second for Berry. Weights were: Olson, 157 lbs.; Berry, 160 lbs. There is a dispute as to whether Olson can take up the title of Middleweight Champion of England alleged to have been lost by Berry, in view of the fact that the conditions did not contain any reference thereto.

A MIRACULOUS ESCAPE.

Yesterday afternoon while a little named Whitten, son of Mr. D. Whitten, of the South Side, aged 3 years, was playing on the third floor of Withycombe's trunk factory, he slipped and fell through the open hatchway, alighting 15 feet below in an express which was there. The boy fell on his hands and feet, and strange to say escaped with only a couple of slight scratches. Those on the loft expected to find him lifeless on coming down to render aid, but instead he was O.K. except that he suffered from shock. He was about again after a short time.

WHOLESALE DEALERS SUMMONED.—Friday last a member of the police force found a wholesale liquor dealer with his store open after 6 o'clock in the evening and delivering liquor which was taken to customers by a messenger. A summons has been issued and the proprietor of the establishment will come before the court during the week.

A meeting of the friends and fellow-townsmen of the Bishop-elect of St. George's, will be held in the Armoury of the T. A. Hall, this TUESDAY EVENING, the 30th inst., at nine o'clock, for the purpose of arranging for a suitable presentation to His Lordship in honor of his elevation to the Episcopacy. It is hoped as many as possible will attend.—may29,21

SHOULD BE PROSECUTED.—Last week the sanitary staff cleared up a lot of rubbish which had been dumped near the west end of the South Side fire hall and the place was made clean and wholesome; but this morning the residents of the place were disgusted to find a lot of night soil and other material thrown there, the stench from which is unbearable. The Council should take proceedings against the guilty party immediately. Our informant will be glad to give the name of the delinquent.

Another Sealing Ship

From Hon. W. C. Job who arrived here by the Florizel from England yesterday we learn that his firm will add another new sealing ship to the fleet already possessed by them.

Messrs. Swann, Hunter & Co., of Newcastle, have already started work on her, and she will be after the style of the latest modern sealing steamers and capable of carrying 2,700 tons dead weight. She will be built primarily to carry freight but will have accommodation for several passengers. The ship will be delivered to her owners by Dec. 31st.

Indigestion & Dyspepsia

In all its Forms can be Cured.

It is quite a daily occurrence to hear persons say: "Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything, I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable torment."

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at

DR. F. STAFFORD & SON,
Duckworth Street and Theatre Hill.

Small size, 25 cents; postage, 5c. extra; large size, 50 cents; postage, 10c. extra. Mail orders must be accompanied by remittance.—oct29,1m.

Leaves June 10th.

The new Red Cross liner Stephano will shortly make her trial trip on the other side. It is likely that she will leave Glasgow on Saturday week, June 10th. It is thought that the ship will at least make 13 knots on her trial trip. Hon. E. R. Bowring, who has been in England for some months, will likely come out on the ship, as well as the crew of the Aurora.

GAVE UNION WAGES.—In connection with our item of Saturday referring to the thimblets and the union wages given by Mr. Clouston, it is only fair to state that Mr. John Sheehan also gave the union rate of wages from the start of the strike.

IMPORTING HELMETS.—The Newfoundland Highlanders are, we understand, importing helmets in which they will appear for the first time on Coronation Day in the Joint parade. With the kilts these should add much to the appearance of the corps when on parade.

Vssels From Labrador

The brigtn. Clementine, Capt. Tucker, arrived here at 6 p.m. yesterday after a run of 30 days from Barbadoes laden with molasses to A. Goodridge & Sons. The ship had variable but no exceptionally stormy weather on the run up.

The schr. Water Witch, Capt. Moore, also arrived here from Barbadoes at 7 p.m. yesterday after a run of 22 days, molasses laden to Steer Bros. She had fine weather all the way to port.

Whales Very Scarce.

Up to date this year the whaling voyage has been anything but successful, and local steamers plying the coasts north and west report the big fish to be very scarce. The Hump has not taken a fish now for nearly a fortnight and has only six to her credit to date, while the other 6 steamers have only an average of one fish to date.

Good Business Doing.

Yesterday and last night there was an appreciable increase in business along water street, and much cash was taken over the counters. During the past few days many men have come in from Sydney, Grand Falls, Bell Island and other places to go to the fishery and all are well supplied with money which they freely spent for requisites which are indispensable to the them at their work and for provisions, clothing, etc.
