## Get after the Hens Make 'Em Lay

Feed them right, provide grit, oyster shell, green food, ground bone and fresh water—have these before them at all times. Scatter their feed in straw, leaves or other litter and make them work for their living. Keep the pen free from draughts and clean it out often. Feed them oats, buckwheat and corn, but first of all—to force hens to increase egg production they must be healthy, frisky and in prime condition and too—considerable can be done in aiding them to digest and assimilate the food.

## Caughell's Poultry Powder

one and a half lb. package 25c.

Contains the best drugs known for these purposes, salt-petre, cayenne pepper, sulphur, gentian, copperas and—but the rest is our trade secret. The mixture complete fairly works wonder—we've sold it for years—and its sale now amounts to hundreds of packages per year. Full directions for feeding and caring for poultry are given on the back of the packages.
