MINERS MAY STRIKE

Would involve 140,000 if One Is Declared.

A Hazelton, Pa., dispatch says: If the anthracite coal operators refuse to grant the demands of the united mine workers as embodied in the reports of the state and resolutions committee as presented and adopted at today's convention within ten days of date, then by Sept. 1, a strike involving 140,000 miners of whom 10,000 are members of the mine workers' organization, will be declared. The convention today appealed to the national executive board which headquarters at Indianapolis to order a strike if no satisfactory amicable arrangement regarding wages, the powder question, and other grievances is reached. President Mitchell said undoubtedly be favorably acted upon by the board, which meets at Indianapolis on Sept. 6, if existing conditions of which the miners complain are not remedied in the time allowed by the convention.

WAGES AND SALARY.

"Pa."
"Wall."
"What is the difference between wages and salary?"
"If a man is working for \$5 a day running a machine of some kind, or laying brick or doing something else that makes a white collar and cuffs uncomfortable, he gets wages. Do you understand what I mean?"
"Yes, sir."

"But if he sits at a desk and uses a pen and gets \$11 a week and has soft hands, he receives salary. Now do you see the difference?"—Chicago Times-Herald.

NOTES.

About three or four hundred girls, representing the garment workers' trade, will take part in the Labor Day procession at Detroit. The long line of carriages in which they ride never fails to attract attention.

The employees of the Hamilton quarry have struck because the new time-keeper, Wm. Matheson, is not a member of the Civic Employees' Union.
