LOCAL MARKET.

London, Saturday, April 11. London, Saturday, April II.

The rain this morning, no doubt, prevented many of the farmers from attending the market. However, there was a fairly large turnout, aithough it was considerably below the usual attendance at an Easter market. There were no new features, the offerings consisting of the usual lines of farm produce. Sales were as a rule made without any barerting

DOMINION OIL CO., Limited. Chartered Under the Laws of Ontario, and Operating Western Ont. Oil Fields. This company has acquired since February 1,085 acres additional of proven oil lands, including 500 at Thamesville, 360 in the Wheatley district and 225 more in the Raleigh oil field, and is now drilling on the Thamesville and Raleigh properties, adjoining three new good wells just brought in. These additions to the company's holdings give it a total

Increase of 70 Per Cent in Assets. It has now two drilling rigs running on its properties, and recently purchased and installed the finest drilling equipment in Western Ontario, which is now running day and night on the Thamesville property. This company has paid dividends at the rate of 12 per cent per annum on par continuously since its inception, thus netting the investor 24 per cent return; and in view of its rapid progress and substantial increase in assets, it has been decided to advance the price of stock to 60 cents per share, a very conservative advance, being an

Increase of Only 20 Per Cent in Price.

Mr. D. C. Woodward, son of the president, recently discovered some new petroleum deposits of large extent in Alberta, and the president starts to acquire these properties for the Dominion Oil Company in the course of a few days. As ordinary coal oil retails at 38c a gallon in that country, owing to the heavy mport duties and freight tariffs, and as there is a great demand for illuminating oil in the Northwest, through the newness of the country, there being practically no electric light or gasworks, this company will find a ready market for its product at large profits by the installation of a refinery which the company purposes erecting after it has developed the production. From the analysis male of this product by President Woodward, this oil is proved to be of great valuealso as a lubricant, to such an extent that the farmers have been using it for ibricating their bounceting machinery, and wagens.
