NEW COMPANY A GOING CONCERN.

Maple Leaf Milling Company, Limited, is a

w Company which has taken over the whole undertaking as a going concern of the Maple Leaf Flour Mills Company, Limited, including therein that of the Hedley Shaw Milling Company, Limited. The Company has mills at Kenora, Thorold, St. Catharines, Welland, and Port Colborne (the last named in course of construction) in the Province of Ontario, and at Brandon in the Province of Manitoba. When the construction at present under way at Port Colborne is completed, the Company will have a total milling capacity of 12,800 barrels per day. The company has at present thirty-five elevators situated throughout the Western Wheat Belt and fifteen additional ones are being added at the present time. A million-bushel elevator is being constructed next to the new mill at Port Colborne. The Company has also warehouses and offices at

MARKET FOR OUTPUT.

The rapid growth of the business of the two companies taken over, has long made apparent the necessity of additional milling capacity. Further, the tremendous increase in the total output from the Western Wheat Belt makes it absolutely necessary to have more mills in Canada to handle it. Last year this output amounted to about 125,000,000 bushels, and experienced men estimate that by the end of the year 1920, Canada will be producing fully 500,000,000 bushels annually. A great proportion of this will of necessity find its way into Canadian mills. Larger demands are bound to come as the population of the country increases, and the inquiry for the Canadian product, both from Great Britain and from the foreign markets of the world, will increase. The chain of mills now controlled by the new Company will enable it to secure its full share of the trade of every section of Canada, as well as of Great Britain and foreign countries.

SECURITY AND EARNING POWER: The assets of the old companies taken over as above stand in excess of all liabilities and without any allowance for goodwill, trademarks, etc., at \$3,770,524 11, this amount being ascertained on the basis of an appraisal by the Canadian-American Appraisal Company, Limited, as of March 17th. 1910, of the capital assets taken over, and the certificate of Messrs. Price, Waterhouse & Co., as of February 28th, 1910, as to current assets and current liabilities, with a liberal allowance for all contingencies. There has also been placed in the Treasury \$1,000,000 of additional cash, which, besides permitting of the comletion of a 6,000-barrel mill, and a million-bushel elevator and storage warehouse at Port Colborne, and o fifteen additional elevators in the West, will provide the new Company with further working capital. As per certificate of Messrs. Price, Waterhouse & Co., of London, quoted below, the earnings of the old company on And from August 21st, 1909, to February 28th, 1910, to Being for the latter period at a rate equal to over 13 per cent on the preferred stock of the Company.

LOCATION OF MILLS AND MANAGEMENT. Mr. Hedley Shaw and Mr. D. C. Cameron, under whose direction the properties of the old companies have been developed, will retain large interests in and be actively identified with the new Company, Mr. Hedley Shaw as Managing Director.

The location of the new 6,000-barrel mill at Port Colborne is without exception the best in Canada A complete report on the advantages of the Port Colborne site, prepared by Mr. Hedley Shaw, will be found in the prospectus.
