

MUNITION-MAKING IN CANADA IS NEAR END, SAYS ROGERS

Britain Will Not Require Many More Shells.

GOVERNMENT HAS WORD

Acting Premier Promises Regulation of Food Prices in Country.

OTTAWA, Oct. 6.—There will be no conscription in Canada, but a system of registration to distinguish slackers from workers will be adopted by the Government, according to Hon. Robert Rogers, acting prime minister, in a reply to the executive council of the Dominion Trades and Labor Congress which waited upon him today and presented the resolution passed by the recent congress in Toronto.

As to the high cost of living, the department urged that the Government take action, and after several plans had been submitted by the labor men the latter gave approval of the scheme whereby the same method that had been adopted to regulate production of munitions be adopted to control food prices.

An interesting statement was made by Hon. Mr. Rogers during discussion on nationalization of shell shops. He said that it was too late for the Government to control munition plants as word had been received from the British Government that not many more shells would be required. Contracts in Canada would be extended to 1917, and it was doubtful if more would be let. The Russian Government might award contracts.

The delegation consisted of President J. C. Walters, Secretary H. H.

DON'T LOSE YOUR HAIR

Touch spots of dandruff and itching with Cuticura Ointment and follow with hot shampoos of Cuticura Soap. Absolutely nothing better. You may try them before you buy them.

Sample Each Free by Mail With 32-p. Skin Book. Address postcard, "Cuticura, Dept. 3M, Boston, U. S. A." Sold throughout the world.

SAYS BODY IS A POISON FACTORY

Urges everyone to drink glass of hot water before breakfast.

Just as coal, when it burns, leaves behind a certain amount of incalculable material in the form of ash, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infect the bowels. From this mass of left-over waste, toxins and poisons like poisons are formed and sucked into the blood. Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and free.

Those who are subject to sick headache, colds, biliousness, constipation, other ills which wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter-pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, but the pores of the bowels do. So wash out the bowels. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate cleanses, sweetens, and freshens the stomach, liver, kidneys and bowels.

BE PRETTY! TURN GREY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

About everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or grey. Years ago the only way to get this mixture was to find it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay grey! Try it! No one can possibly tell that you have used it, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, over each grey strand at a time; by morning the grey hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

200 FINANCIERS PLEAD FOR CONVICTED MAN

Ask That Execution Set For Today Be Stayed.

NEW YORK, Oct. 6.—Two hundred bankers and financiers, attending a convention here of an industrial finance corporation tonight sent a telegram to Governor Whitman asking him to stay the execution of Thomas Bambrick set for tomorrow morning. The action was taken after Thomas Mott Osborn, warden of Sing Sing prison, who was one of the speakers at the convention had declared it to be his conviction that Bambrick was innocent.

Osborne voiced his opposition to capital punishment during that it did not prevent murder.

ARE PAPER MAKERS OF THE DOMINION IN A CONSPIRACY?

Attempt to Tighten Strangle-Hold in Newspapers.

SHIP PRODUCT TO STATES

Conditions Revealed at Special Meeting of the Canadian Press Association.

TORONTO, Oct. 6.—A special emergency meeting of members of the Canadian Press Association was held here today for the purpose of discussing the unprecedented situation that has arisen in connection with the cost of the white paper known in the publishing trade as newsprint, which is used for the production of newspapers. The gathering was one of the largest in the history of the Canadian Press, practically all the leading newspapers from the Atlantic to the Pacific being represented.

It has been known for some time that a somewhat serious situation in connection with paper production was developing, largely because there has been a sharp increase in the cost of the paper, and the paper mills, according to their statement, have made no adequate provision for meeting this greatly increased demand. Reserve stocks have been running low and prices have been advancing for some time.

More Serious Than Expected. When the Canadian publishers came together today they discovered that the situation was even more serious than they had been led to believe. It was brought out that in recent months few, if any, Canadian publishers have been able to get a contract from any paper mill to extend after the 31st of December, 1916. In former days the paper mills were generally glad to sell their output a long way in advance and contracts for two, three, or five years, or even a longer period, were in marked contrast to their present policy.

One result of their recent tactics is that a large proportion of newspapers, perhaps seventy-five per cent of the total number, are going to be in the market for newsprint paper at the end of this year. The opinion was expressed that it was the deliberate intention of the paper-makers to create an artificial situation, under which prices could be forced beyond a figure for which there would be any valid justification.

Prices Away Up. Publishers reported prices they were asked to pay for current supply. In many cases these ranged from 40 to 50 per cent in advance of prices prevailing a year or two ago.

That such a development brings the newspapers of the country face to face with an unprecedented crisis will be apparent to anyone who knows what a large proportion of the cost of production of a newspaper is represented by the newsprint.

One publisher reported that he had been unable to get a quotation for a supply of paper from any Canadian mills, and he had applied to them all, within his radius of supply.

The situation to Canadians is all the more exasperating because of the fact that the Canadian consumption of newsprint is only a small fraction, probably about one-sixth, of the total Canadian production.

In the United States it is understood the paper manufacturers are able to urge that they have actually not sufficient paper to meet the demand. It was pointed out that an argument could scarcely be advanced in Canada where the production is something like 1,500 tons a day, while only 50 tons are used in this country, the rest being exported to the United States.

Under such conditions it was felt that Canadian publishers ought not to be exploited by the manufacturers beyond a point that could be defended on sound economic argument. It was reported that paper makers argued that their costs of production were increasing. This was admitted as probably true, although the amount of the increase claimed by the manufacturers was questioned, there being testimony to the effect that in sections of the pulp country at least farmers were having difficulty in disposing of their pulpwood even at as good prices as prevailed a few years ago. It was recognized that the really dangerous elements in the situation are the shortage in the United States and the apparent unity of purpose of the paper manufacturers and determination to insist upon radically higher prices.

NINETEEN NEUTRAL BOATS SUNK BY FOE'S MINES

LONDON, Oct. 6.—Further evidence of the heavy toll neutral shipping is paying in the west end war is contained in a statement given out today by the British Government, showing that nineteen such vessels have been sunk "by enemy mines" between June 1 and September 24. During the same period the statement, sixteen enemy allied vessels also were sunk.

MORE STEAMERS SUNK. LONDON, Oct. 6.—Three more steamships have been sunk, one British and two flying neutral flags, according to an announcement made here today. They were the British steamship Isle of Hastings of 1,375 tons, the Greek steamer Samos of 1,248 tons, and the Norwegian steamship Ceder of 1,123 tons.

COMING OF CHRIST MAKES MILLENNIUM, SUNDAY'S DOCTRINE

Evangelist Handles Subject Without Gloves.

PICTURES GLORY SCENE

Also Scene of Those Left Behind in Tribulation.

[Special to The Advertiser.]

DETROIT, Oct. 6.—The subject which has been responsible for more theological difference of opinion than any one part of the Bible—the coming of Christ—was the topic of evangelist Billy Sunday's sermon, both afternoon and evening Friday, and he handled the subject exhaustively, forcefully, and "without gloves."

"The only way to decide questions of that sort is to take the word of the Bible for them," said the evangelist. "Different theories or interpretations won't do you any good. The 'big bugs' are mistaken as often as the little ones are."

In glowing language that had audience spellbound, Sunday pictured glories attendant upon Christ's coming to the faithful, and in terrible terms that painted agony and despair, earth he pictured the plight of those left to struggle through the great tribulation, on earth, after the elect ones had departed with their Saviour.

When Sunday issued his call to the trail, hundreds were crying, and 87 persons answered the invitation at the afternoon service. All but five of the trail-bitters were women and girls.

His text was, "Then we which are alive and remain shall be caught up together with them in the clouds, to meet the Lord in the air; and shall ever be with the Lord. Wherefore comfort one another with these words." (I. Thessalonians, IV., 17-18.)

Church Unconcerned. "We are not told when Jesus will come, but we are told his coming is sure, and we are charged to watch for it. Yet the church today shows as little concern about his coming again as his disciples did about his going away. The second coming of Christ is an emphatic doctrine of the New Testament. It is mentioned and referred to more than 350 times, and yet the majority of church members never heard a sermon on the subject. Knowing that the bank examiner may drop in at any moment, keeps many a cashier from being careless. A great many say, 'I believe the millennium will come first; then Christ will come at the end of it.' What people think has nothing to do with it, but what God says has everything to do with it. Not a word can be found in the Bible that gives the slightest hope for the millennium before the return of Christ; but you can find plenty of verses that tell you to look for the coming of the Lord first. There can be no millennium until Jesus comes; it is his presence that makes the millennium.

World Not Improving. "You might as well talk of daylight not coming until the sun goes down. Millennium cannot begin until Satan has been bound in the pit."

"Nothing is more certain than that the glory of God shall cover the earth, but it will be after Jesus comes. Man has no idea how the world will grow better and better until the coming of the millennium and everybody will be converted, and you hear that preached, but the Bible does not teach any such trash. Look at your city today, with all the off-scourings of God's dirty pickpockets, hold-up men, thugs, cut-throats and every sort of crime and criminal flourishing lawlessness, vice and crime will increase; communism, nihilism, anarchy, adultery, divorce, graft, all will continue to grow until they will finally sweep into the anti-Christ. The notion some people have about the second coming of Christ is that when He comes, Judgment Day will also come, and the world will come to an end. This idea is unscriptural. Business will go on and governments will go on as now. After Jesus comes and takes believers out of the world, then takes place the great tribulation."

HUGHES REACHES OTTAWA AFTER A RECORD TRIP

Just Five Days and Ten Hours From London to Capital.

OTTAWA, Oct. 6.—General Sir Sam Hughes arrived in Ottawa at 11 o'clock this evening. The announcement of his return attracted a gathering of a couple of hundred people, including the officers of local units and members of the headquarters staff. A guard from the 20th Regiment was present with a band to receive the minister of militia.

It was remarked that there was no member of the Government at the station and no member of parliament, with the exception of Mr. F. B. McCurdy, who has been administering the department during the absence of General Hughes.

General Hughes was greatly delighted with his fast passage across the Atlantic. "I am just five days and ten hours from London," he said, "and time between the capital of the empire and the capital of Canada." He said with enthusiasm.

BRITISH STEAMER SUNK RESULT OF COLLISION

Crashes Into Another Boat During a Heavy Fog.

NORFOLK, Va., Oct. 6.—The British steamer Hawkhead, at anchor in Hampton Roads, of Sewalls Point, was run down and sunk about 8 o'clock tonight by the Chesapeake Steamship Company's Bay Line steamer, City of Norfolk, outward bound from this port for Baltimore, with a number of passengers. The City of Norfolk was badly damaged about the bow, but there was no loss of life so far as is known. The collision occurred in a heavy fog. Captain Hand and the crew of the Hawkhead were taken off by small boats, lowered by the City of Norfolk, the steamer Pocahontas and other craft which were passing.

TO TRAIN FOR NURSE. AILSA CRAIG, Oct. 6.—Miss Monte Day, daughter of Mr. and Mrs. C. Day of the Queen's Hotel, left in Wednesday for Detroit, where she will train as a nurse. Her sister, Miss Irene, left a few weeks ago and is in the same hospital.

Overworked Women

There is a never ceasing treadmill of work in the modern woman's home; ambition to keep the house neat and attractive, the children well dressed and the family well fed and the constant struggle with cooking, washing, ironing, dusting, mending and sewing, to say nothing of social duties, often bring on some feminine disorder; physical weakness develops and every day becomes a period of misery.

To thousands of such women

Lydia E. Pinkham's Vegetable Compound

has brought health and strength and happiness. To prove this Read what these women say.

Providence, R. I.—"I cannot speak too highly of your Vegetable Compound as it has done wonders for me and I would not be without it. I had a displacement, bearing down pains and backache, and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I worked in a factory all day long besides doing my housework, so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABEL LAWSON, 128 Lippitt St., Providence, R. I.

Prescott, Ark.—"When I began taking your Compound I was in a serious condition caused by overtaxing my strength. For years I carried heavy buckets of water to the horses and cows. I would help set, replant, hoe and cut tobacco, and help to hang it in the shed by hanging it up to the one above me. All this I have done besides my housework for a family of five, baking, washing and ironing, and tending my garden and raised chickens. I became irregular and extremely nervous. A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me and it has restored me to health. I have become regular and am cured of that cold feeling, and my nerves are stronger. I cannot praise the Compound too highly and hope some suffering woman will read my letter and take heart and give it a trial."—Mrs. R. KINROSS, R. R. No. 1, Prescott, Ark.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROBERT STOEPLI, Moore Avenue, Washington Park, Illinois.

If you have such illness as Mrs. Stoepli had, can you afford not to use what cured her?

For forty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for woman's ills and is more popular today than ever. Lydia E. Pinkham Med. Co., Lynn, Mass.

DECLARES GERARD ON PEACE MISSION AT KAISER'S REQUEST

New York Paper Says Wilson Is Urged to Mediate.

DENIED AT WASHINGTON

German Embassy Also Declares Statement Is Not True.

NEW YORK, Oct. 6.—The New York Evening Post today publishes a story saying that it has been learned from a trustworthy source that Ambassador James W. Gerard, now on his way back from Germany, will lay before President Wilson a request that the president use his good offices in suing for peace with the Allies.

"Germany has definitely decided to apply to President Wilson," the article reads, "to use his good offices in suing for peace with the Allies. This was learned today from sources in a position to have absolutely trustworthy information on these matters."

It is understood that Ambassador James W. Gerard, who is on his way over here, will lay the Kaiser's request before President Wilson within a week. It is a fact, however, positively, it may have been denied officially, that the possibility of President Wilson acting as mediator has been discussed by German officials with Ambassador Gerard. It is true and by no means surprising that the reports now take definite shape in connection with Mr. Gerard's trip to this country.

Ambassador Gerard is on board the steamship Frederick VIII, due in New York about Tuesday next.

Denied at Washington. WASHINGTON, Oct. 6.—Ambassador Gerard is returning to the United States on any mission other than to spend a belated vacation officials of the state department disclaim any knowledge of it. The statement has been authorized that no preparations for the discussion of peace through diplomatic channels have been made.

There have been various reports of plans of President Wilson to deal with this matter directly instead of through the state department.

Officials of the German embassy received the story with the emphatic statement that they knew beyond doubt that it was not true.

Allies Will Fight. ROME, Oct. 6.—The Allies have informed the Dutch Government that any move toward peace on the part of Holland would be construed as a pro-German act, it was learned today. This is the first hint that Holland has been feeling out peace sentiment among the European belligerents.

Exactly when this information was sent to The Hague is not known here. The fact that such action was taken was disclosed in a discussion of the Lloyd George interview, warning neutrals not to intervene at this time. Well informed circles here say the Allies are recoiled to the prospect that the war will last at least three years more.

CARPENTIER TOO BUSY DEFEATING THE GERMANS

European Heavyweight Champion Declines to Talk Boxing.

AVIATION HEADQUARTERS BEHIND THE FRENCH FRONT IN FRANCE, Oct. 6.—Georges Carpentier, heavyweight champion of Europe, was interviewed today by special permission regarding an offer from boxing promoters to meet "Jack" Dillon in New York.

"I already had refused 200,000 francs for two twenty-round contests in San Francisco early in 1915," said Carpentier. "I am too busy on the French front to take up such matters at this time. When the war is over I will be glad to visit my friends in the United States."

LIQUOR SHIPMENTS FROM MONTREAL ARE ENORMOUS

Over \$25,000 Worth Sent Daily to Ontario Towns.

MONTREAL, Oct. 6.—One Montreal liquor dealer, according to the Star, estimates that \$25,000 worth of liquor is being shipped out of this city to Toronto and other large centres in Ontario every day by freight or express.

The large wholesale houses in Montreal are doing an enormous shipping business many of the Ontario dealers supplying the demands of their private customers through these houses. The Star states that one express company here has over a hundred wagons and some motor trucks carrying the stuff for shipment, yet cannot cope with the business from Ontario.

FOR WEAK LUNGS

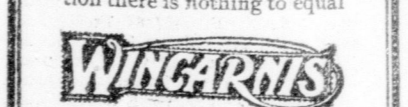

the pure-oil food in Scott's Emulsion has been proven the right nourishment for forty years, and is free from Alcohol. Refuse inferior substitutes.

Nerves!!

—On Edge—
—Jumpy—

Yours is a case for Wincarnis. If your nerve centres have become weakened by overwork, worry or anxiety, they are unable to transmit the necessary nourishment, and the nerves become worn out and "on edge." Then it is that sudden sound makes you "jump"—you get irritable—you suffer from neuralgia—you are restless and depressed. In this condition there is nothing to equal

Because, being a powerful nerve food, Wincarnis gets right to the root of the trouble, and, by creating a supply of new nerve force, stimulates and revitalizes the whole nervous system. Try Wincarnis for "nerves." It is wonderful. Over 10,000 doctors recommend it.
