Largest Single Span Bridge.

The largest single span concrete bridge in the world, now nearing is the one which carries the highway across the Seine River at St. Pierre-du-Vauray, near Rouen, France.

WOMEN and THE HOME

German Students in Coal Mines.

Many of the 80,000 German university students spend six or eight hours daily in the coal mines, factories and on farms to earn their way. The system was developed by the European Student Relief.

Dorothy Dix's Letter Box

Why Not Tell Husbands How to Hold Their Wives' Love for a Change? -The Young Wife Whose Husband Forces Her To Be Entirely Idle. How to Tell When a Man Is in Love.

Dear Dorothy Dix-Why do you write so much about wives trying to MORE COTS ARE NEEDED hold their husbands' love? Doesn't it ever occur to people that a wife gets just as bored with her husband as he does with her? Sometimes she is

humor her husband in order to old him, while he doesn't need to anything to hold her. So far as I am concerned, if my asband doesn't stay in love with

re home all day, and evening, too,

hereas their husbands have diver

ons at the office and elsewhere, and

few hours at home in the evening

e really restful to them. It seems

be the general opinion that a

oman remains in love with her

attractive, vivacious and ready

not tell husbands how to make their wives contented and give them a little of the romance they crave?

Yea, verily, sister: you have said a true thing. Wives do get just as fed up with their husbands as husbands do with their wives, and many a husband would get the jolt of his life if he knew his wife's real opinion of him. A slouchy man with a two days' stubble of beard on his face and spots on his clothes is as disillusioning and as unkissable an object to a woman as anybody with cold cream on her face and a soiled kimono and curl papers is to a man. It is just as much a man's business to keep his wife fascinated as it is a wife's to keep her husband enthralled.

Why, then, is the loud pedal put on the wife's part in making a happy home and keeping marriage a going concern? Simply because, in the words of President Cleveland, "It is a condition, and not a theory, that confronts us." There are certain amenities of domesticity that must be practiced to make it a success, and men won't take the trouble and make the effort, or even realize the necessity of practicing them, so there is always a hope that women will. Also, it is more important to a woman to protect her home than it is to a man, for the home means not only the love nest, it means her meal ticket as well. It means not only her happiness, but her

For a woman to say that she will not make an effort to make herself attractive to her husband is to take a dishonest advantage of her situation. She would have to make a mighty strenuous effort to be agreeable if she got along with her boss. She daily does things she doesn't feel like doing in order to get along in society. So it seems to me that it is an obligation of honor to try to please the one man who is legally bound to stand you.

DOROTHY DIX.

Dear Miss Dix-What do you think of a man who does not allow his wife, who is not yet twenty-two years old, and who is healthy and strong and vivacious, to make any acquaintances, or to go to parties, not even to occupy at home or outside, but just to sit up at home with nothing to do and wait for his return?

My husband knew when we were engaged that I was used to a very active life, and to having my time well occupied. Now I have nothing to do, and I feel as if I would go crazy. Do you not think it is dangerous for a woman to be absolutely idle, with nothing to do, but to think and think, and build aircastles during the lonesome hours of a lonesome day? VERY TROUBLED.

Answer: I do, indeed, Troubled. It is true that Satan finds work for idle hands to do, and he invariably gets on the job) when a woman has nothing to do. You have only to read the newspapers to have this proved to you. The women who figure in the scandals are the idle rich or the well-to-do women who live in boarding houses, and who, having nothing with which to occupy their time, go out and hunt for trouble-and find it.

It is the idle women who are the victims of lounge lizards and tea hounds, not the hustling businesswoman nor the busy housewife, who find

the day all too short to do all the work that is piled up. It is the women with nothing to do but think and think and think about

themselves who are the neurotic invalids who enrich doctors and fill sanatoriums. It is the idle women who have the leisure in which to vivisect themselves, who discover that their husbands do not understand them, and are not their soul mates. You never hear of the woman who has to cook and sew and patch, and scrub for half a dozen children, wondering if her husband is her real affinity or not.

Work is the salvation of women just as much as it is of men. And any husband who doesn't see that his wife has plenty of real, constructive work to do-work that counts and that she is responsible for doing; work that keeps her hands and her mind fully occupied-is not only doing her a deadly wrong, but he is steering his matrimonial boat straight for the rocks. DOROTHY DIX.

Dear Dorothy Dix-Please give a rule of thumb for telling when a man QUAERE.

There is just one infallible rule, and that is when a man pops the question and names the wedding day.

All other signs are worthless. Put no faith in words, in oaths of devotion that are not backed up by a bona fide marriage license. A man may come to see you for seven years and mean nothing more than that he finds you good company, and your house a comfortable place to spend his even-

He may look sentiment and talk sentiment that always stops just short of popping the question. Pay no heed to any such manifestations. If he really loves you and wants you, he will ask you to be his-and that is all there is to that DOROTHY DIX. Copyright, 1924, by Public Ledger Company.

Teach your child

internal cleanliness THE mother who permits constipation in her baby or older

I child is risking the health, even the life of her little one. It must be remembered that an infant is helpless, unable to tell that constipation is making its life miserable. Consequently the mother must be able to recognize signs of constipation in her baby. Convulsions, night terrors, grinding the teeth in sleep, feverishness, fretfulness and such symptoms—any of these may indicate that poisons from baby's stagnant intestine are flooding the little body.

In older children biliousness, coated tongue, loss of appetite warn the mother that constipation is present. Constipation, unchecked in youth, may lead to serious consequences. In constipation, according to intestinal specialists, lies the primary cause of more than three-quarters of all illness, including the

Laxatives Only Aggravate Constipation

The mother should not resort to laxatives. A noted authority says that laxatives and cathartics do not overcome constipation but by their continued use tend only to aggravate the condition and often lead to permanent injury.

Why Physicians Favor Lubrication

Medical science, through knowledge of the intestinal tract gained by X-ray observation, has found in lubrication a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and hastens its passage through and out of the body. Thus Nujol brings internal cleanliness.

Not a Medicine Nujol is used in children's and general hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative and cannot gripe. Like pure water it is harmless.

Let your infant or child have Nujol regularly-and see rosy cheeks, clear eyes and happiness return once more. Get rid of constipation and avoid disease by adopting the habit of internal cleanliness. Take Nujol yourself as regularly as you
