Of course Eugland wants to preserve her prestige in the Orient, and to influence China from Hongkong, as she has done heretofore, but beyond that there have been no signs that she has desired to interfere with the independence of Korea or to diminish the territory of the "sick man of the Orient."

It is not wise to attempt the role of prophet without something corresponding to inspiration, but it is not difficult to foresee that if Russis shall intervene by force and arms in the present trouble between China and Japan, her action may be the signal for a war in Europe which, before it is ended, may embrace every great power and turn may embrace every great power and turn the civilized world upside down.

# GENERAL HERBERT WAY GO

MONTREAL, Aug. 8 .- A Star special says : The World, formerly edited by the late Edmund Yates, to-day says that Major-General Herbert may possibly be ordered to vacate the command of the Canadian Militia and return to his regimental duties with the Grenadier Guards. This is consequent on Colonel Rikardo's promotion. It is rumored, however, that the War Office is being urged by British military circles to allow Major General Herbert to continue in Canada owing to the important reforms which he has started. If Major-General Herbert does not return he will forfeit his right to the command of the battalion. The opportunity thus presented by the promotion of Col. Rikardo would afford Major-General Herbert a convenient opportunity to escape the unpleasant consequences of the Powell incident, and it is said here that for this reason he may return to his old regiment. I cannot ascertain that any pressure has been brought to bear upon the War Office from Canada to have the Major-General of the Canadian Militia recalled, but in Canadian circles here it is considered that the opponents of General Herbert have a fine opportunity to make an effective effort to get rid of an admittedly unpopular officer."
