THIRTEENTH DAY. THURSDAY, Feb. 24.

The Speaker took the chair at 2 o'clock.
Prayers by Rev. Dr. Wilson.
Major Mutter presented a report from
the printing committee, recommending
that certain returns already presented to
the house be printed. The report was Mr. Booth, for the private bills com-

mittee, recommended that the petition of Alexander Begg & Sons be received; and also reported the preamble proved in the bill to amend the Lillooet, Fraser River & Cariboo Gold Fields, Limited,

River & Cariboo Gold Fields, Limited, Act, 1896. The report was adopted. Mr. Helmcken presented a petition from Alexander Begg & Sons for a bill to incorporate a railway from the Stickeen river to Teslin lake. The petition was read and received.

Mr. Walkem moved, seconded by Mr. Helmcken for a detailed statement of the liability of the province for \$22,596,14, and for which a vote was passed in the session of 1895-96 under "schedule B"; and also of any further liability, it any, which might have been included under

motion was carried.

should be the limit for Three Forks.

The Attorney-General stated that the population of Grand Forks was stated to be 600 to 800, and growing daily.

Mr. Stoddart had heard there was some opposition by people in the proposed limits of Grand Forks to incorporation.

The Farmers' Institute bill was under discussion in committee yesterday, and as far as progress was made the amendments were only verbal. The moest incorporation part of the measure will be

Mr. Kitchen did not see the hurry for taken up later. Mr. Kitchen did not see the nurry for incorporating Grand Forks—the necessity was not pressing as in the cases of Rossland or Nelson. However, he was opposed to granting the permission to borrow \$20,000.

The bill to provide for the incorporation of Nelson, Rossland and Grand Forks went through according to the understanding with the representatives of those towns. The amount which the

Mr. Graham understood that there those towns. The amo

particular section of land from the pro-posed limits had overcome any objec-tions. It was an act of economy to the prewince to relieve itself of the respon-sibility of having to look after the sani-

TORONTO, Feb. 25.—The World say has learned a Toronto syndicate been organized for the purpose of ering a smelter in Vancouver. Two was placed at \$20,000.

Section 12 read: "It shall be lawful for the council to dispose of sewage by depositing the same at some point outside the limits of the municipality, in such manner as may be found expedient; and from time to time to expropriate, take and hold such lands, both in and beyond the limits of the said municipality, as may be considered by the council to be right and necessary for the purposes aforesaid."

Mr. Hume moved to insert as a subsection: "It shall be lawful for the said cities, and they are hereby empowered at any time hereafter, to take and diverting of the said titles, and they are hereby empowered at any time hereafter, to take and diverting of the said titles, and they are hereby empowered at any time hereafter, to take and diverting of the said to any stream or streams, as may be found most suitable and to any experitable and the said cities, and they are hereby empowered at any time hereafter, to take and diverting the said to any time hereafter.

pleast three regular meetings a year was struck out, it being decided that the matter, would be best estiled in the rules governing the institutes.

Section 15, which named the different branches in which the institute context relating to the building of the print Ellics bridge, which collapsed last the request of the Premier, as was alread a first line and referred to our the bolding of the control of the government by any officer of the government or any person mittee.

The committee reported and will sit again on Monday.

Mr. Cotton presented the Kootenay Power and Light Company bill. It was read a first line and referred to committee.

The house went into committee of the whole on the Speedy Incorporations of Towns bill, Mr. Macpherson in the charge.

The house went into committee of the whole on the Speedy Incorporations of Towns bill, Mr. Macpherson in the charge was alread a first line and referred to committee consisting of Messrs. Booth, Mr. Helmcken—To move for a special committee one sisting of Messrs. Booth Towns bill, Mr. Macpherson in the charge was the provisions relating to the wave reached for mayor and alderned control of the government, or any more as telegram which had many provision requiring residence upon reports.

By Mr. Helmcken—To move for a special sign to the structure of the cornor and the findings of the residuation of the government or any provision requiring residence upon the control of the government or any towns and provision requiring a residence upon the provision requiring a residence upon resident of the provision requiring a residence upon resident of the following a settlement of the claims of all qualification. Resident qualification and the following a residence upon resident of the provision requiring a residence upon residence of the provision requiring a residence upon residence of the provision requiring a residence upon resident of the provisi

qualifications.

The limit authorized to be borrowed this year for necessary works by Rossland and Nelson, was fixed at \$50,000, but some discussion arose over what should be the limit for Three Forks.

The Attorney Gangeral stated that the

Mr. Graham understood that there had been opposition to the incorporation of Grand Forks by some of the people, but that day had received a resolution passed at a mass meeting at Grand Forks withdrawing the opposition, and in that event he did not see why incorporation should not be granted.

Mr. Speaker, for the information of the committee, stated that a few weeks ago he had been present at the town where a meeting had declared unanimously in favor of incorporation. Since then some opposition had been shown by persons who did not want their property to be taken in. He had understood now that the elimination of that particular section of land from the pro-

VANCOUVER'S SMELTER.

Toronto, Feb. 25.—The World says it has learned a Toronto syndicate has been organized for the purpose of erecting a smelter in Vancouver. Two outside companies, one of headquarters at London, Eng., and another centered in Denver, Col., has been dickering for some time with civil authorities at Vancouver, but Toronto men hope to beat

John R. Cook.
The Attorney-General said he thought it proper to present the telegram, to the house so that the members might take the gentleman on his right did not suggest the sort of lambs which he grows so eloquent, or that of the gentleman on his right did not suggest the sort of lambs which he is so any low of the gentleman on his right did not suggest the sort of lambs which he is so of the gentleman on his right did not suggest the sort of lambs which he is so any low of the gentleman on his right did not suggest the sort of lambs which he is so of the gentleman on his right did not suggest the sort of lambs which he is so any low of the gentleman on his right did not suggest the sort of lambs which he is so of the gentleman on his right did not suggest the sort of lambs which he is so on which he grows so eloquent, or that of the gentleman on his right did not suggest the sort of lambs which he is so on which he grows so eloquent, or that of the gentleman behind him did not suggest the sort of lambs which he is so on which he grows so eloquent, or that of the gentleman behind him did not suggest the sort of lambs which he is so on which he grows so eloquent, or that of the gentleman behind him did not suggest the sort of lambs which he is so on which he grows so eloquent, or that of the gentleman behind him did not suggest the sort of lambs which he is so on which he grows so eloquent, or that of the gentleman behind him did not suggest the sort of lambs which he is so on which he grows so eloquent, or that of the gentleman behind him did not suggest the sort of lambs which he is so on which he grows so eloquent or the gentleman behind him did not suggest the sort of lambs which he is so on which he grows and I suffered severely. The parts were putified up, red and paintal; the joint debt, and can see no excuse.

It may be said that it will lessen the government's borrowing capacity for other purposes. On the contrary, I say, it would strengthen its powers by en-hancing its security, because it would place in the hands of the government

would amount to \$240,000 yearly which in case of the government requiring money for improvements; the need for which at our present rate of development will annually grow greater; the government can borrow this sinking fund of the farmers, thus acquiring ready money at a convenient point, and by paying the current water ready.

legislature that our farmers are thrift-less and lazy. This with reference to the farmers of the section to which I belong, the beautiful Okanagan, and for which I am specially pleading I emphatically deny. They are the most industrious and economical class of people to be met with in British Columbia.

It is also said that the

with in British Columbia.

It is also said that the farmers of Ontario work harder than ours and that they too, pay heavy rates of interest. May I ask the parties offering these objections

The motion was carried.
The house went into committee on the Farmer's Institutes Cooperation Act, Mr. Rithet in the chair.

In regard to section 4, which provides for the importation of seeds, plants and animals "of new and valuable kinds."

Mr. Semlin wanted to know what was "a new animal."

The Premier replied that the expression was taken from the Ontario act, the province from which the leader of the opposition came. For example he understood that the alpaca sheep, camels and other animals new to the country had been introduced into the United States and perhaps the leader of the opposition might want to put elephants on his own farm. (Laughter.)

Mr. Semlin replied that a "new animals" seemed to point to something that had hitherto not been known in the scale of creation.

Mr. Semlin replied that a "new animals "seemed to point to something that had hitherto not been known in the scale of creation.

Mr. Semlin replied that a "new animals had hitherto not been known in the scale of creation.

Mr. Semlin replied that a "new animals" seemed to point to something that had hitherto not been known in the scale of creation.

Mr. Premier replied that a "new animals" seemed to point to something that had hitherto not been known in the scale of creation.

Mr. Semlin replied that a "new animals" seemed to point to something that had hitherto not been known in the scale of creation.

Mr. Premier replied that a "new animals" seemed to point to something that had hither to not been known in the scale of creation.

Mr. Premier replied that a "new animals" seemed to point to something that had hither to not been known in the scale of creation.

Mr. Remilin replied to the country and the section of the point of the province of the position and the section is that light; the looked upon it as meaning a breed of animal new to this province.

Mr. Remilin replied that a "new animals" seemed to point to something that had hither to not been known in the scale of creation.

Mr. Remilin replied that a "new animals" seemed to poin

heumatic gout, are variations of what is or all practical purposes the same thing— n inflammation of the joints, muscles, or an inflammation of the joints, muscles, or both, arising from the deposit in them of uric acid, which is itself one of the products of an overworked, or a congenitally weak, digestive system. This acid, being virtually insoluble in water, and a sharp, poisonous crystal, is both a mechanical irritant and a blood poison.

In time it attacks the heart and kidneys, etc. where it combined with the alkalies of

ous crystal, is both a mechanical irritant and a blood poison.

In time it attacks the heart and kidneys, etc., where it combined with the alkalies of the body—produces lesions which cause chronic organic disturbance or, worse still, fatal destruction of tissue. All this, I beg to remind you, comes of long.continued stomach indigestion, with its result and accompaniment, a sluggish and inefficient liver. For the human body is not a companiment, a sluggish and inefficient liver. For the human body is not a companiment, a sluggish and inefficient liver. For the human body is not a companiment, as sluggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and inefficient liver. For the human body is not a companiment, as luggish and ineffi

ment will annually grow greater; the government can borrow this sinking fund of the farmers, thus acquiring ready money at a convenient point, and by paying the current government rates of interest on it will help the fund. Thus shall we be mutually assisting one another as all properly governed people should.

It has been said by a member of our legislature that our farmers are thrift-
