Fruit Juices Clear the Skin WASH HOUSE CASES

The skin mirrors faithfully the state of the blood, and the blood shows how well-or how badly-the liver, bowels, kidneys and the millions of tiny glands in the skin are doing their work. If these organs are not properly clearing out the waste matter, the blood will be poisoned and the skin sallow "muddy" and sprinkled with pimples.

Plenty of ripe fruit helps more than any other food to cure this condition, but even more effective, as well as less expensive, are "Fruit-a-tives." These are little tablets of concentrated fruit juices, combined in such a way as to many times increase their action on those organs that eliminate impurities. One or two "Fruit-a-tives" a day will keep the blood pure and give the skin the clear glow of health. 25c for trial ox—50c for regular size—6 for Dealers everywere should have both sizes. If you are unable to obtain "Fruit-a-tives" in your neighborhood, they will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

I hereby certify that "The Gem Mining Company" has this day been registered as an Extra-Provincial Company under the "Companies Act, 1897." to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company in situate at the City of Washington, District of Columbia, U. S. A.

The amount of the capital of the Company is three hundred thousand dollars divided into three hundred thousand shares of one dollar each.

The head office of the Company in this Province is situate at the Law Chambers, Bastion St., Victoria, and Alexander Scott Innes, Barrister-atlaw, whose address is Victoria aforesaid, is the Attorney for the Company. Not empowered to issue and transfer stock.

also should be proceeded against. Dr. Morrison also took occasion to call in-to question the sanitary condition of BEFORE THE COUNCIL

Morrison also took occasion to call into question the sanitary condition of the adjoining premises, the owner of which had complained of his (Dr. Morrison's) place. His building had been used as a wash house for twenty years and for eighteen years Mr. Neal had been living next door without protest until just recently. The Chinese tenant had paid \$500 for the business about three months ago and it would be a hardship to now force him to get out. No Decision Arrived at as to Offending Premises—Routine Business

(From Tuesday's Daily)

After considerable delay the inquiry necessitated under the provisions of the Municipal Clauses Act before any premises can be condemned on the ground that they constitute a menace to the surrounding premises and depreciate the value thereof, was held by the city council at last night's meeting into the complaints concernions the Chinese wash houses in the Dr. Morrison's premises was because it is not the prescribed distance from the struct. City Solicitor Mann admitted that such is the case whereupon Alderman Fullerton remarked that there were many other wash houses in the same position but Mr. Mann pointed out that Dr. Morrison's premises encroached up-

but the premises could not be made to comply with the terms of the wash house bylaw without the building be-ing moved back and this the owner, Dr. Morrison, refused to do.

E. corner let 189,

secured.

With regard to the premises on Orders Disobeyed

The sanitary inspector, in a report, stated that he had notified the Chinese tenants and also Dr. Morrison that the improvements would have to be made and that until completed the premises should not be used as a wash honse but, his orders have not been compiled with.

Sanitary Inspector Lancaster, being sworn, testified to the building not being the requisite twenty-five feet from the street line or ten feet from the rear boundary, while the interior furnishings did not comply with the bylaw.

Dr. Morrison, who was present at the inquiry, stated that the sanitary inspector had examined the premises to make the place is a fire trap. To make the premises comply with the bylaw would be a difficult matter as it is only a portion of a building which is occupied and the whole building to be altered. From the street line or ten feet from the street line or ten feet from the street in a most unsanitary condition. In fact he doubted if there did road, with curbs and street, from Richardson street to Fair-field road, with curbs and the place is a fire trap. To make the premises comply with the bylaw would be a difficult matter as it is only a portion of a building which is occupied and the whole building which is occupied and the whole building to be altered. From the street line or ten feet from the street in order to comply with the bylaw.

W. Lowe, barrister, who appeared for the place down.

W. Lowe, barrister, who appeared for the place submitted a plan which he stated for the Ulding inspector nor the submitted a plan which he stated for the Ulding inspector nor the submitted a plan which he stated for the Ulding inspector nor the submitted a plan which he stated for the place was in good sanitary condition.

Total cost, \$2,034: city's share, \$675.

Permanent sidewalk on the south side of Figural to Clay's sha

houses in other portions of the city which contravened the bylaw. These

bylaw but made no improvement in \$1,553.82; city's share, \$517.94, the rest of the building, Alderman Pauline urged that the side of Fairfield road, from Vancouver Alderman Pauline urged that the side of Fairfield road, from Vancouver council should declare the place a menace from the sanitary standpoint as well as a fire trap and a danger to surrounding premises. Finally it was decided to leave the further consideration of this matter to a future meeting.

Boulevard Ur. Keep.

Boulevard Up. Keep.

Alderman Henderson's bylaw to provide for assessing the cost of up-keep of boulevards already laid and for the making of a general assessment for up-keep of future boulevards, created some discussion. The cost of the maintenance of boulevards for the maintenance of boulevards for the past year has totalied six cents per front foot but Alderman Henderson pointed out that in future years, it has been estimated, the cost will be five cents. In the bylaw submitted this figure of five cents per foot is fixed as the future assessment but provisas the future assessment but provis-ion is made that "should the rate as-sessed and to be levied prove in any year insufficient for the maintenance." (including maintenance). Cost \$5,508, city's hare \$1,834.632 Can't Change Payday Year insufficient for the maintenance. and up-keep of any boulevard the deficiency shall be made good and be paid out of the annual revenue, whether such deficiency shall be caused by non-collection of the taxes of excess

Alderman Pauline suggested that the rate be fixed at whatever figure could be decided upon and if it is exceeded the Parks Board could prob-

ably keep back part of its appropria-tion and the deficiency could be made up from that.

The objectionable section was drop-

ped and the bylaw put through its

various stages.
A. T. Goward, local manager of the B.C. Electric Company, replying to a communication of the city relative to the placing of a waiting room at the end of the track where Niagara street ends at the Beacon Hill Park, stated that the company is willing to put in one of the style of those others now in use at termini of the lines. But as Beacon Hill Park is visited by tourists a waiting room somewhat orna-mental should be erected. This sug-gestion he had made to the city ere this. The company is willing to either put up the ordinary style of waiting toom or contribute an amount equal to its cost rowards the construction of a more ornamental building. Mr. Goward's letter will be referred to the

though nothing was said as to the roosers. The matter will come up at next Monday night's meeting.

The application of Thomas C. Warren for the position of paymaster whenever the city decided to appoint such an official, was filed and he will be notified that there is no opening at present

present. City Not Liable.

The city solicitor advised that the corporation is not liable for the break-ing of the glass window in the premises occupied by E. M Johnson on Broughton street, even though the injury was done by a person from whom gravel had been purchased by the city. The latter should be proceeded against. The claim of Mr. Lehman, for damages for injuries sustained in falling into a trench, was also passed upon by the solicitor, who advised that the city is not liable and that the claim should be resisted. Arthur L. Adams, city water expert,

preciate the value thereof, was held by the city council at last night's meeting into the complaints concerning the Chinese wash houses in the premises at the corner of Quadra and Fort streets and that in the building on the west side of Store streets and that in the building on the west side of Store street and the E. & N. depot. At the conclusion of the hearing the matter was held over until next Monday for further consideration.

The regard to the wash house at treets, concerning which complaint was made many weeks ago by William Neal, an adjoining owner, the Chinese tenants, asked that in adjoining owner, the Chinese tenants will be given three months within which to corner of Fort and Quadra streets, concerning whith complaint was made many weeks ago by William Neal, an adjoining owner, the Chinese tenants will be just the bylaw, his clients should be made to comply with the orders of the suit of the provisions of the bylaw and to do owner, the Chinese tenants will be made to comply with the orders of the suit of the provisions of the bylaw and to do owner, the Chinese tenants will be given three months within which to corner of Fort and Quadra streets, concerning whith complaint was made many weeks ago by William Neal, an adjoining owner, the Chinese tenants will be given three months within which to corner of Fort and Quadra streets, and provisions of the policy of the provisions of the bylaw and to do will mean that such places must be left to the theory of the provisions of the bylaw and to do will mean that such places must be left to the thing of the provision of the Robertson Iron Works for an extension of time for the delivery of the wash for a distance of asset bench the wash for a distance of some adopted as well as the crip of the such adopted as well as the report of the wash for a distance of some adopted as well as the report of the wash for a metal of the provision of the Robertson Iron Works for an extension of time for the delivery of the material has caused considerable into the premises convenience as the work had to be stopped awaiting its arrival.

The city engineer reported upon the Store Street, also occupied as a Chinese washhouse, the sanitary inspector stated that besides not complying in any particular with the bylaw the street, from Richardson street to Fair- But Harassed Council Not Yet

sion to use the upper floor of the old market building for its next annual show on January 25, will depend on how much inconvenience the firemen suffer through the crowing of the birds. Aldermen Fulierton and Gleason stated that the firemen when the last show was held, had been disturbed by the "crowing made by the hens,"

COUNCIL OF METERS

Through With Knotty Problem

(From Tuesday's Daily) After nearly a month's consideration of the various tenders for water me-ters, which tenders for seven different sizes and 3,500 in all were opened by the city council over a month ago, no definite decision has as yet been reach-ed by the members of that body. For three weeks the council wrestled with the problem of which meter would best serve the interests of the city. But during this period of examination the representatives of the various meter companies so befogged and worried the aldermen that finally as a last resort, the whole matter yas referred to Arthur L. Adams, the city's water expert. That gentleman, when in the pert. That gentleman, when in the city last week, went fully into the metry of the various meters, submitted a report, which he afterwards such as in my judgment will warrant subjecting it to an endurance run. withdrew, then gave further consideration to the question and his final report was presented. His finding was laid before the city council at last night's meeting of that body, but several of the aldermen still appeared to doubt the recommendations therein contained, and the report was further laid over until Friday night when will be considered at a meeting of the streets, bridges and sewers committee.

Wants More Facts. Alderman Fullerton, who, by reason of an accident, has been confined to his home when the tenders were first considered by the council, declared that Mr. Adams' report was not quite satisfactory to him. It differed somewhat from a report recently made by Mr. Priest, assistant water commis-sioner, and he would like to have time

"All right, then you can get ready for the agents again," remarked Mayor Hall, while Alderman Henderson declared that the council had had about enough of agents, and those gentlemen should certainly be barred from Eriday night; meeting Personally he was about sick of this everlasting button-holing of members of the council Expert Reports.

The report of Mr. Adams, after set-ting forth the fact that he had made a careful inspection of the sample me ters submitted with the various ten has been familiar with all the meters submitted, gives the following list of meters as those tendered upon:
W. S. Fraser & Company, Columbia, \$30,041.70; King, \$34,660.20.

Crane Company, Pittsburg, \$30,-Drummond & McCall; Hersey, \$30,-947 19: Torrent \$30 788 20 tion (159) of section 50 enabling the enclosure and taxing of same in \$30,990. Buffalo Meter Company, American

Jno. McDougall, Caledonia fron Works, Worthington, Type "C," \$32,-645; type "B," \$30,137; type "D," \$33,-

Hinton Electric Company, Nash, \$39,647.14; Empire, \$49,158.74. Glenfield Kennedy, \$75,371. Continuing his report, Mr. Adams Meters should be judged by the fol-

lowing considerations: First, durability; second, accuracy; third, simplicity; fourth, cost.

Simplicity in mechanical design is of nuch greater importance in the main-tenance of a large number of meters than is supposed by those unfamiliar with the practical operation of a metered system. The fewer the parts, the easier the taking apart, and the simpler the assembling, the less the time and cost of maintenance. This consideration is of far greater practical importance than extreme the easier the taking apart, and the simpler the assembling, the less the time and cost of maintenance. This consideration is of far greater practical importance than extreme accuracy of measurement.

Three Lead the Rest.

Without profitable discussion of details I may say that judged by the beforementioned standard, of all the feecome an evangelist.

Recommended that the sum of \$50 be recomm

Lengthy Test Required

It should be borne in mind, however that there is always a serious element of risk in adopting a meter not actually tried out by use or at least tried out in a long endurance run equivalent in quantity of water passed to ten or twenty years of or-

linary, use.

What difference in first cost is sufcient to warrant assuming this risk may, of course, be a close question. The difference in the present tenders between the Trident and Worthington s \$4.883 for the entire order or 13 per ent of the price asked for the

ington meters.

After mature deliberation my conlows: 1. I regard the Trident meter su-

perior to all the meters coming a range of prices not prohibit 2. The price asked for it after allowance for duty is not greater than is asked elsewhere on the Pacific coast when filling large orders. 3. The Worthington model D me-ter has the appearance of being a good

4. The interests of the city do not require the immediate purchase of the entire order advertised and in judgment the prices asked will not be affected by the placing of the order in lesser amounts at different dates A considerable part of the entire could be secured in March and still be placed in service at a sufficient early date to serve their purpose. 5. There are no serious objections to

the use of two different types of me-ters in an all meter system, but multiplying the number beyond this is to be avoided, if possible, Recommends Endurance Run My recommendations are as follows That the award be made for the Trident meter, T. A. Johnson, tenderer, to the number of approximately one-half of the quantity of meters adver-

2. That for purposes of test and com parison an endurance run be at once instituted, using two % stock Worth-ington D model meters in a train and the same of Tridents. 3. That the placing of farther order

for meters other than as mentioned in

my first recommendation be deferred pending the results of the said test.

ARTHUR T. ADAMS. The report will come before the streets, bridges and sewers committee on Friday evening next. After its reading in council one of the agents who was present, rose and asked to
