SPRUCE LUMBER.

MARKET REPORT
Farnsworth & Jardine's (Liverpool, Eng.) latest Wood Circular has the following to say re market conditions in the United Kingdom: "There was a slightly improved tone noticeable, as reflected by the quantities going into consumption; values generally remained unchanged. A fair amount of tonnage was fixed during the month of September for deals from Canada, with hardening rates towards the close of the month. Stocks are moderate, being 9690 Sds. against 15,200 Sds. at the end of Sept. 1921. Although the statistical position is satisfactory, prices for the better productions have not advanced to any extent, probably held in check by supplies of the older cutting still to come forward. St. John and Miramichi Spruce Deals are quoted at from 15 to 17 Pounds per Standard C. I. F., with freight from 72-6 to 77."

Laying Down a Barrage.

"Do you hear from your son at college?"
"Early and often," said Mr. Graham. "I get so many requests for money by mail, telegraph and long distance telephone that I hesitate to listen in with my radio outfit for fear I'll hear my son's voice making another appeal."
