MACLEAN FOR EAST YORK.

EVERY INDICATION THAT THE RIDING WILL BE REDEEMED.

Encouraging Reports from Every Municipality—Tupper at Windsor—Murphy Prof of the Treason Charge—Mr. Tupper's Statements to the Parliament—His Dismissal.

W. F. Maclean's prospects for winning the fight in East York are of the brightest description. The meetings held by him thus far in the campaign have been largely attended and the support which has been manifested. Many Liberals opposed to U. R. are rallying to his support and assisting his candidature with their influence. The Liberal-Conservative party is entirely working for him. Mr. Maclean has entered into the fight with his characteristic pluck, and there will be no let up until the final vote is polled on March 5.

A large and enthusiastic meeting of the Conservative electors of East York was held at the Hotel St. Charles on Wednesday evening. A thorough and complete organization was effected. All present were thoroughly alive to the importance of the present contest in the affairs of our country.

Mr. B. Morton was moved to the chair. Among the prominent speakers were George Marshall, W. H. Chay, Robert Ayer, James Rose, Robert Patterson, John McGill, Thomas Parer, Edward Laffoon, G. F. Sheehy, John Armstrong, J. C. Scott, W. J. Taylor, Thomas Dunlop, Dr. J. F. Shaw, Peter Taylor, David Booth, J. B. Maclean, J. H. Cross, and others. Mr. Chay, in his address, referred to the meeting of the Conservative electors of the riding, and called upon them to elect to rally and put into effect the motto of the party, namely, "To the victors belong the spoils." He called upon the electors to elect the new man—an energetic, live young man who will be a credit to the party and who may be expected to give a good account of his stewardship. The chairman strongly commended the remarks of Mr. Chay and made the record of the meeting.

Mr. Shaw made a speech of a practical turn, urging greater activity. He had no doubts but that if they put their shoulder to the wheel they would win. He commended the action of celebrating the triumphant return of Mr. Maclean as the member for East York on the evening of March 25.

W. J. Newell of Toronto made a logical speech, in which he showed that the Liberal and the Conservative parties had made inroads in the savings of the people and the loss of property. He called upon the electors to elect a man who would be a credit to the party and who may be expected to give a good account of his stewardship. The chairman strongly commended the remarks of Mr. Chay and made the record of the meeting.

ENGAND'S POLICY IN EGYPT

FURTHER DISCUSSED IN THE IMPERIAL PARLIAMENT.

In England Playing a Bad Part Before Europe by Breaking Her Fidelity?—A Motion for the Reduction of the Army by Labourers Defeated by a Vote of 24 to 23.

LONDON, Feb. 24.—In the House of Commons Lord Hastington asked what the intention of the Government was in regard to the Egyptian situation. The Foreign Secretary, Lord Curzon, replied that the Government was desirous of maintaining the status quo in Egypt and was not desirous of making any change in the position of the Commander-in-Chief of the army. Neither would they discuss any changes that might be needed on a vacancy in the position of the Commander-in-Chief.

Lord Hastington moved a resolution of the House, which was carried by a vote of 24 to 23. The resolution was: "That the Government should be asked to consider the expediency of reducing the army in Egypt to the number of 10,000 men, and to consider the expediency of reducing the army in Egypt to the number of 10,000 men, and to consider the expediency of reducing the army in Egypt to the number of 10,000 men." The resolution was carried by a vote of 24 to 23.
