Explosion at Petrolia.

Petrolia, July 7.—People who were enjoying a quiet Sunday afternoon rest were considerably startled this afternoon shortly after 3 o'clock, when a terrible explosion took place. The whole town was shaken and many windows were shattered.

Upon investigation it was discovered that the building at the Bradley nitro-glycerine works had been completely wrecked. The building is located about a mile north of the town. The manager stated that in the building which was wrecked only a very small quantity of the explosive could have been present.

Within less than a hundred yards of the building were two magazines, each containing several hundred quarts of nitro-glycerine. How they escaped destruction is at present unknown, but had the glycerine stored in them exploded the effect would have been disastrous.

Education Department May Inaugurate Campaign Against Tuberculosis.

Toronto, July 6.—It is stated that the Provincial Government will ask Mr. A. U. Colquhoun, M. A., L. L. D., deputy minister of education, to represent Ontario at the international congress on hygiene, to be held at the University of London, London, England, next month. It is believed that the proceedings at this congress will have an important bearing on the framing of certain features of the new educational policy for the Ontario public schools.

Next year it is understood to be the intention of the education department to apply itself to the general improvement of hygienic conditions in the public and separate schools. The step was foreshadowed by the minister himself in an interview some weeks ago, when he indicated that a special campaign was in preparation against the inroads of the great white plague. Further, it is the intention to include in the series of new text books now in preparation special articles dealing with the prevention and treatment of tuberculosis and other contagious diseases.

It is believed that Mr. Colquhoun may lay before the international congress some of the plans that the Ontario department has in view, and solicit consideration and advice upon them.

Among the matters which will likely be considered in relation to Ontario's schools are: Methods for the first and subsequent medical examinations of school children; school work in its relation to the duration of lessons, the sequence of subjects and the season of the year; the school in its relation to tuberculosis; the lighting and ventilating of class rooms.

"The most important factor in the educational work of our Province is the health of its people," said Hon. Dr. Pyne, "and in as far as it is in our power we purpose to give it every possible attention in our schools."

It was the intention of the Minister of Education, as a medical man, to have attended this international conference himself, but he has found that it will be impossible for him to leave Canada this year. As a result, Mr. Colquhoun, who is closely in touch with the Government plans in this connection, and who has given the subject extensive consideration, will be asked to represent Ontario.

It is expected that Mr. Colquhoun will leave Toronto next Thursday, sailing on Saturday.

Royal Visit to Ireland.

London, July 8.—King Edward and Queen Alexandra, started this afternoon for Ireland, the second visit since their ascension. On the way their Majesties will spend to-morrow at Bangor, and lay the stone of the University of North Wales. The royal yacht is awaiting the royal party at Holyhead, and will convey them to Kingstown. During the morning of July 10. One of the special objects of the King's present trip is to visit the Dublin Exhibition.

SUMMER COMPLAINTS.

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours the trouble may be beyond cure. Baby's Own Tablets is the best medicine in the world to prevent summer complaints if given occasionally to well children, and will as promptly cure these troubles if they come unexpectedly. But the prudent mother will not wait until trouble comes—she will keep her children well through an occasional dose of this medicine. The tablets ought, therefore, to be kept in the house at all times. Mrs. Chas. Warren, Nevis, Sask., says: "My little boy was greatly troubled with his stomach and bowels, but a few doses of Baby's Own Tablets wrought a great change in him. I would not be without the Tablets in the house." Sold by all medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Wallaceburg Demonstration.

Wallaceburg, July 8.—Unquestionably the best celebration ever held here will be the Provincial Firemen's Demonstration and Tournament, which will be held here on August 5, 6 and 7. Fire Brigades from all over Ontario will be here in force, and a large crowd and grand celebration are expected.

St. Catharines, Aylmer and Merriton have signified their intention to be present, and each will bring a brass band, while acceptances have been received from a large number of other departments. Lithographs will be issued in a few days, giving the programme and list of events and prizes. A gala day is looked for and no doubt, Wallaceburg will have a greater crowd than has been.

Warns Western Farmers.

Winnipeg, July 8.—Senator W. D. Perley, the largest farmer in Saskatchewan, who harvested ten thousand acres of wheat last year, has issued a statement, through the newspaper, warning farmers of Northwestern Canada to exercise close economy this year. He sounds a pessimistic note, and says that the crop will be less this year by from 25 to 30 per cent. than last year.

"We western farmers have had six years in succession of good crops and great prosperity," he observes, "and under such circumstances it is quite natural to forget that it is possible to have poor crops."

In the meantime crop prospects are improving all over the west, Sunday rain was general in Manitoba.

Hon. Adam Beck Returns.

Montreal, July 5.—Hon. Adam Beck arrived in this city from England today and left tonight for Toronto. He is greatly pleased with the prize-winning results of the horses he exhibited. He captured thirteen prizes with his string.

BRITISH CATTLE MARKETS.
Glasgow, July 8.—Edward Watson and Ritchie report 607 cattle ex steamship Cassandra on offer. Top quality is 13 cents to 12 1/2 cents; secondary, 12 cents to 12 1/2 cents; bulls, 11 1/2 cents to 11 1/2 cents per lb. The Sicilian missed the market.

John Rogers & Co., Liverpool, quote States steers, 13 1/2 cents; Canadians, 12 1/2 cents to 13 cents. Trade very slow, but firm.

London, July 8.—Liverpool and London cables are steady at 12 1/2 to 13 1/2 c per lb., dressed weight; refrigerator beef is quoted at 9c to 9 1/2 c per lb.

Toronto, July 9.—The run at the city cattle market today was 80 loads, with 800 head of cattle, 1,275 sheep and lambs, 300 hogs and 402 calves. Trade was good and altogether a fair, steady market today, with prices generally firm all round. The run was light and there was a good demand for the local butcher trade. Stocks in the hands of the wholesale men are light and there was therefore plenty of buyers for all the good butcher cattle to be had. While the mar-
