Municipality of the Village of Watford County of Lambton.

NOTICE is hereby given that I have transmitted or delivered to the persons mentioned in section 9 of "The Ontario Voters' List Act," the copies required by said sections to be so transmitted or delivered of the list, made pursuant to said Act, of all persons appearing by the last revised assessment roll of the said Municipality to be entitled to vote in the said Municipality to be entitled to vote in the said stunicipality at elections for members of the Legislative Assembly and at Municipal Elections, and that said sist was first posted up at my office, at Wastord on the 3rd day of July, 1916, and remains there for impection, and I hereby call upon all voters to take immediate proceedings to have any stores or omissions corrected according to law. Outside at Wastord this 3rd day of July, A D., 1916.

Niagara Falls, July 17,—The Ottawa Customs authorities have sprung a surprise on persons crossing the lower bridge by placing a woman Customs inspector at the Canadian end of the bridge. Mrs. White, the woman Customs officer, has subjected the purchases of feminine shoppers to a rigid scrutiny, and it is said that she has already collected a tidy sum in duties. It is believed that this is only a temporary measure to curtail petty smuggling, which is alleged to have been extensively carried on.

What Undergraining Does

In many cases crops have been doubled on land which was tillable before, while the reclaimation of swamp land and pro-duction thereon of a splendid crop is extremely common.

Drainage opens up all the soil by removing the surplus water and allowing the air to enter the spaces previously filled with water. It is through this free the air to enter the spaces previously filled with water. It is through this free entrance of air and consequence aeration of the entire soil above the drains that the other beneficial effects noted are brought about. It makes the soil more friable and less likely to cake. It assists the necessary chemical action in the soil. It promotes the growth of bacteria which is necessary in order that soil materials may be changed into plant food. Air is essential to rugged root growth development. If the ground is water soaked so that the roots must cling near the surface to breathe, then in times of dry weather the water level goes so far below them that capillary attraction will not raise water for their use.

On the other hand, if the upper soil contains free air, the roots strike deep into the soil and the change in water level in dry times does not affect them.

Drained soil when workable has far more water in it than undrained soil when in the same workable condition. Well drained soils are more open and less compact and therefore hold more water in suspension than undrained soils. They have greater lifting powers because they are more porous, therefore long after the crops in undrained soils have perished, those small capillary tubes in the porus soil supply water to their plants. Water is the hardest known substance to heat, and since during most of the time it is too wet the undrained soil has more water in it than the drained, it follows that it must be colder.

Evaporation of heat is checked in drained land and therefore all drained land and therefore all drained land is from 5 to 10 degrees warmer than undrained soil these water than undrained soll these water in a drained land and therefore all drained land and therefore all drained land are degrees warmer than undrained soil these water than undrained soil these wate

land is from 5 to 10 degrees warmer than undrained land. It is possible to get on a drained field three weeks to a month earlier in the Spring because of this, thus giving the farmer a longer season. Underdrainage is a stabilizer which makes uniform growing seasons allowing the growth of a good crop every year, whether it is a wet or a dry season.

(To be continued.)

Sarnia, July 17.—At the village of Port Lambton, 24 miles down the river from Sarnia, a summer resort, the village con-stable has forbidden the dealers of that place to sell any gasoline or oil on Sun-

EAST LAMBTON ENTRANCE RESULTS

Fred Winnett of the Oil Springs Public School heads the list in the Inspectorate obtaining 550 marks out of a possible 650, being about 85%.

240 pupils wrote in the Jr. H. S. Entrance examination in East Lambton and 142 were successful. The number writing this year is somewhat less than usual owing to the fact that some 25 boys availed themselves of the special regulation excempting them from the examination on the ground of employment on a farm. Their applications for certificates will be forwarded to the Department when they have completed their term of service which will probably be about Sept. 1st.

about Sept. 1st.

To pass requires a total of 60%, as well as 40% in each subject, while those who obtained 75% or over of the total have passed with honors. Names are in order of merit in each centre.

Some Raspberry Recipes

RASPBERRY CROWN 2 Tablespoons water, 2 tablespoons corn starch, 1 cup boiling raspberry juice, 1 egg, pinch of salt, lemon extract. Cook until creamy. Put into moulds. When cold serve with raspberries or whipped cream.

RASPBERRY TAPIOCA RASPBERRY TAPIOCA
Put \(\frac{3}{2} \) cup tapioca into a kettle, cover
with \(\frac{4}{2} \) cup tapioca into a kettle, cover
with \(\frac{4}{2} \) cup to into \(\text{tansparent.} \) Stir into this \(1 \) pint of
raspberries, adding sugar to taste. Pour
into a mould. Serve cold with cream.

RASPBERRY CAKE 1 Cup white sugar, 1 cup butter, 2 eggs, 2 tablespoons butternilk, 12 cups flour, 1 teaspoon cinnamon, 1 teaspoon soda, nutmeg, 1 cup raspberries, (to be added last). Bake in layers.

RASPBERRY VINEGAR
Put I quart of raspberries into a suitable dish, pour over them a quart of good vinegar, let it stand 24 hours, then strain through a fiannel bag and pour this liquor on another quart of berries; do this for 3 or 4 days successively and strain it; make it very sweet with loaf sugar; bottle and seal it.

Willie Edmondson, 9 years old, was drowned in the Thames Monday while on a Chatham Sunday School excursion.

GOOD RICH BLOOD MEANS GOOD HEALTH

Just a Little more Rich, Red Blood Cures Most Ailments.

The lack of sufficient rich, red blood does not end merely in a pale complexion, it is much more serious. Bloodless people are tired, languid, run-down folk who do not enjoy life. Food does not nourish; there's indigestion, heart palpitation, headache, backache and nearly always nervousness. If this bloodlessness is neeglected too long, a decline is sure to follow. Just a little more rich, red blood cures these troubles. Then you have new health, new vitaility and bleasure in life. To get more rich, red blood the remedy is 'Dr. Williams' Pink Pills. No other medicine increases and enriches the blood so quickly or so surely. This is not a is Dr. Williams' Pink Pills. No other medicine increases and enriches the blood so quickly or so surely. This is not a mere claim. Dr. Williams' Pink Pills have done this over and over again throughout why thousands of people always have a good word to say for this medicine. Miss Gertrude Haffiner, Kingston, Ont., says:—"About two years ago I was suffering greatly with anaemia. so much so that I had to give up my situation. I became so weak that I could scarcely walk without help. I had no ambition, no color, no appetite and was constantly tronbled with headaches and diszy spells. I was taking medicine from the doctor, but it did not do me a particle of good. One day a friend asked me if I had tried Dr. Williams' Pink Pills. Though as the result of my condition I was greatly discouraged. I began the use of the Pills, and thanks to that good friend's advice after using a few boxes I began to feel much better. Under the continued use of the pills I gained in weight, my color came back and I grew gradually stronger. I looked so much better that people would ask me what I was taking and I had, ho hesistation in giving the credit to Dr. Williams' Pink Pills. I am so grateful for what this medicine has done for me that I will do all I can to extend its use."

You can get these pills through any medicine dealer or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockwille, Ont.

ville, Ont.

Ten nurses from London and Western Ontario have been instructed to report to Major Bell, assistant director of medical services, at headquarters, London. They will be assigned within a short time few overseas service, but detailed instructions have not as yet been secured.

Paris, July 17.—Only one French inhabitant was found in thirty villages retaken by the French and British in their offensive in the Somme region. He was a farmer who hid in a cellar at Belloy when the Germans, on June 25, ordered every French civilian into the interior in anticipation of an allied attack.
