Normal schools. The Normal School should

lowing subjects: -- University extension, the owing subjects:—University extension, the exclusion of high school work from universities, a common standard of matriculation, the delimitation of the common and high school courses of study, more thorough school inspection, a uniform nomenclature in the designation of schools and grades of in the designation of schools and grades of study in the various provinces, a more stringent compulsory attendance law, the professional training of all teachers, the general establishment of kindergartens, uniformity in the requirements for teachers' certificates and an interprovincial recognition of them, school exhibitions.

To perfect health and vigor.

ORANGEVILLE, April 4th, 1892.

Dr. L. A. SMITH & Co.: Dear Sirs,—Anti-Dandruff is evidently giving satisfaction. I have sold about half of the gross I bought from you on the 23rd of January last. I use it in my own family and like it well. Can recommend it to all who are floated with dandruff.

We think it a very valuable medicine;

—Minard's Liniment cures Distemper.

My Goods have been obtained from the most reliable houses in Canada, and are warranted to be fresh and first-class in every particular.

Motto: Quick Sales and Small Profits.

Inspection invited. Satisfaction guaranteed well. Can recommend it to all who are troubled with dandruff.

Yours truly,

Thos. Stevenson.

Torbrook a Bonanza

Henry Ward Beecher once went in sear TEEMS WITH RICH MINERAL WEALTH-A RACY DESCRIPTION OF A BIG ENTER-PRISE WITH A BRIGHT FUTURE. The growth of an enormous iron mining known. When Sunday came Mr. Lowe, of the well known firm of Nothard & Lowe, apple salesmen, of London, made a flying visit to this part of the country last week, and in company with Mr. C. R. H. Starr, of this town, who is Torbrook, on the slopes of the south moungeneral agent for the firm in Canada, visited tain, three and a half miles from Wilmot, (Beecher's) best sermons as an original disas many districts in the valley as the brief girt in by a forest of pines with the sun course. At the conclusion of the service time at Mr. L's. disposal would permit, buthed hills on the north glinting at interand discussed with a large number of apple vals through the vista of trees, have been the young man. Might I ask you how shippers the pros and cons of the apple business. It was our privilege to meet Mr. Lowe just before his departure. He expanding enterprise, which owes its pressed himself as delighted with the distribution for the thriving forbrook iron composition to the thriving forbrook iron composition of the first expanding enterprise, which owes its its real author. "Oh, about six or seven origin to the thriving forbrook iron composition of the first expanding enterprise, which owes its its real author. "Oh, about six or seven origin to the thriving forbrook iron composition." pressed himself as delighted with the country and the received at the hands of a very large number of friends who had called to see him at the different points where he had tarried.

In reply to our question, as to the prospects for this season's apple trade, Mr. Lowe said, "I consider the prospect fair; do not apticipate high prices but a good of the prospect and and, en route towards the mining district,"

origin to the thriving Torbrook iron company (average to the prospect fair; do not apticipate high prices but a good land, en route towards the mining district, a very smart young man," said Beecher, "for it took me just five days to write that selfsame sermon." After a careful but unblushing scrutiny of the great pulpit orator, the youth remarked: "I guess you're Ward Beecher, then?" A grave nod was the only response. Then the juvenile apostle put out his hand, and grasning that the country and the received at the hands of a very large number of the thriving Torbrook iron company to the pany, and something of development to the windsor and Annapolis railway's branch that links the mines with their markets. The philosopher says "business is pleasure rightly constructed." We were a party of such a very smart young man," said Beecher, "for it took me just five days to write that selfsame sermon." After a careful but unblushing scrutiny of the great pulpit orator, the youth remarked: "I guess you're Ward Beecher, "for it took me just five days to write that links the mines with their markets. The philosopher says "business is pleasure rightly constructed." We were a party of you're Ward Beecher, "for it took me just five days to write that links the mines with their markets. The philosopher says "business is pleasure rightly constructed." We were a party of you're Ward Beecher, "for it took me just five days to write that links the mines with their markets. The philosopher says "for it took me just five days to write that links the mines with their markets." do not anticipate high prices but a good demand at moderate for well packed found. Then the juvenile and at a convenient spot joined a train of the miner of the
