A BIG SHEEP DEAL
Siems & Arrington, of St. Paul, purchased 13,000 head of Sheep as a "starter" in Wool Growing in Northern Montana.
The most important sheep deal that has ever been made in Montana was concluded in this city Saturday by Mr. J. T. Arrington, for his firm of Siems & Arrington, of St. Paul, who are now entitled to the front seat among the wool growers of this territory. As a "starter" in the business, they have purchased 13,000 head of sheep, and may add a few more thousand to the number before they stop buying.
The purchases made are as follows: From May Bros., of Arrow creek, 5,000 head; from the Belt Creek Sheep Company, Sanford Allen and Frank Huy, 5,000 head—making a grand total of 13,000 sheep. Mr. Arrington has purchased the ranches with all the improvements and rights of the Belt Creek Sheep company (whose sheep were run by Allen and Huy), and at these places, or one of them, will probably be the ranch headquarters of the firm.
For the present most of these sheep will be let out on shares. Hay Bros., of Arrow creek, take 5,000 head, and the others will be run on Cors and Otter creeks.
Mr. Arrington will have the management of the firm's interest in this section, and will make his headquarters in the territory at Fort Benton. His plans as to future operations are not yet fully matured, but we are assured that they are on an extensive scale. This purchase by so enterprising a firm as Siems & Arrington, who rank among the shrewdest business men and contractors of Minnesota, will redound largely to the benefit of northern Montana, not only because their venture will prompt others who have confidence in them to make like investments.—River Press.
Coal Lands of the Northwest.
At the meeting of the national academy of sciences at Newport, R. I., Prof. R. Pumpelly, who had charge of the survey of the country along the Northern Pacific in 1881, read a paper on the Mesozoic coals of the northwest. The coals in Washington territory, northern Montana, Idaho, Oregon and Dakota are all cretaceous, from the top of the Laramie formation down. From the Missouri river west to the Rocky mountains, the coal layers are thirteen to sixteen feet thick, but are lignitic and crumble on exposure. West of that the layers are two to six feet thick, but are bituminous coals. In Judith basin, up to or past the British line, are coals from eighteen inches to five or six feet thick. The next great coal fields west of the Cascade range. Here the thickness of carboniferous formation is at least 15,000 feet. All the bituminous coal has been studied, but not yet the lignite, which is valuable. Some of these coals have been converted into natural coke, having the same chemical composition as anthracite. The bituminous coal is confined to strips along the Cascade range and Vancouver's island. The total amount of carboniferous material is very great. The coal fields of Wyoming territory have no representative in the north.
NOR-WESTERS.
Regina.
Mr. Hayter Reed, Assistant Commissioner for the N.W. Territories, returned last week from his business tour among the red skins in almost every district of the Territories. He enjoyed his trip very much with the exception of about a month in the West country, where it rained so persistently that he got a wet skin every day. He does not seem to be much the worse of his wetting judging from his bronzed and healthy physique.
Dr. Orton, M.P., of Winnipeg, was in Regina last week. He had interest in Regina from his infancy and thinks she has come through the ordeal of the "boom period" remarkably well and is on a sound basis to reach extensive prosperity. The doctor had a lot of mineral specimens with him, collected in the Rockies, some indicative of great wealth in gold, some in copper, silver, etc. He left on Saturday morning for the Rockies, where he is "medical man" for the C.P.R. employees. He is keeping his eyes open when out there and hopes to "catch on" to some mineral wealth before he gets through.

"The editor of THE NOR-WESTER is sending an address to his boss, Sir John A. Macdonald. The Canadian Premier will no doubt appreciate it, and feel much flattered. The editor of THE NOR-WESTER is not optical. Oh, no! He's as modest as the proverbial old lady of ill-repute at a christening.
Quite so; but the address is coming from the Conservatives of Calgary and surrounding country. We have no wish to enter into competition with the Gazette upon the matter of "egotism." This we decline under any circumstances in favor of the Gazette. We have no desire to intrude upon the executive prerogative of its editor.—[Ed. THE NOR-WESTER.]
A gentleman went in bathing in the usual swimming place yesterday, the 13th day of November. The air was like summer, and the water was no colder than it is below Quebec in the middle of summer. This is another good item for the 14th November.—Jim Grant and "Tex" caught 77 trout last week in Willow creek in an hour and a quarter, and not through a hole in the ice either.
We publish elsewhere an extract from the Calgary Herald regarding appeals. Col. Macleod informs us that the appeals referred to were brought before him in July, and he could do nothing because the ordinance was not passed. The ordinance was passed on the 6th of August, and provided for such cases. The Col. has been at Calgary several times since, and nothing has been said about them. If the editor of the Herald had read up his new ordinance the mistakes would not have been made of complaining where there was no ground for it. It is not Col. Macleod's duty to explain the new ordinance to everyone he meets. There is nothing to prevent these appeals being brought before him now, and we should have thought the Herald would have known this. Appeals can only be had in cases where the offence is against a north-west ordinance.
