

THE STANDARD OF THERAPEUTIC EFFICIENCY

NOT ONLY FOR THE LAST YEAR BUT FOR THE LAST QUARTER OF A CENTURY HAS HAYDEN'S VIBURNUM COMPOUND GIVEN DEPENDABLE RESULTS IN THE TREATMENT OF

Dysmenorrhea, Amenorrhea, Menorrhagia, Metrorrhagia
and other diseases of the Uterus and its appendages.

There has been no necessity for any change in the formula of H. V. C. because its therapeutic efficiency has made it "Standard" and so recognized by the most painstaking therapists and gynecologists from the time of Sims.

Unscrupulous manufacturers and druggists trade upon the reputation of Hayden's Viburnum Compound, and to assure of therapeutic results insist that the genuine H. V. C. only is dispensed to your patients.

SAMPLES AND LITERATURE UPON REQUEST.

BLOOD DYSCRASIA as a pathological entity is as indefinable as ever. But recent physiological studies have emphasized anew the part played by certain constituents of the blood as protective, restorative and reparative forces. Modern therapeutics, therefore, finds a fundamental utility in the correction of any variation or deficiency of these forces. **Herein lies the special value of ECTHOL**—an eligible preparation of selected *Echinacea Angustifolia* and *Thuja Occidentalis*, presenting in potent form a remedy of uncommon anti-morbific power.

When other remedies of the so-called alterative type fail to exert the slightest effect in the various forms of blood dyscrasia, **ECTHOL** may be depended upon to promptly produce tangible results.
