

INSOMNIA.

SLEEP, poetically expressed, is "Life's nurse sent from Heaven to create us anew from day to day." It is, indeed, "Tired Nature's sweet restorer."

Insomnia may be dependent upon derangement of the nervous, circulatory, respiratory or urinary organs, the alimentary tract, the liver, or upon febrile or general disease. It may also be caused by unhygienic conditions of heating, lighting, ventilation, diet, occupation.

Whatever its cause, which must be sought for and as far as possible removed, resort must often be had to medicinal agents.

Preparations of the Bromides, Chloral, Gelsemium, Opium and Henbane are most universally employed.

We supply these in combination in two efficient formulæ, under the name of

CEREBRAL SEDATIVE COMPOUND

(Formula A, with Opium; Formula B, with Henbane substituted for Opium), the latter for cases in which Opium is contra-indicated.

The following prescription is an eligible one for administration:

℞ Cerebral Sedative Compound,
Syr. Sarsaparilla Compound, aa ʒiv.
P., D. & CO.'S.
Sig: Dessertspoonful when indicated.

Descriptive literature of our products sent to physicians on request.
